SMITH-KELLY

(Continued from Page One)

The maid of honor and both bridesmaids all wore single strands of pearls at the throats.

The flower girl wore pale green marquisette dress patterned after those of the maid of honor and

bridesmaids. Her headdress was pale green velvet flowers, she carried an embroidered straw basket full of yellow button chrysanthemums.

A true vision of liveliness, the bride was gown in white nylon net over white taffeta. A deep net yoke, bordered with Alencon lace

formed a high round neckline accentuating the fitted line of the waist, where the full gathered skirt flowed gracefully into a cathedral train. The bodice was fashioned with long sleeves which tapered to points over the hands. Around her neck was a two-strand choker of pearls. A tasha of seed pearls and bugle beads held in place her finger veil of nylon net edged with Alencon lace. Her flowers were white roses centered with a single white orchid with tufts of white nylon net and long knotted white ribbon streamers. The groom and his attendants wore white coats and black trousers.

For her daughter's wedding, Mrs. Smith chose an aqua, rose and black print gown, with which she wore a small black velvet hat and black accessories. Her corsage was red roses. The groom's mother wore a hunters green and white print gown, a small black hat with short veil and black accessories and her corsage was also red roses.

Immediately after the ceremony the bride party with their families formed a receiving line just outside the church on the lawn where they received the many good wishes of their friends, after which a reception was held in the church basement.

After making the traditional wish as they cut their four-tiered cake, ornamented with a miniature bride and groom, under a canopy of lilies of the valley, the newlyweds left for their honeymoon trip to Canada. After their return home, they will reside in Burlington.

REAL ESTATE TRANSFER

Mr. and Mrs. Bryant Jones sold their farm of 133 acres, 5 miles south of Burlington on East Bend Road to Martin Turner of Hazard. This farm was recently purchased from Mr. and Mrs. George M. Ragland. Mr. Turner and family have moved in the house and taken possession of the pasture land. Mr. and Mrs. Jones retain the crops of tobacco corn and hay and the tenant's rights on the farm for this year. The sale was handled thru A. B. Renaker Agency, Monday of this week.

CONGREGATIONAL MEETING WILL BE HELD AT UNION CHURCH SUNDAY, AUGUST 20

The Union Presbyterian Church will have an important congregational meeting, Sunday, August 20 immediately after the morning worship, service. The purpose of this meeting is to present to the congregation plans for building a new Sunday School and fellowship rooms. Every member is urged to be present for this meeting of great importance to them and their church.

Total strength for the Navy and Marine Corps during the month of March, 1950, was 383,731 for the Navy and 77,700 for the marines.

Mass Meeting Attracts Large Crowd Friday

Group Is Called Upon To Fight Proposed Rate Increase of Telephone Co.

A group of approximately 200 subscribers of the Consolidated Telephone Company, of Boone County held a mass meeting at the Burlington courthouse Friday evening to form an organization to fight the proposed rate increase which the company plans to put into effect September 1.

Frank Milburn, chairman of the meeting called upon the group to fight the proposed rate increase. He stated that the committee thus far had been bluffing, but now have a plan of battle.

The plan referred to by Mr. Milburn was outlined in the form of a resolution drawn up by the committee, which was adopted unanimously at the meeting.

The same committee, composed of Frank Milburn, Judge C. L. Cropper, J. C. Acree, Linton Hemphill, Walter King, Wilford Scott, A. B. Renaker and Powers Conrad were selected to be in charge of the fight. Walter King was elected secretary and A. B. Renaker, treasurer. The members of the committee are donating their services, in addition to making liberal contribution to the fund.

A total of \$339.00 was contributed at the meeting to carry on the fight. It was announced. It is understood that no contribution of less than \$2.00 should be made by telephone subscribers. The committee urges all subscribers to contribute as liberally as possible to carry on the fight for better telephone service.

Following the adoption of the resolution Morris Weintraub, of Newport, was called upon to speak. He scored utilities in general, and told the group that "you must fight with everything in your power."

The resolution adopted at the meeting follows:

"Whereas, it is generally known by the people of Boone County that about 1930 The Consolidated Telephone Company then operating only in Boone County, was placed in the hands of a Receiver by order of the United States District Court for the Eastern District of Kentucky, and as a result of said receivership the plant of the Consolidated Telephone Company was sold at public auction under an order of the Federal Court above named, and that at said public auction by said Receiver, the then entire plant of the Consolidated Telephone Company was sold to a syndicate in Cincinnati, Ohio headed by John T. Murphy at the price of Seventy-five Thousand \$ (75,000.00) Dollars. It was later sold to a syndicate in Toledo, Ohio at an unknown price.

At that time, and at all times since, the service rendered to the subscribers of the Consolidated Telephone Company has been far below the standard of service which the territory of Boone County deserves to have, and

"Whereas, since that time many and divers abortive attempts have been made to secure an improvement of the service, all of which have failed to accomplish any real results for the betterment of the service, and

"Whereas, since 1930 at a time not known to those here assembled, the Consolidated Telephone Company purchased all the holdings of the Irvine Telephone Company of Irvine, Essil County, Kentucky at a price not known to any of the subscribers here assembled, and

"Whereas, the Consolidated Telephone Company has now filed with the Public Service Commission of Kentucky a petition for what it terms an "ADJUSTMENT" of rates, which is in fact a "RAISE" in price of every class of service except services rendered to

Book On Big Bone Lick Received By Historical Society

History of Big Bone Lick Is Outlined; One of Books Goes To Historical Society

Attorney Prentice Clay Wilson, treasurer of the Christopher Gist Historical Society, has received several copies of a book, entitled, "Big Bone Lick" in Boone County, from Dr. Willard Rouse Jilison, Frankfort, former Kentucky State Geologist and now serving as Professor of Geology at Transylvania University, Lexington, in which the history of Big Bone Lick is outlined. Attorney Stephens L. Blakely, president of the historical society, has announced the book.

One of the books will be placed in the library of the historical society, President Blakely said. In a foreword of the book, written by the late John Uri Lloyd, Cincinnati, president of the Big Bone Lick Association, he says in part: "Marked as one of the cornerstones of early Kentucky history, and widely recognized in those twin sciences, geology and paleontology, this famous salt lick possesses all the tributes of a monument of natural design."

The book, which was written by Dr. Jilison, tells of the discovery and exploration of Big Bone Lick, and says in part: "More than 200 years ago—in 1729 to be exact—an intrepid French Canadian soldier and explorer then commanding at Fort Niagara, Captain Charles Le Moyne de Longueuil, later the Governor of Montreal and Interim Governor of New France, descended the Ohio River from the eastern Great Lakes and discovered Big Bone Lick in Boone County, of Northern Kentucky. His was the military entourage that accompanied and protected the famous French engineer, M. Chaussegros de Lery, whose compass surveys at this time gave basis for the first reconnaissance charting the meandering course of the Ohio River."

"The Indians, as a matter of fact, relied upon this centrally located spring for much of the salt and a good deal of the game which they required. Up the broad, well-marked buffalo path from the waters of the Ohio they came making regular visits to this old salty bog to stalk with ease the great hooded beasts—the buffalo, the deer, and the elk that gathered there to lick the salt earth. And then, after the kill, they lingered in the vicinity to feast upon the carcasses of these animals, cooking or dipping them in the sulphur-saline water which nature here provided in unlimited amount."

"In the train of M. de Longueuil during the next quarter of a century that France continued to exercise domination over the Ohio Valley, many Canadians followed his path and came to Big Bone Lick. The magnificent M. de Cleron, in his lordly movement down the Ohio in 1749, however, missed it, for he turned back to the north at the mouth of the Big Miami. But in this mid-century period, others of western exploratory inclination notably Englishmen—began to make their way into this storied region. Robert Smith, a resident Indian trader, who lived on the east bank of the Little Miami opposite Twigtown, had been there with others in 1744, as he told Christopher Gist (in whose honor the Christopher Gist Historical Society was named) during his journey through central and southern Ohio in 1751.

"The usual spectacle of the 'Big Bones' scattered over the ground gave foundation for tales calculated to excite wonder and interest when told by the constantly increasing number of scouts and hunters returning from the 'Kentucky country'. Finally, as a few of the bone specimens found their way to the East, the fame of Big Bone Lick became so real that, a full decade before the first guns of the American Revolution sounded along the Atlantic seaboard, this remote and sequestered salt spring in the forested wilderness of the new world had become the subject of spirited conversation, scientific study, and much serious correspondence in Philadelphia, New York, London, Paris, and later throughout Europe."

"Colonel Christopher Gist, in the employ of the Ohio Land Company of Virginia, visited Big Bone in 1751. He records in his journal that he secured two large teeth from two men employed by Robert Smith, who, with Hugh Crawford, were just returning from Big Bone. One of these teeth, evidently from his description taken from the jaw of a mastodon, he brought in for the Ohio Company."

BORROWING MONEY

When you borrow money from your local bank you deal with home people and with people who are interested in your success and will help you in an emergency. No large fees to pay and no stock to take.

When you mortgage your farm to some other Agency they will not lend you money on an open note. They demand a mortgage on all loans.

Your credit is impaired at your local bank when you mortgage the cream of your credit to some other lending agency.

One should borrow all of his requirements at one place.

YOUR KENTUCKY STATE FAIR

Two stock automobiles simultaneously twisting end over end or side over side down the raceway in the crash roll over contest until both machines are completely demolished will be one of the big new features the Jole Chitwood Auto Daredevil will introduce to thrill seekers Sunday, September 10th at the Kentucky State Fair.

Bobo Canup, of Salisbury, N. C., and Walt Schotts, of Dallas, Texas, will tangle in this unusual contest, which is now being carried out on a national basis. The current contest started in Tampa last February at the Florida State Fair, when Canup was presented a large silver trophy, emblematic of the state title.

Chitwood, sensing the appeal of this contest, and appreciating the audience reaction to it, posted one thousand dollars as a prize for the national championship, along with a beautiful silver trophy. This fast-paced thrill-a-minute contest will be held when Jole Chitwood's Auto Daredevil appears at the State Fair on Opening Day.

The two-hour thrill circus will include 27 features, with Sleepy and Slappy, accomplished clowns, on hand to relieve the thrill tension with their questionable acts of daredevilism.

Revival Services In Progress at Bellevue

Revival services are now in progress at the Bellevue Baptist Church. Rev. Kenneth Pepper of the Baptist Seminary in Louisville is preaching in a very stirring way. He has had wide pastoral experience in Mississippi and Kentucky and will be teaching in the Seminary in the next session.

John Atherton is the song leader. He is a graduate of Moody Bible School and at present a student at Wheaton College. His messages in song have inspired all who have heard him.

The pastor and the Bellevue Church extend a most cordial invitation to all our friends and neighbors to hear these two fine men.

The services are at 8:00 p. m. each evening through August 30. Saturday, August 26th has been set aside as "youth night" and all young people are given a special invitation.

MASS MEETING ATTRACTS LARGE CROWD FRIDAY

(Continued from Page One)

churches and extensions, and "Whereas, in its petition to the Public Service Commission, the Consolidated Telephone Company has placed the sum upon which it should be entitled to earn a fair return, at \$524,059.83, and

"Whereas, the subscribers here assembled do not believe that a fair valuation of the Company's entire properties owned at this time, if properly appraised and valued, would exceed, in fact it would equal, one half of this amount, and

"Whereas, in the Company's petition the Public Service Commission, at the bottom of page 14 and top of page 15 it is stated:

"The Company has always endeavored to improve and maintain good telephone service to its subscribers and has substantially increased the number of stations which can be reached by telephone by its subscribers, and as a result thereof there has been a steady increase in the value of its service to its subscribers," and

"Whereas, those subscribers here assembled are of the opinion that the present physical condition of the company's properties, including pole lines and exchange equipment, have gradually become so deteriorated and depleted as to require practically a completely new construction, in order to afford to the subscribers in Boone County anything in the way of service even approaching adequacy, when measured by the standard of service in the counties of Kentucky, bounding Boone County, and

"Whereas, it is the belief of the subscribers to the Telephone Company in Boone County, Kentucky that if the Company would place its physical plant in condition to give any service approaching the service delivered to adjoining counties, that no objection would be made to the rates of the Consolidated Telephone Company in Boone County being placed on a level with rates of bordering counties, provided only that the physical condition of the company's plant be improved prior to the advance in the rate schedule, and not merely promised as has been so often done in the past, one instance of such promises being an except from a letter written on July 12, 1948 by G. B. Foscutt, the President of the Company, to Mr. Frank Milburn, Chairman of the Subscribers Committee for the betterment of service. That except is as follows:

"Regarding our plans for the immediate future, I gave you my assurance last night that we will continue in our efforts toward doing all things necessary to further improve the telephone service."

"Those here assembled know the extent to which the service has been improved, and

"Whereas, those subscribers here assembled desire to see and produce some actual improvement in service instead of renewed promises,

"Now therefore, be it resolved that the present subscriber committee cause to be printed in the Boone County Recorder and Walton Advertiser the following:

"To A. B. Renaker The Treasurer of the Subscribers Committee for Betterment of Telephone Service in Boone County.

Being desirous of obtaining better telephone service in Boone County I herewith enclose the sum of \$..... as a contribution to the Committee for the purpose of employing such legal and accounting assistance as they deem proper to cause to be ascertained the fair value of the properties owned by the company and useful for the rendition of telephone service in Boone County (excluding Estill County from consideration) and when ascertained that there be presented to the Public Service Commission of Kentucky a true picture of the present deplorable condition now existing in Boone County with reference to telephone service and seek the hands of that commission the fixing of a fair and reasonable rate, not based upon a promise of future improvement, but based upon actual performance by the Company after improvements be made and completed, and that such rate be neither arbitrarily low or high, but fair and reasonable when rates of similar service in surrounding counties be taken into consideration. Telephone No.

Signature of Subscriber. "Be it further resolved that all subscribers to telephone service in Boone County who are interested in securing better conditions, mail to A. B. Renaker the duly elected Treasurer of said Committee at the earliest date possible, the above coupon clipped from your paper, together with whatever contribution you may feel inclined to give."

"As The Consolidated Telephone Company has fixed September 1, 1950 as the date on which the increased rates go into effect, and while it may be impossible to prevent the rates from becoming effective on that date, if prompt action be taken it is possible to require from the company the execution of a bond to be approved by the Public Service Commission,

that will insure the prompt return of any excess charge should the Public Service Commission finally deny the raise applied for by the Company.

"Before closing we deem it proper to state that the petition of the Company to the Public Service Commission shows that as of May 31, 1950 there were in use in Boone County 2,293 telephones, and in Estill County 1,201 or a total of 3,494. These facts are shown on page 11 of the petition if one takes the trouble to add the various items (48 in number) and ascertain the totals. On page 12 of the petition the company sets forth the increased annual revenue which will be derived by it if its petition for a raise is allowed at the figure of \$29,589.27 and when this sum is divided by the total number of telephones, it will be found that the average annual increase of each

telephone amounts to \$8.46 plus. "Judging the future by the past, if a fight is not made against this unwarranted raise, the allowance will result in each telephone in the county costing approximately \$8.50 more than at present, with no improvement to offset the raise. "We will appreciate the sending to the committee of an appropriate phrase which will properly describe the feelings of a subscriber to the present service of the Consolidated Telephone Company."

BULLITTSVILLE WOMEN WILL MEET THURSDAY

C. W. GANT, Owner

Fifty years ago this fall I came to Rabbit Hash and held a revival meeting in a tent. The meeting was later transferred to the East Bend Methodist Church. While in the community I met, and later married Miss Bessie VanNess. Since that time we have come back for brief visits, almost annually. During this time we have made many friends and there have been many opportunities to preach. We have established our home in California and will leave about the middle of September. As a farewell to our friends I will preach in the open air either before or immediately after the sale. My friends know that for several years I have been almost blind, therefore my subject will be "Seeing Without Eyes."

BOOK ON BIG BONE LICK
GIVEN HISTORICAL SOCIETY

(Continued from Page One)

year of 1752, the picturesque John Findley visited Big Bone Lick on a trading expedition.

"Mary Inglis, usually accredited as being the first white woman in Kentucky, while an Indian captive, visited Big Bone Lick on a salt-boiling expedition with a part of Shawnees and three Frenchmen, in the autumn of 1758.

"Nearly a decade later Colonel George Crogan, who undoubtedly had known of the lick many years, came to Big Bone is the course of his western explorations. While here he made the first considerable collection of bones of record. Captain Harry Gordon followed in 1766, and at the instance of Crogan, made a representative collection, portions of which, consisting chiefly of mastodon and the mammoth, were sent to Lord Shelbourne and Dr. Benjamin Franklin in London, England.

"One of the most interesting early descriptions of Big Bone Lick is that found in the travel journal of Colonel Crogan. This description intrigues the imagination because it was written in 1765 at the time he was making the first extensive collection of big bones from this locality.

"In the mid-summer of 1773 when Captain Thomas Bullitt and Hancock Taylor, with the brothers, James George and Robert McFarlane, James McCoun, and Samuel Adams arrived at Big Bone on their first exploratory and surveying excursion down the Ohio and into Kentucky, the ribs and vertebrae of the vanished glacial elephants were so numerous and of such enormous size that the party occupied themselves by making seats and tents poles of these gigantic fossils.

Dr. Jilison concludes his book with annotated bibliography in which he quotes from editorials published in several Cincinnati and Kentucky newspapers.

We thank Chambers and Grubbs and the pallbearers for their courteous and efficient service. Also we wish to thank Miss Beverly Markesbery for the beautiful prayer in song; the male quartette and pianist from the church of his choice; then the donors of the gorgeous flowers, the numerous cards received during his illness, and sympathy cards to help us in our grief. We sincerely thank everyone of you and may God bless you all.

Mrs. Jesse Delahunty and Brother John Delahunty

Girl Drowns In Marydale Lake Thursday Afternoon

Two Others Saved By Priest After Boat Overturns

Angela Wilson, 14, of Covington drowned Thursday afternoon in a boating mishap at Marydale Camp, near Erlanger. Seven other young girls escaped a similar fate after the boat in which they were riding with Rev. Norbert Middendorf, capsized.

Two of the youngsters were held above water by Father Middendorf until they could grab the overturned motorboat and await aid.

The victim was the youngest daughter of Mr. and Mrs. Ralph Wilson, 854 Crescent Ave., Covington. She drowned as she attempted to swim from the capsized craft to the shore. Her body was recovered several hours later.

Erlanger, Elsmere and Covington firemen assisted in efforts to rescue the youngster.

At the time of the mishap Father Middendorf was operating the motorboat for the eight youngsters, all of whom were attending an outing for Girl Scouts of St. Aloysius church and Girl Scouts, Brownies, servers and singers of Mother of God church, Covington.

The boat capsized when one of the girls at the front of the boat shifted her weight and the nose of the craft dipped under water.

The victims body was recovered by an Erlanger policeman and a volunteer aid, after the lake had been dragged for several hours.

Boone County Coroner Robert Brugh investigated the mishap.

Ohio River Bridge Topic of Discussion At Meeting Wed.

Bridge Will Link Lawrenceburg With Route 20 In Kentucky.

A conference of Indiana and Kentucky highway officials was held yesterday (Wednesday) at Lawrenceburg, Indiana to discuss the proposed \$4,000,000 bridge over the Ohio River.

Indiana officials included Governor Schriener, Samuel C. Hadden, State Highway Commissioner and three other members of the commission, Jasper Jones, Albert Wedeking and Thomas E. McDonald, J. R. Cooper, State Bridge Engineer, and James T. Hallett, State Road Engineer. Kentucky officials at the meeting were John A. Keck, Commissioner of Highways and D. H. Bray, State Highway Engineer.

The proposed project would link Lawrenceburg, Indiana with Boone County on State Highway 20, thus giving a more direct route from Indiana to U. S. Highway 42 and 25.

MARRIED RECENTLY

Mr. and Mrs. Kenneth W. Scott

Markesbery-Scott

The Florence Methodist Church was resplendent with beauty for the late summer wedding uniting Miss Beverly Jane Markesbery and Kenneth Walter Scott, Saturday evening, August 19, at 7:30. The bride is the eldest daughter of Mr. and Mrs. Nelson Markesbery and Mr. Scott is the only son of Mr. and Mrs. Walter Scott.

The chancel of the church was verdant with palms and ferns and vases holding chrysanthemums and spikes of white gladioli were placed at each side. Tall seven-branched candelabra held white tapers that cast a mellow glow over the nuptial scene. A section of pews on each side of the center aisle were marked with bows of white satin ribbon.

Prior to the ceremony Mr. Jan Fields sang "Because" and "The Lord's Prayer" accompanied by Miss Janette Ogg, who also gave nuptial selections on the organ and played Loengrin's Wedding March as the bride party approached the altar. An air of sweet solemnity and soft music pervaded the scene.

Rev. C. N. Ogg performed the impressive double ring ceremony. The bride given in marriage by her father wore a shimmering white slipper satin gown designed with a high neckline to which was attached a round collar of all-over chantilly lace dotted with seed pearls and ruffle of chantilly edging, a snug fitting bodice pointed in front with self-covered buttons extending to neckline, long sleeves pointed over the wrists, trimmed with buttons and full skirt terminating in a Cathedral train. She wore a banner of lace topped with net ruch and pearl orange blossoms from which flowed her two-tiered illusion veil edged with chantilly lace. She carried a bouquet of white roses and ivy in cascade arrangement with a removable corsage of gardenia and lavender orchids ornamented with a bow of white satin ribbon. She also wore a strand of genuine pearls borrowed (Continued On Last Page)

Prior to the entrance of the bride party, a musical interlude was rendered by Miss Mary Glenn Newman, at the organ.

The maid of honor, Miss Kathryn Seebree, sister of the bride, wore a pink organza gown fashioned with a full skirt and high neckline. She carried a summer bouquet of pink gladioli, blue bells and tiny yellow mums, tied with a bow of yellow ribbon.

The bride was given in marriage by her father. She was lovely in a gown of white eyelet embroidered organza, which she designed and fashioned with a sweetheart neckline, short sheer sleeves, a fitted bodice and a full gathered skirt. She wore a single strand of pearls. Her headpiece was a braided band of white eyelet embroidery, which held in place her fingertip veil of nylon net. Her mits were of white embroidered eyelet. Her bouquet was of white gardenias and carnations, centered with a single white orchid and tied with white ribbon.

The groom and the best man, Mr. Clyde Cash, brother of the groom, wore dark suits. Ushers were Mr. Lindy Seebree, brother of the bride, Mr. Larry Cash, brother of the groom.

Increases In Social Security Program Outlined By Bohon

Approximately 4,999 In Local Area Will Be Benefitted.

Here is what happened to old-age and survivors insurance in the Covington, Kentucky, area when President Truman signed the 1950 amendments to the Social Security Act.

All monthly insurance checks now being paid to the 4,999 social security beneficiaries in the eight counties administered by the Covington, Kentucky, Field Office will be raised substantially, beginning with the September checks, according to Elbert M. Bohon, manager of the local office. Mr. Bohon explained that these automatic increases, for September, are scheduled to reach local beneficiaries during the first week of October. Increases will range from about 50¢ to about 100%. For example, the average primary benefit of approximately \$26 per month for a retired worker will be increased to about \$46. A widow with two children who had been receiving \$55 a month will now receive about \$110 altogether.

Under the new law the amount of earnings which a beneficiary may make in a month, and still accept his insurance payment for that month, is raised from \$14.99 to \$50. This applied to beneficiaries under age 75, and for earnings in a job covered by social security. After attaining age 75, a beneficiary may have any amount of earnings and still accept his insurance checks.

A very important aspect of the new legislation is the more liberal qualifying conditions. Mr. Bohon pointed out that any individual now age 65 or more who has at least six "quarters of coverage" may be immediately eligible for monthly benefit payments. It has been estimated that about 750,000 old people in the United States may qualify for insurance payments under this clause. Many aged persons may now claim benefits even though they have not been employed long enough to qualify under the former requirements. Mr. Bohon said that this would affect a considerable number of aged persons in this area who had once filed claims for social security benefits but had not at that time been able to qualify. The social security office here has been reviewing records for several weeks to screen as many as possible of these persons and will send letters notifying them that benefits may now be payable if the claim is renewed.

Other persons not yet age 65—those now 63 and over—will also now need six quarters of coverage—roughly a year and a half of employment in work covered by social security—to be insured upon reaching age 65 and retiring. A sliding scale requires longer employment for those reaching age 65 after 1933, but in no case will a person be required to have more than ten years of employment under social security in order for benefits to be payable.

It is possible for newly-covered workers to become insured for survivors benefits in a little time as a year and a half under another provision of the law.

The benefits will continue to be paid for in the same way—by payroll taxes on the workers and employers involved—but since self-employed as well as employed persons are now covered, a new way of collecting part of the taxes was called for. Self-employed persons will report their annual earnings and pay their special social security tax (2 1/2% to start with) when they make their income tax returns at the end of each year.

Present tax rates will more than pay for the increased benefits at first, but higher contributions will be necessary as more people retire, or die. The law provides that employee and employer will pay 1 1/2% of payrolls through 1953, 2% until the end of 1959, 2 1/2% until the end of 1964, 3% until the end of 1969, and 3 1/2% thereafter. Only the first \$3,600 of wages in a year will be taxed. The report of an increase from the \$3,000 wage base which has been in effect since 1937.

Self-employed people, who are in effect both employee and employer, will pay 2 1/2% through 1953, 3% until the end of 1959, 3 1/2% until the end of 1964, 4 1/2% until the end of 1969, and 4 3/4% thereafter, on the first \$3,600 of net self-employment income per year.

The new law gives wage credits of \$160 per month toward old-age and survivors benefits for military service in World War II. These wages are to be used in computing all monthly benefits payable on the basis of veterans' wage records after 1949, whether the veteran died

in service or after discharge, and regardless of whether pension or compensation is paid by the Veterans Administration.

Included in the social security program for the first time, and under special conditions, are household workers regularly employed in private homes. Household workers, including maids, cooks, laundresses, practical nurses, gardeners, chauffeurs, etc., will receive credit only for their cash wages, and will not be covered by the law at all unless they are employed 24 days or more and their cash wages are over \$50 in a calendar quarter.

Regular farm workers including household workers in farm homes, will be covered by social security beginning in January. To be affected, the worker must be employed by one farm operation for a period of not less than five months and those months must fall within two calendar quarters. After full three months employment in the first quarter, the employee must work for the same employer in the second quarter not less than 60 days with cash wages of at least \$50 for work in that quarter. This bars occasional or seasonal farm workers and itinerant harvesters from coverage under the new social security law.

Voters Favor Tax Hike For Purpose Of Building New School

In Walton-Verona School District Election Held Saturday.

The election was held for the purpose of determining the will of the Walton-Verona school district property owners on a special school building fund tax, which would increase the tax 50 cents on each \$100 assessment. The additional funds from this levy will be used to construct a new building in the town of Walton.

By the vote cast Saturday, the school board was given the green light to issue bonds and start the new building as soon as bids and building materials are available. Plans for the new structure call for the removal of the old buildings with the exception of the gymnasium, which will be used, being in very good condition.

Homemakers Enjoy Picnic

Bullittsville Homemakers, their families, relatives and friends enjoyed a picnic recently in the Boone County fairgrounds. The weather cooperated beautifully, and though the fish would not bite, even the gentlemen said, "It is good to be here." The tables fairly groaned with delicacies that appeared magically from well filled baskets as the folks arrived. By request, the Rev. A. C. Young of Bullittsville Christian Church asked for the bountiful food.

The remainder of this pleasant day was spent in games of skill, just talking and strolling around this beautiful area.

Martha Pfalzgraf, Bob McCrann and Mrs. A. B. Ligon proved to be the best guessers and walked off with the following prizes: home-made fudge, shaving lotion, and a refrigerator (toy). Terry Roberts exhibited much skill in a sack race and got first prize.

Three-legged race, demonstrated by Mrs. J. Ligon and Mrs. B. Roberts, was won by Nell Jo Hensley and Bonnie Wilson.

The hilarity came to a climax as two of our portly ladies entered this race, anonymously. Their only award was the mirth they provoked and two tiny all-day suckers.

All credit for this fine entertainment goes to the recreation committee, Mrs. Ray Hill and Mrs. Thomas McCrann.

All reluctantly departed at a late hour, looking forward to a similar occasion at the close of another club year.

JONES REUNION HELD
A reunion was held at the home of W. H. Jones on Price Pike, Sunday, August 27. The occasion was in honor of John Franklin Jones and Wendell Jones who will leave for the U. S. Army soon, Frankie Jones and Charles Jones who will join the U. S. Navy in the near future and the birthday of Martha Lucille Jones.

Those present to enjoy the occasion were: Mattie Jones, Lela Jones, Mayme Jones, Alex Jones, Fanny Jones, Wendell Jones, Mary Jane Reimerson, Charles Jones, Allene Kirk, John F. Jones, Imogene Robinson, Orville Jones, Kathleen Jones, Frankie Jones, Loretta Maynard, Martha Lucille Jones, Donnie Jones, Anna Sue Mullins, Bonnie Sue Mullins, Kenny Lee Mullins, Orville Conrad, Betty Jo Conrad, Judy Conrad, Tommy Robinson, Jimmy Conrad, W. H. Jones, Lucille Jones.

REAL ESTATE TRANSFERS
The 72-acre farm known as Rob Aylor farm near Hebron was sold to Chas. and Wilton Clore, of Hebron.

A nice brick home on Donaldson Highway belonging to Mr. and Mrs. Harsley, of Cincinnati was sold to Mr. and Mrs. C. F. Baker, of Frankfort, Ky.

The above sales were made thru Jones, Conner and Gaines.

DUVAL TO VISIT COUNTY
F. E. Duval, field secretary of the Kentucky Disabled Ex-Service Men's Board, Louisville, will be in Burlington at the courthouse Friday, September 8, from 8:00 a. m. to 4 p. m. for the purpose of aiding veterans and their dependents in filing and prosecuting claims for benefits which they may be entitled from the Veterans Administration.

SPECIAL APPROPRIATION INCREASES DAIRY PREMIUMS AT STATE FAIR
The 1950 Kentucky Legislature passed House Bill No. 422, which is an act to aid in the development and promotion of the Purebred Cattle Industry in Kentucky. It asks the Department of Agriculture headed by Commissioner Harry F. Walter to aid, encourage, foster and promote the development and the improvement of the Purebred Cattle industry in Kentucky. The bill appropriates money to be used for this purpose under the direction of the Commissioner.

The bill specifies \$7,000.00 to be used for promoting Purebred Dairy Cattle, of which \$2,000.00 is to be spent for advertising. Representatives of all the breeds of dairy cattle met with the Commissioner and decided to add the \$5,000.00 to the State Fair Dairy Show premiums. This money has been well distributed among the breeds of cattle and in both open and Kentucky classes. This additional money should make the 1950 Fair Dairy Show the greatest in history and should make the 1951 show even greater.

More and better dairy cattle should be attracted to this show from both inside and outside the state of Kentucky. More dairy farmers should be attracted to this great show, and greater interest in the improvement of dairy cattle should be encouraged. The interest in dairy cow improvement is one of the most important answers to the dairy income of the future and the future of dairying in Kentucky in general. As dairymen, we must get interested in improving the breeding and management of our herds by using the outstanding tools that are available for this purpose in our state.

SHORT CUTS, TRICKS MAKE SEWING EASIER

That sewing is fun when one knows short cuts and the tricks that make for smart-looking, well-made costumes was indicated in four counties at "cotton teas" given in May by homemakers club members. In Lyon county, 71 homemakers modeled their new cotton dresses; Hancock county, 54; Letcher county 40, and Bell county, 40. About 400 women were in attendance.

Every dress exhibited bore evidence of the suggestions made at training schools by Miss Dorothy Threlkeld, specialist in clothing at the College of Agriculture and

Home Economics, University of Kentucky. There were careful matching of stripes and plaids, use of washable trimming and buttons on preshrunk fabrics, designs that were suitable to the wearer, well-made belts held in place with fabric slides and pieces carefully cut on the grain of the material. Many of the homemakers said they found these sewing suggestions valuable as they sewed for their children.

The Gage 4-H Club in Ballard county added to its treasury by painting 55 rural mailboxes and stenciling on them the owner's name.

Wednesday W. K. Souther and P. J. Allen spent a pleasant day at the Pure Food show, an annual event held at the Zoo. The Zoo is also celebrating its Diamond Jubilee.

Members of the John T. Stephenson family attended funeral services for Eldon Wolf 38, a nephew of Mrs. Stephenson, held Sunday at 2:30 p. m. from the Tallafiero funeral home, Erlanger. Mr. Wolf succumbed Thursday at St. Elizabeth Hospital, Covington. He was a son-in-law of Stanley Crouch, former co-owner of the Erlanger Hardware Co. He had made his home in St. Petersburg, Fla., the past three years and returned to Covington recently for a physical examination. Services were conducted by Rev. Dearing, assisted by other ministers. Burial was in Hopeful Cemetery. He leaves his widow Mrs. Martha Crouch Wolfe; two sons, Walter and David Wolfe; and his parents, Mr. and Mrs. Walter P. Wolf, Erlanger. Sympathy is extended the family.

BULLITTSVILLE CHURCH NOTES

The young adult group of the Bullittsville Christian Church, who call themselves the Crusade Class met Friday evening with Mr. and Mrs. Ben Kottmeyer at their charming home in Hebron. At this meeting it was decided by the young women to follow the suggestion brought by Mrs. June Stanley from the state office to form a younger women's missionary society. To

this end they will meet September 21 with Mrs. Davis Gaines at 8:00 p. m. That would be a good date for young women to remember, and let pay take care of the children. Meanwhile the scheduled regular missionary meeting will convene at 11:00 a. m. at the home of Mrs. Al-

bert Willis on Friday, September 1. The young folks of the church—the C. Y. F. met Wednesday in the recreation room of the new parsonage and the next younger groups had a picnic that day. Mrs. Cassius Sullivan helped transport them in her truck.

WASHES AND DRIES AT THE SAME TIME Plus 2-WAY WASHING

AUTOMATIC'S Exclusive DUO-DISC

For ordinary items... shirts, pillow cases, handkerchiefs, the spin-dry is in normal position (left above)... washing the big heavy things (overalls, blankets, bedspreads) is simple—just invert the DUO-DISC—and watch 'em come clean in minutes... Two-Way Washing in One Machine!

Now HERE is the last word in a spin-dry type washer! Smartly styled... simple to operate... does your washing so much easier and quicker.

- LESS WASHING TIME. Wash in one tub... rinse a full load and spin damp-dry in the other tub at the same time.
- LESS RINSING TIME. No set tubs are necessary for this washer. Rinse right in the spinner basket. Power rinse-spinning is thorough—gentle.
- NO WRINGING NECESSARY. With this spin washer there's no more wringing piece by piece. Spin a whole load of clothes damp dry at one time.
- LESS LINE DRYING TIME. The DUO SPINER gets out more water than ordinary methods. Makes less weight for you to carry to the clothes line.

C. W. GANT, Owner

Fifty years ago this fall I came to Rabbit Hash and held a revival meeting in a tent. The meeting was later transferred to the East Bend Methodist Church. While in the community I met and later married Miss Bessie VanNess. Since that time we have come back for brief visits, almost annually. During this time we have made many friends and there have been many opportunities to preach. We have established our home in California and will leave about the middle of September. As a farewell to our friends I will preach in the open air either before or immediately after the sale. My friends know that for several years I have been almost blind, therefore my subject will be "Seeing Without Eyes."

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

VOLUME 75

BURLINGTON, KENTUCKY THURSDAY, SEPTEMBER 7, 1950

NUMBER 8

Boone Schools Will Open Monday, September 11th

Large Increase In Enrollment Expected, Says Superintendent.

The Boone County schools will open Monday, September 11 with a large increase in enrollment over last year, according to H. N. Ockerman, Supt. School closed last year with a membership of 1882 pupils. Of this number 982 were boys and 899 girls.

The greatest increase in enrollment is expected at Florence, followed by Hebron and then by Burlington. In order to lighten this increase, no high school pupils will be transported to Florence for commercial work as has been done in the past two years. All juniors and seniors in the four high schools had an opportunity to take commercial work at Florence year, consequently have had commercial work if they so desired. Also no new students outside the county will be permitted to enter our schools this year, except in extreme cases where undue hardships would be involved on parts.

At Hebron an extra room has been provided for an additional teacher. One of the rooms in the agriculture building has been converted into a classroom. The extra room at New Haven will be used this year to relieve the crowded condition in the elementary grades.

The interior of the New Haven school has been completely renovated. The exterior of the school building excluding the gym will be covered with Perma-Stone as soon as specifications can be approved by the State Department of Education. This is being done to prevent moisture from seeping through the walls.

Several major improvements to the elementary schools are in process of being started. The blueprints and specifications for Constance, Petersburg and Bellevue schools have been approved by the State Department of Education and are now awaiting approval by the State Health Department.

In the rear of the Constance school where the two wings meet, rooms will be constructed to accommodate an extension of the inside rest rooms. Petersburg will have two additions for rest rooms. These will be constructed on the sides at the end of the back hall. It is so designed that pupils from the lower and upper grade rooms can go to the cafeteria without going outside of the building or passing through the middle grade room. The two old hot air furnaces will be removed and a new one installed. At Bellevue the addition will be in the front corner where the present hall joins the classrooms. The addition on the side next to town will not only fill the corner, but will come down the side of the present fifth and sixth grade rooms. There will be a rest room, kitchen and furnace room. The present fifth and sixth grade rooms will be used as a cafeteria. Two class rooms on the second floor will be so designed that they can also be used for assembly programs.

At Hamilton the rearrangement of rest rooms has also been planned.

In the remodeling of all these buildings an adequate water supply is in all specifications. Several new teachers have been added to the schools for the coming year. New Haven will have four of them. Elmer T. Lee will head this school as principal. Mr. Lee has had several years' experience in school work, and for the past few years has been connected with the Bell County schools. Before accepting this position, he had been elected to take over the principalship of a large independent system, one Jack High School. Mr. Lee is married and has two children. During the past summer he attended the University of Kentucky where he did graduate work. Mrs. Lee will also teach in the upper elementary grades. She is a college graduate and has been teaching in Bell County. Beverly Bower, of Lexington, who was enrolled at U. K. this summer as a senior, will also be an elementary teacher. M. B. Fincher, who for the past nine years has been a first grade teacher in northern Indiana, will be the primary teacher. Miss Fincher is a graduate of Eastern Teachers' College and has done graduate work at the University of Cincinnati. This will be the first time since the shortage of teachers that all teachers in the New Haven system will have regular certificates.

At Florence, Duncan Huey, a native of Boone County, with teaching experience at Jackson and

Berea, will be with the high school faculty. Mr. Huey has completed his masters degree at the University of Kentucky. Miss Edith Haddix, who has had experience as a teacher in Eastern Kentucky, and who received her masters degree this summer from University of Kentucky will be teaching the elementary grades. Mrs. Fannie Collins, a former Boone County woman who recently purchased a home at Petersburg will be added to the Hebron faculty. Mrs. Collins is a college graduate and has been teaching in Dothan, Ala. Mrs. Virginia Graves, of Bullittsville attended U. K. and U. C. and will teach at Hebron school.

Mrs. Duncan Huey, a former Boone County teacher will be at Burlington. She is a college graduate.

Mrs. Roberta Wainwright will be the elementary teacher at Hamilton. She attended Georgetown College and is classified as a beginning senior.

A beginner in order to enroll in school must be six years old before October 11, 1950. If after the first week a teacher has less than 35 in a room, younger children will be taken according to their birthdays as recorded by Mrs. Reimer. All beginners must have a physical examination before entering school.

The following is a list of teachers for Boone County Schools, as selected by the Boone County Board of Education.

Burlington Cops Knothole Honors Friday Afternoon

Sixteenth Victory Marked Up; Boone All-Stars Wig.

Burlington copped the championship honor of the Boone County Knothole League by defeating Florence 7-1 in the elimination series, giving the winners their sixteenth consecutive victory with no defeats throughout the entire season.

McFarland was on the hill for the winners, allowing Florence only one hit, while his teammates collected seven bingles from the opposing moundman.

Leading the attack for the winners were Deck with two hits, McFarland, Rouse, Warren Ryle, and Patterson. Rouse had a triple and Warren Ryle collected a homer in the contest. The game was played at the winner's grounds.

Boone County All-Star Knotholers turned back the Campbell County All-Stars in a Labor Day game by a score of 6-0.

The locals apparently were in splendid form both offensively and defensively, collecting seven hits and having one double play and one triple play to their credit.

Deck was on the hill for the winners, and added to his own cause with two hits, followed by Baker, Elie, Garnett, Jarrell and Slayback with one each.

Although Labor Day marked the close of Knothole games, Campbell County is making plans for a game with the Boone All-Stars in the near future, according to R. I. Rouse, Burlington manager.

Mrs. Allen Sullivan is ill with double pneumonia.

Ohio River Bridge Assured Following Meeting Wednesday

Of Indiana and Kentucky Officials; All Points Are Clarified.

The Kentucky-Indiana bridge over the Ohio River at Lawrenceburg, Indiana, and Boone County, connected with Highway 20 near Petersburg was assured, following a meeting of Kentucky and Indiana officials Wednesday of last week at the Schenley Hospital Center in Lawrenceburg, Ind.

Final points in the bridge program were discussed, with Indiana building the bridge and Kentucky providing adequate highway approaches on the Kentucky side.

John A. Keck, state highway commissioner stated that Kentucky will provide improved roads anywhere in the state whenever traffic conditions warrant it. It is expected that the proposed bridge will bring about that situation.

A survey indicated that the span will bring between \$8,000,000 and \$10,000,000 to the Kentucky-Indiana area in yearly revenue through travelers over the bridge.

The span, to be called the Ohio Memorial Bridge, will not cost the taxpayers of either state one cent, it was pointed out. Plans call for a small toll to be charged to retire bonds to be issued to pay for the construction.

The next step in the program is the drawing up of final plans which will take about six or eight months. Construction will require approximately 18 months, it was reported.

Officials at the meeting included from Indiana: Governor Schricker, Walter Koch, Carl Knapp, and O. M. Keller. Those from Kentucky were Mr. Keck, William B. Kirlin, Dwight H. Bray, and H. R. Creal.

A delegation from Boone County, included Wendell Easton, William P. McEvoy, Wilton Stephens and Hubert White.

Surveys and preliminary planning are being conducted by G. Wood Smith, official of Sverdrup & Inc., St. Louis, consulting engineers.

Sixteen Fined On Motor Violations In County Court

Sixteen persons were fined in Judge C. L. Cropper's Court Monday on traffic violations, it was reported Tuesday. Three of the violations were on drunken driving, while sixteen were on reckless driving charges.

Those fined for operating a motor vehicle while intoxicated were W. L. Hunt, of Scottsville, Ky.; Robert Solomon, Cincinnati and Ray R. Marksberry, Covington. Each of above were fined \$104.50 and their drivers license suspended for a period of six months.

All of above arrests were made by State Highway Patrolmen.

Mrs. Fannie Kreiner

Funeral services were held at 2:30 p. m. Friday at the Tallaferro funeral home, Erlanger, for Mrs. Fannie Kreiner, a resident of Elsmere for 10 years, who died Wednesday at the home of her daughter, Mrs. James Phillips, 136 Kenton Street, Elsmere. Burial was in Hopefield Cemetery near Florence.

Mrs. Kreiner, leaves her daughter, Mrs. Phillips and three grandchildren.

Local Insurance Agent Enters Contest For Free Trip To Conference

Eleven Kentucky Farm Bureau Insurance Agents will be selected to attend the "All American," Insurance Conference to be held at Dallas, Texas on December 11-14 in connection with the American Farm Bureau Federation Convention.

The winners will get an all-expense trip to the convention and they will be selected on the basis of production in August and September. The delegates will receive recognition before the convention along with team of many other states.

The production rules require certain amounts of life, auto, fire and wind insurance and a minimum of new Farm Bureau members to be secured by the insurance agent during these two months.

John E. Croigler, local Boone County agent states that he is trying for this big trip and that he has made over 50% of the points necessary to qualify. Here's hoping that John will be one of the successful agents in the state contest.

Notes and Comments

From the Editor's Desk

Freedom First

As everyone realizes by now the conflict in Korea is no longer a police action. It is war and according to those charged with the responsibility of conducting it, a major effort in terms of men and material will be required of the United States and her allies to win. At present the planners estimate we will need 10 to 15 fighting divisions, 150,000 or more troops, a year's time and masses of war material. Moreover, in the background is the incalculable threat of Russian inspired aggression breaking out elsewhere.

In the meantime domestic problems gather momentum along with mobilization. The old story of rising prices and wages is going through its paces. Living costs on June 15—just before war in Korea—on the basis of the U. S. Bureau of Labor Statistics consumer-price index, stood at 170.2 per cent of the 1935-39 level. By mid-July, those costs were at about 172 on the index. Now, after still more increases, they are at the highest level in history. Inflation is no longer a spectre. It is a reality.

The fact that it was inevitable does not lessen its threat to the American system and the freedom of the people. The costly necessities of military defense piled on top of an incredibly extravagant peacetime government structure are hitting hard where it hurts most—the household pocketbook. The currency in that pocketbook is losing its value. Pressure is rising for Congress to do something. But even among the best informed there is basic disagreement as to the best course to follow.

Bernard Baruch, who in his eightieth year has become known as America's elder statesman and who has been the respected adviser to presidents and congresses for more than a quarter of a century, believes only by immediate imposition of all out controls with taxes "higher than a cat's back" can the war effort be effective and the future liberty of the people secured. Before a congressional committee he demanded: "An overall ceiling across the entire economy, over all prices, wages, rents, fees and so on, with high enough taxes to prevent profiteering and to pay all defense costs, and an embracing, effective system of priorities."

Equally able observers have vastly different views. Henry Hazlitt, leading economist and commentator writes: "The Administration's real duty now is not to start dictating prices and wages but to halt its own inflationary policies. It must ruthlessly slash needless non-military expenditures. Senator Byrd, in an itemized statement, has estimated that the whole appropriation of \$10,500,000,000 that the President requested could be taken out of the present nonmilitary budget. . . . The government must stop holding up prices of foodstuffs artificially; it must stop financing its inflationary housing boom; it must stop subsidizing an inflationary export boom. It must stop its inflationary government bond-pegging policy; it must stop its inflationary low-interest rates. . . . If such steps are taken we need not fear inflation, and we will get the all-out production that only free markets and a free economy can provide."

Regardless of whom you may agree with, one thing should be kept in mind—the first responsibility of every American citizen is the perpetuation of individual liberty and our representative form of government. This primary objective must always remain ahead of personal comfort and security.

Inconvertible

"There is one economic lesson which our Twentieth Century experience has demonstrated conclusively—that America can no more survive and grow without big business than it can survive and grow without small business. Every fact of our economic and industrial life proves that the two are interdependent. You cannot strengthen one by weakening the other; and you cannot add to the stature of a dwarf by cutting off the legs of a giant."

"The American industrial machine is a unit, just like an automobile. It is made up of big parts and little parts, each of which does its own particular job and all of which are intricately fitted together. You may think that it would be fun to sort them all out into neat piles according to size to please statisticians. You could even pass a law declaring that all the parts must be the same size, and the theorists, no doubt, would be delighted. But when you get through, your automobile won't run—and neither will American industry."

Benjamin F. Fairless.

Homecoming And Dedication Services Planned Sept. 10th

At Bullittsburg Baptist Church; Former Pastors Will Be Heard.

Bullittsburg Baptist Church extends a cordial invitation to all its members, former members and friends to come and worship together in the annual homecoming service Sunday, September 10th.

Bullittsburg Church has been a monument directing men's vision to God for 156 years since the early days of pioneer Kentucky. It is a sanctuary to God's presence in the present and a challenge to greater Christian living in the future.

The program for the day includes the dedication of the newly completed pastorial. The guest speakers include former pastors and Mr. Robt. L. Pogue of the Western Recorder office, Louisville, Ky.

During the past three and one-half years the church has constructed a basement under the church at a cost of \$7,500.00, and is now debt-free. The church has completed a new pastorial which it is hoped will be paid in full Sunday.

Rev. Patton said, "May the good Lord bless all who have given and those who will contribute cheerfully yet."

Local Man Purchases Registered Jersey Cattle

William Armstrong, Route 1, Walton, Ky., has purchased his first registered Jersey cattle, as announced by The American Jersey Cattle Club from its national offices in Columbus, Ohio. He has purchased six Jersey females from the herd owned by Robert Jackson, of Kenton, Ky.

The Jersey breed had its origin on Jersey Isle, one of the Channel Islands located off the coast of France. Today Jerseys are found on every continent and are proving to be extremely versatile in adapting themselves to all kinds of climatic conditions.

Forty-two per cent of the dairy cattle in the United States are Jerseys. Their milk finds a ready market because of its high food value and rich flavor.

IN LOVING REMEMBRANCE

In loving remembrance of my dear husband H. Ell Carpenter, who passed away August 30th, 1949. Jesus while our hearts are bleeding O'er the spools that death has sown We would at this solemn parting Calmly say, Thy will be done. Thou didst give and thou hast taken, Blessed Lord "Thy will be done." It was on a Tuesday morning We shall never forget the day When came the silent reaper And took our loved one away. Although unable to speak to us And could not say goodbye, We knew his thoughts were with us When he was called to die. When the evening shades are falling, And I am sitting all alone, In my heart there comes a longing If you only could come home. Oit and oft our hearts do wander To a grave not far away, Where we laid our loved one Just one year ago today. Sadly missed by Lillie Carpenter. May God bless us all. 14-p

LADINO AND GRASS MAKE BIG PASTURE

After reviewing the experience of Albert Ward in running steers thru the winter on Ladino clover, bluegrass and timothy, County Agent Troll Young of Washington county said:

"A mixture of Ladino clover and a good blade grass, such as bluegrass, orchard grass or Ky. 31 fescue, will produce more year-round pasture than anything else, on well-fertilized or highly productive land. Such a mixture will carry two or three times as much stock as ordinary grass."

The Washington county agent noted that Ladino clover takes plenty of lime, phosphate and potash.

SOMETHING NEW ADDED AT KENTUCKY STATE FAIR

Something new has been added to the 1950 edition of the Kentucky State Fair Horse Show. The Kentucky State Fair Horse Show, which will begin the second day of the Fair, Sept. 11, and continue through the last day, September 16, has had the classifications of all its divisions revamped.

More money has been added to the premiums in many of the events. The show will award \$38,320, plus an additional \$7,181 for the American Saddle Horse Breeders Futurity, or a total of \$45,501 to horse exhibitors.

Leon F. Simms and Ned King, manager and associate manager, respectively, of the 1950 Horse Show by the distribution of more prize money and changing of classifications have added even more prestige to a show that already has been recognized throughout the country. Every night will be a championship night. The Horse Show is rated an "A" show in the

three and five-gated, fine harness, and hackney divisions.

To assure spectators of no delay in the shows a new rule has been added this year. The rule states that the gate to the show ring remain open for just three minutes after a class is called to the ring. After the three minutes have elapsed, the gate will be closed and no tardy exhibitor will be allowed to

show his horse. Loud speakers in the stable area will keep exhibitors posted on the progress of the events preceding the one in which they are entered.

NO HEARING AID need sell for more than \$75

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATION-L NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

RESERVISTS NAVAL ACADEMY APPLICATION DUE BY SEPTEMBER 30

The Commandant of the Fifth Naval District announces that applications for appointment to the U. S. Naval Academy by eligible members of the Volunteer and Organized Naval Reserve must be submitted prior to September 30 1950. The Secretary of the Navy is authorized to appoint 160 midshipmen to the Naval Academy each year from enlisted men of the Naval and Marine Corps Reserve. A limited number of reservists applying under this quota who are ordered to active duty will be assigned to the Naval School and College Preparatory. These provisions do not apply to reservists on active duty in connection with the Naval Reserve Program.

Last year 663 reservists made application with only 13 of these applications coming from the Fifth Naval District. Of the total number, 138 applicants were appointed as midshipmen to the Academy.

Our Industrial Capacity

Possibly one good reason for hesitancy on Russia's part to attack this country directly is the unquestionable certainty that the Kremlin knows the extent of American industrial capacity far better than the average American. Following are reports of leaders in key industries:

Steel: "Today we have more capacity than all the rest of the world put together. Since the last war started, we have built as much new steel capacity as existed in Germany when that war began. This excess capacity is sufficient to meet the present demand." Clarence B. Randall, president of Inland Steel Co.

Rubber: "Today we have not one but two raw materials—natural and synthetic rubber. Before World War II we could turn 85,000 tons of rubber into finished products each month. Now we can process 110,000 tons a month. Before World War II our industry had about 150,000 employees. Today, we have over 200,000." Harry E. Humphreys, Jr., president of United States Rubber Co.

Oil: "There is no need for rationing, even if military demand expands substantially from present levels. Since the end of the last war, the petroleum industry has increased its capacity by more than 25 per cent." Dr. Robert E. Wilson, chairman of the board of the Standard Oil Co. (Indiana).

Electric Power: "Right now the electric utility industry has one third more generating capacity than at the end of the last war, and by the end of 1953 will have three-quarters more." Louis V. Sutton, president of the Carolina Power & Light Co.

Textiles: "With cotton and synthetic-fiber textile production far ahead of last year, there will be plenty of clothing available in the coming months. Total output of broad woven goods made of cotton is expected to exceed last year's production by 1,500,000 square yards." Donald Comer, chairman of the board of Avondale Mills.

Machine Tools: "The industry has far larger capacity than at the start of the second war and could be expanded to meet twice the present demand." Charles J. Stillwell, president of Warner & Swasey Co.

Food: "There is absolutely no reason for panic buying of foods. We have a more abundant supply on hand than before." Morris Sayre, president of the Corn Products Refining Co.

In response to queries of officials charged with the task of insuring the nation's security has virtually said to the government, "Tell us what you want—we can fill the order."

Check The "Liberals" While the American people have a hearty dislike for socialism, they may one day wake up under its yoke.

John T. Flynn, in his book entitled "The Road Ahead," describes how free societies change to some form of socialism. He points out that a primary step in that change is the government operation of key industries such as electric power, and the highly respected Brookings Institution, in a factual study of the rise of Hitler and Nazism, discovered the same pattern—first, seizure and control of key industries. These findings should be of deep significance to the people of the United States because there is a definite program within our country, sponsored by a small clique of public officials, for government operation of key industries—beginning with the electric industry. This program coupled with excessive government non-defense spending, unless thwarted will lead to socialism.

Many of the promoters of government spending and nationalization of industry are apparently not even aware of where they are taking the country. They are men of good will. They rank themselves as liberals. They are free with the tax money of the people and easily accept the idea of government guidance, support, and coercion of the private citizen, supposedly for his own good. They abhor the brutalities of political oppression but they are sowing its seeds.

The menace in this situation is well illustrated in the Southwest. There the public ownership drive gained added momentum recently when the Southwestern Power Administration devised a scheme by which it can circumvent congressional restrictions on Federal construction of steam-generating plants and transmission lines that duplicate existing investor-owned facilities. Several states are threatened with this Federal power mon-

opoly and yet the people in the area are not aware of the danger. When questioned about it the farmers in the Southwest expressed strong opposition to government in the electric business but only 8 per cent of them had ever heard of the Southwestern Power Administration!

It seems almost incredible that an alien political philosophy, such as socialism, could creep up on a people who despise it but that is just what is happening at an accelerated pace. It is time the self-styled "liberals" leading the parade be asked for an accounting.

Bob and Gene Take Honors in Times-Star Championship Game

Bavarian Nine Receive Runners-up Cup; Boone Games Postponed.

The Bob and Gene baseball team, champions of regular season play in the KAG League, defeated Stanley Bavarians, champs of the strong Buckeye League, in the final of the Kentucky Times-Star baseball tournament last week by a five to three score at the Covington ball park. The game, according to veteran baseball observers, was one of the best played games ever staged in northern Kentucky.

The Bob and Gene team, though a slight underdog in the contest, mined the clutch pitching of Ray Mignery and the timely hitting of the veteran Boyd Mahan and Ray Baute were able to squeeze out the win. Mignery gave only five hits and the three runs scored off him came after Bob and Gene's only misfire of the game plus another hit and a walk filled the sacks for a base-clearing double.

Ray McKinley, Stanley's heretofore undefeated pitcher, was on the hill for the losers and was touched for ten bingles.

The runners-up cup was presented to the Bavarian team by Judge Stanley Moebus of Campbell County and the winner's cup was presented by Boone County Attorney William McEvoy.

The Bob and Gene team was rained out in the elimination series game last Sunday at Florence. Verona eliminated Falmouth in the playoff Sunday by scoring a six to nothing win.

Boone League

The weatherman again won in the Boone County Saturday League last week as the final playoff game between Hebron and Burlington was postponed for the second time. The game has been rescheduled for the Burlington park this Saturday afternoon. The winner of this "rubber" game will meet Big Bone in a series for the Boone County championship.

Tax Bills Due September 15th, Under New Law

Bills Not Paid By January 1, 1951 Will Become Delinquent.

Changes made in the tax collection calendar of the state by the 1949 special session of the legislature provide that 1950 tax bills on the 1949 assessment will become due September 15, 1950, according to Sheriff Wendell H. Easton.

Under the provisions of the new law KRS 134.020, the 1949 assessments will become due September 15, 1950 and will become delinquent on January 1, 1951. Bills not paid before January 1, 1951 will carry a penalty of two per cent and bills not paid before February 1, 1951, will carry a penalty of six per cent.

Sheriff Easton announced that the discount period will remain the same this year as for previous years, September 15 to November 1. Taxpayers paying their tax bills during this period will be allowed a discount of two percent.

Taxpayers can pay their bills at the Sheriff's office, Burlington, or at any of the banks in Boone County.

State Slogan To Appear on 1951 License Plates

Slogan Will Read "Tour Kentucky"; Color Is Black and Aluminum.

After an absence of many years a state slogan will again appear on Kentucky's 1951 automobile license plates.

All 1951 passenger car plates will bear the slogan "Tour Kentucky." The color scheme will be black letters on an aluminum background, Robert A. Thompson, Director of Local Relations Division, Department of Revenue announced in Frankfort.

The slogan was approved after consultation with other departments, groups and individuals active in promoting Kentucky. The color scheme was selected by the Department of Revenue and approved by the Kentucky State Police Department.

The plates are being manufactured at the State Reformatory at La Grange. They will be made of steel this year with one plate for each vehicle.

The plates will go on sale in December in each County Clerk's office throughout the state.

Burlington Girls Win Boone County Softball Title Thurs.

Defeating Hebron By Score of 10-0 In Final Game of Playoff.

The Burlington girls softball team won the Boone County championship when they trounced Hebron girls at Florence ball park last Thursday night by a score of 10-0. This was the final game of a three games series with each team having one victory and one defeat.

Ray Bowman started the offensive rolling when he doubled thru shortstop and took third on a bad throw. The throw to third was high and Miss Bowman scored.

The one run made by Miss Bowman apparently sparked the winners with Burlington pounding out many hits, piling up ten runs. The champs were probably at their best in this game. Mary Scott was the starting pitcher for the winners and was relieved by Pauline Feldhaus who completed the game by striking out the first three Hebron batters in the last of the seventh inning.

Lola Mae Slade pitched good ball for the losers but could not overcome the errors made by her teammates.

Tommy Scott added to the cause of the winners with a home run with two on base. The outstanding defensive play of the game was made by Betty Jean Gully who caught a hard hit line drive, doubling a Hebron girl off first base.

Classification Of The Bones

N. TULCH

Foot Comfort Specialist at
PEOPLE'S SHOE STORE
814-816 Madison, Covington

In the fetus or unborn child, the bones first consist of masses of cartilage which about the second month of fetal life begin to ossify, or become bony. In a long bone, which may be taken as an example the process commences in the center of the shaft and proceeds toward the extremities, which for sometime remain cartilaginous. Subsequently, a similar process commences in one or more places in the extremities and gradually extends through it. The extremity does not however, become joined to the shaft of the bone until growth has ceased, but remains separated by a layer of cartilage tissue termed epiphy cartilage.

The points at which bone development first commences are known as center of ossification. The process of ossification consists in the appearance within the cartilaginous skeleton of bone calcareous for healthy matter which forming cells and the deposition gradually displaces the cartilaginous matter.

These processes extend gradually in every direction from the original center of ossification until the entire cartilaginous mass becomes or is ossified.

The first bones in which ossification appears are the chole (lower jaw bone) and the inferior maxillary (lower jaw bone) about the fifth to seventh fetal weeks, the last ossification to appear is in the pisiform bone of the hand about the twelfth weeks.—ADV.

Burlington Eagles Will Meet Dry Ridge Thursday Night

Hebron Cards Swamp Stuart Robinson Team In Season Opener.

The defending state champion Burlington Eagles six-man football team will take off their wraps for the 1950 season at the Burlington grounds Thursday night (tonight) when they entertain the Dry Ridge Cardinals of Grant County. The sixty-four dollar question for local fans is whether the Eagles with the loss of five stalwarts from last year's undefeated six can still field a terror-laden team. This year's Eagles team, according to George Maines who succeeded Edwin Walton as head coach, will be built around co-captains Jim Ryle and Butch Walton and big Gayle Rouse. These three are expected to get some real help from Ronnie Jones, Gerry Ryle, Ray Holbrook, Sonny Combs, Jack Patterson, Ross Fair, Jerry Lustenberg and Kay Kelly. Others who have shown well in early practice include Dick, Dringeburg, W. Ryle, Cropper and Rice.

Coach Maines has not indicated his starting lineup but in all probability Ryle, Walton and Jones will start in the backfield with Rouse and G. Ryle at the ends and Fair, a 216-pound newcomer from Hughes High School, starting in the center. Instead of Sonny Combs who has been unable to regain physical condition following a serious operation during the summer months, Ray Holbrook, Jerry Lustenberg and Jack Patterson are likely to see much line action on the defensive play. Kay Kelly, a small but versatile back, is likely to see plenty of backfield action.

The Cardinals, starting their second season of six-man play, bolstered by a new coaching staff composed of Ken Cole, former Dayton high school and Georgetown College star, and Bob Blaine are expected to be plenty tough. The Cards will be remembered for their fighting spirit and game play of last year and have enough veterans back to give the Eagles a close run in the Conference opener.

Game time will be at eight o'clock. Admission price 50 cents at the gate and 25 cents for students if tickets are purchased at school.

Cards Swamp Visitors
Coach Chuck Ransler's Hebron Cardinals swamped a big, fast, game but inexperienced Stuart Robinson team at the local field last Saturday night by a 46 to 6 score. The Cards pushed over two TDs in the first quarter and added an extra point. In the second quarter they added two more six pointers and tacked on two extra points. The third quarter found the Cards really hitting their stride as they scored 20 points but with reserves filling in during the late minutes of the quarter the visitors scored their lone touchdown. The final quarter was scoreless.

Scoring touchdowns for Hebron were Powers (2), Tanner (2), Day, Schneider and Bowman. Adams tallied Stuart Robinson's only TD. Tanner and Powers each added two extra points and Schneider picked up one.

Statistics of the game showed Hebron gaining 318 yards by rushing to 177 for the visitors and the winners had nine first downs to six for the losers. Hebron completed six passes out of 14 attempts for 45 yards and S-R completed four out of 12 aerials good for 25 yards.

Knights Open Saturday
The Florence Knights will open their 1950 season Saturday night at the local field when they take on a newcomer in the Conference, Crittenden's Bulldogs. Not much is known of the strength of the Knights or Dogs. Both teams will be short on experience but Florence's new coach, Duncan Huey, does have several veterans from last year's team which finished the season with a 5-2 record, good enough for second place in the Conference. Crittenden has a better than average size team and may be the real dark horse of the Conference. The Bulldogs are coached by Joe Reed and "Ned" Crowe.

Florence will get back into action next Tuesday night when they play Dry Ridge at the latter's field. New Haven and Hebron will tangle Thursday night, Sept. 28 at Burlington.

Band To Play
Band music for Thursday night's game between Burlington and Dry Ridge will be furnished by former members of the Boone County School Band under the direction of Findley Horton. Public address announcer will be Phil Yelton, former Dixie Heights star and brother of Paul Yelton, an end on U. of C. Bearcat team.

New Toll Bridge Hearing Announced

A hearing will be conducted at Lawrenceburg, Ind., October 10 by U. S. Army Engineers on the proposed \$4,000,000 toll bridge across the Ohio River to Kentucky, it was reported.

The Indiana Toll Bridge Commission plans for a bridge of three steel truss spans, the ends spans 412½-feet and the center span 825 feet. Under the main channel span there is proposed a minimum vertical clearance of 98.7 feet above normal pool level and 32 feet above the 1937 flood level.

Kentucky has agreed to cooperate with Indiana in the project by preparing the approach on its side, and adequate roads to the bridge.

Saturday League Series Opens At Big Bone Park Sat.

Big Bone And Burlington Nines Will Battle For Championship.

The Boone County Saturday Afternoon Baseball League "Little League Series" will get underway next Saturday afternoon when Burlington and Big Bone open a three-game series at the Big Bone park.

Big Bone, winners of the regular league play, are undefeated this season. They defeated Sand Run in elimination series competition earlier in the season for the right to take part in the final series play. Burlington, after several postponements because of weather, finally defeated Hebron in the rubber contest of their three-game series Saturday. The locals won by a five to three score and thus became the other contestant for the final championship.

Big Bone will probably rely on the pitching of Chester Ryan and Charley Black, while Burlington will go with Don Dupd. Pacing the Big Bone team will be such local standouts and manager Dale Williamson, Charley Hayes, Bowman, Bauman, Miller and Pitcher. For Burlington the big guns will be Ryle, McBee, Smith, Sebre, Shinkle Clore and Gully.

Railroad Commission Hears Petition Of CNO&TP Railroad

Asking Permission To Discontinue Passenger Trains 15 and 16.

Frankfort, Ky., Sept. 13.—Southern Railway System witnesses testified today before the Kentucky Railroad Commission that continued operation of passenger trains 15 and 16 over the CNO&TP line between Ludlow and Somerset, Ky., would be "extravagant and wasteful and not in the best interest of the public" and that the trains are operating "in the red" at a rate of more than \$169,000 a year.

On July 11 the railway filed a petition with the Commission for permission to discontinue the trains. A hearing on the application was held today in Frankfort. Leason L. Waters, superintendent of the railway at Somerset, Ky., told the commission that the equipment on the trains is "above average" when compared with other local passenger trains. He said the trains include air-conditioned passenger cars and that schedules "were generally maintained." The equipment is clean and all-steel construction and is equipped with modern conveniences, he added.

M. D. White, assistant to vice president of the Southern, testified that if trains 15 and 16 are discontinued the mail and express service on the line will be adequate. "We can provide superior service for this type of traffic," he said, "by using other trains that operate over the line and supplement this service by the addition of over-the-highway trucks which will be provided by the Railway Express Agency." Better schedules for handling the mail and express can be set up under this arrangement," he said.

J. J. West, district superintendent, Railway Express Agency, Louisville, testified that if the trains are discontinued the Express Agency would inaugurate over-the-road truck service adequate to meet all requirements for the movement of express shipments and will be available to the Post Office Department for the U. S. Mail.

W. J. G. Quinn, general statistician of the Southern, told the commission that the operation of trains 15 and 16 had been a "losing proposition" for some years and led to the railway's petition to discontinue them. Mr. Quinn said: "Total direct expenses for the year ending January 31, 1950, not including such items as supervision, dispatching, maintenance of road way and structures, and depreciation, were \$281,436.92. The total of all gross revenues for the same period was only \$112,047.55. This resulted in a direct loss of more than \$169,000 a year."

For every dollar these trains brought in during the year, the railway paid out \$2.51 in direct expenses alone, the witness said. For the six-month period ending July 31 this year, the railway paid out \$2.90 to take in \$1.00, he added. "This indicates that the situation

is getting progressively worse."

Commenting on the impossibility of making the trains pay their way, Mr. Quinn pointed out that "train crew wages and payroll taxes on a daily average amount to \$155.00 whereas the revenue from carrying Kentucky passengers is only \$29.00."

G. V. Bayless, special investigator of the System, pointed out that there is "adequate and excellent highway bus and truck service over improved highways along the route of the trains."

Mr. Bayless said that the public now uses privately-owned automobiles and common carrier buses for travel over the highways that parallel the railroad. "In 1949," he said, "there was an automobile in service in the counties through which the trains operate for every four persons residing in the area."

The witness pointed out that expenditures for highway construction in Kentucky averaged more than \$9 million a year over a 34-year period. State-improved highway mileage in the period 1923-1948 increased from 1,337 miles to over 10,000 miles, he said.

H. A. Cline, general passenger agent of the Southern, told the commission that the railway "once had a lot of local trains." They used to pay their way, he said, until motor vehicles and good highways came along. "Then they were doomed," he declared.

"When local travel began to decline," Mr. Cline said, "the railway experimented with fares to attract passengers. It tried excursion tickets of all kinds—one-day limits, week-end tickets, seven-day tickets, 15-day tickets, commuter fares, and multiple rate tickets. So far as rates were concerned, we really had a rate to fit every pocketbook and every desire. The experiments with fares failed to keep the local passenger traffic because people preferred to go by automobile or bus."

OBITUARY

Mrs. Reed Hudson's father, Mr. Jerry Teegarden, of near Sadle-ville, Ky., passed away Sunday morning. He was 85 years old. A loving one from us has gone. A voice we loved is stilled. A place is vacant in our heart that never can be filled.

God in His wisdom has recalled The boon his love has given. And though the body slumbers here His soul is safe in Heaven.

Sadly missed by his daughter, Anne Hudson. 1t-*

Burlington Eagles Trounce Dry Ridge In Opening Game

**Florence Knights Trim
Crittenden Squad By
Score of 52-0.**

About the only six-man football conversation you can get from local fans after the Burlington Eagles 1950 opener of last Thursday night is: "Are they as good as last year?" Last year the Eagles went thru the season undefeated, won the conference championship and went on to take the state title. This year was thought to be a different story. The Eagles lost five of their first seven games, including their entire defensive line, and their coach even retired in favor of his assistant. Added to this fans had been led to believe that the entire Conference was going to "let off" and some slight games would be in store for the season. But here's what "happened."

The Eagles, making their 1950 debut, ran roughshod over a big Dry Ridge Cardinal team by a 64 to 6 score and in doing so used almost every available man Coach Maines could muster. Led by 190-pound senior and co-captain Jim Ryle who scored thirty-two points, passed for 12 more and averaged 23 yards of ground gaining every time he lugged the pigskin the Eagles looked every bit as dangerous—if not quite as polished—as last year's State champs.

Ryle, who is touted by many northern Kentucky coaches as the best looking prep player, six-man regular, in this section received plenty of help from his backfield partners Butch Walton and Ronnie Jones. Walton scored two TDs and Jones had one plus some fancy broken-field running which put the Eagles deep in Card territory. The Burlington line, though not possessed with excess weight, did a vicious job of blocking and tackling. Paced by veteran Gayle Rouse at one end and newcomer Jerry Lusted at the other the line opened the Card line at will. Big Ross Fair, substituting for injured Sonny Combs, did a creditable job considering that it was the first game he ever saw. Other bright spots in the game were the all-around playing of several reserve men.

Statistics of the game showed Burlington gaining 316 yards by rushing to the Card's 77 yards. The winners had 16 first downs and Dry Ridge had five. The Eagles completed five out of ten passes good for 135 yards and the losers had four out of 17 good for 18 yards.

Knights Win

Coach Duncan Huey got his Florence Knights off to a good start last Saturday night when they trimmed the Conference newcomer, Crittenden Bulldogs, by a 52 to nothing score at the local field. Paced by Stansel, Bethel and Dendler the Knights had little difficulty going to pay dirt as they pleased. The Knights, though light and suffering from inexperience, showed plenty of know-how and are certain to be one of the top Conference teams.

Erlanger Visited By Heavy Storm Thursday Night

Streets Are Blocked Due To Heavy Downpour; Trees Felled.

Damage was reported as heavy in the Erlanger neighborhood when high winds, accompanied by a heavy rainstorm visited that section Thursday night of last week. The Greater Cincinnati Airport was without lights due to the storm from 2 to 5 a. m. Flare pots were placed on the runways to guide in one four-engine freight plane from Chicago. The landing was effected without trouble.

Trees felled by the 35-mile-an-hour wind blocked several streets in Erlanger while other thoroughfares were blocked by high water which was reported to be as much as five feet deep in several places, due to the heavy downpour. Sewers were unable to carry off the surplus water.

The storm's path led across Forest Lawn Memorial Park and felled five trees in the cemetery. Heavy rains visited Boone County during the night, but no reports were made from wind damage. Roads were damaged in several areas by the heavy rains, it was reported.

Homecoming Services Planned Sunday, October 1

By Florence Christian Church At High School Building.

Annual homecoming services of the Florence Christian Church will be held at Florence High School Sunday, October 1st, it was announced this week.

All services including Sunday School at 9:45 a. m. will be held at the school. At the morning hour 10:45 a. m., the minister will speak on the subject "The Miracle of Palestine," after which a basket lunch will be served.

There will be a business session following the noon luncheon, under the direction of the official board chairman Fred W. Vonberg.

Brother Reid stated: "We may think of this annual meeting as most important since April 1842, when John and Frances Stephens deeded the original property of the church."

Some of the business scheduled for the day include the annual election of officers which will comprise one-third of the total number of the official board, the voting upon the amended constitution and general plans for the future welfare of the local congregation.

The public is cordially invited to attend these services.

Edwin Johnson Will Be Honored At Dinner October 11

**Sponsored by Fifth
District Federation Of
Kentucky Sportsmen.**

Edwin Johnson, the dean of Kentucky conservation officers, will be honored October 11 at a testimonial dinner sponsored by the Fifth District Federation of Kentucky Sportsmen.

Outdoorsmen from the fifth district, state game and fish management officials, public officials of the local communities and the commonwealth and the general public will attend the dinner, to be held at the Yorkshire Restaurant in Newport.

Conservation Officer Johnson, a resident of Walton, will be honored for his 24 years of service in the Game and Fish Division and as the first division conservation officer retired to part time duty under the new civil service regulations.

Mr. Johnson was a volunteer "game warden" as early as 1912, but became a fulltime conservation officer June 1, 1926 shortly after the modernization and first re-organization of the Division of Game and Fish.

A conservationist all his life, Mr. Johnson assisted in the inauguration of modern wildlife legislation as a member of the Kentucky General Assembly in the early 1920's. He attempted at that time to have approved a bill requiring a state fishing license. The bill was later adopted.

Mr. Johnson has more years of conservation duty as a Kentucky conservation officer than any other man in the history of the commonwealth. His first appointment was to the former 10-county "Sixty-Second District" of northern Kentucky.

Eventually, as more conservation officers were added, Mr. Johnson's area was reduced and finally he was the conservation officer for his native Boone County at the time of his part-time retirement last July. He is still on call for special assignments and emergency duty.

During his long years of service, Conservation Officer Johnson estimates he has participated in more than 500 arrests of game and fish law violators. Since his tenure in Boone County, the license revenue has increased from \$150 annually to a total of \$7000 during 1949.

Mr. Johnson recalls the early days of "game wardening" as precarious. He was threatened frequently, and in some instances shot at, he says, but usually "by itinerant tenant farmers."

He says the "good solid citizen" is invariably in favor of law enforcement and the law enforcement officer.

"Education is the greatest force in the conservation movement today," the aging conservation officer declares, "and youth is the mainspring of our hope for better conservation understanding."

He praised the current Junior Conservation Club work in Kentucky, and the administration of Earl Wallace, director of the Division of Game and Fish.

Reservations for the testimonial dinner may be obtained from the committee which includes Dr. A. W. Boltz, fifth district game and fish commissioner; Clarence Craig, district vice president of the League of Kentucky Sportsmen; Stanley Shelton, district wildlife supervisor; Tom Silvers, secretary, and John Murphy, president of the Federation.

Hospital Will Be Inspected October 6th

County committee chairmen who spearheaded fund drives for erection of the new 50-bed children's convalescent hospital and for other crippled children work will inspect the hospital at Lexington on October 6.

Mrs. Viola Morey, executive director of the Kentucky Society for Crippled Children, announced also that the Chairman would confer on the 1951 Easter Seal campaign.

The public relations director of the National Society for Crippled Children, John R. Powers, Jr., will conduct a panel at the conference which will be at the LaFayette Hotel in Lexington.

Mrs. Morey said Mr. Clarence S. West, chairman of the Boone County Easter Seal drive, had been invited to participate in the conference and hospital inspection. She announced also that the annual meeting of the Society would be in Lexington, November 10.

Mr. and Mrs. Wendell Easton returned home Thursday after a business trip to Harrisburg, Pa.

WILL BE HONORED AT DINNER

Help Needed In Boone County Drive Says Local Chm'n.

**Scrolls and Buttons Will
Be Distributed To Schools
And Churches.**

Here is an opportunity for every American to strike a direct blow at Communism simply by signing his name, according to Wm. P. McEvoy, County Chairman of the Crusade for Freedom in Boone County. The drive opened September 4th and will continue through October 16.

Most progress has been made in the Walton community, under the direction of Mrs. Donald Stephenson, Mr. McEvoy announced. However, other communities are beginning to fall in line and the goal for the county is expected to be exceeded.

Buttons, scrolls and literature will be placed in all Boone County schools and churches as soon as they reach the hands of the chairman, Mr. McEvoy reported. These supplies have been slow in coming in due to the spread of the drive.

The Crusade for Freedom is a project of the National Committee for a Free Europe. This latter group was formed by some of America's leading people including Generals Eisenhower and Clay, William J. Donovan, Robert P. Patterson, William Green, Joseph C. Grew, Allen W. Dulles and others, to conduct a citizen's fight against the menace of Communist world aggression.

One of its most powerful weapons is Radio Free Europe, a privately financed radio service in Europe that is beaming powerful messages behind the Iron Curtain.

Unhindered by international treaties and conventions, it is matching the Russian radio, trick for trick. It calls a Spade a Spade. It has been warning citizens in Prague that the bogus Anti-Communist group seeking supporters is really a Communist plot to expose its enemies and liquidate them.

The first broadcast was on July 4, and the Soviets reacted violently. Through their media of 650 Radio Transmitters and over 3000 newspapers and pamphlets, they have started a counter-campaign, claiming Radio Free Europe was a tool of Wall Street and the American Government.

To fight this lie, the National Committee for a Free Europe has organized a dramatic and forceful Freedom Scrolls and Buttons drive. No doubt in Communist minds that Radio Free Europe has the backing of millions of American people, and is the voice of this free people sending help to victims of Communist tyranny.

A giant Freedom Bell has been cast in England. After a short tour of the United States it will be taken to Berlin and mounted in an appropriate setting at Tempelhof Air-drome. The plan of the Crusade is to put in the base of the bell the names of the millions of Americans who have signed a Declaration of Freedom.

These signatures will be obtained on scrolls through a nation-wide campaign. A national headquarters has been at work for some time, and now State and City headquarters at work. The success of the campaign will depend upon volunteer workers.

Every citizen is given an opportunity to add their name to the Freedom Scrolls. Those who sign also will be given the opportunity, if they wish, to contribute in any amount to the support of Radio Free Europe.

The final, dramatic touch to the Crusade will come late in October when the Freedom Bell, with its millions of Declarations of Freedom, is dedicated. The ringing of the bell will be carried by a gigantic radio net work to all of the free world. Simultaneously, the Crusade

Burlington Scores Upset Against Big Bone Nine Saturday

**Is First Defeat of Season
For Saturday Afternoon
League Winners.**

The top upset in local sports was turned in last Saturday afternoon when a crippled-up and undermanned Burlington baseball team trimmed heretofore undefeated Big Bone in the opening round of the Saturday Afternoon Baseball League "Little World Series" at the loser's park by an 8-7 score.

Manager Sam Ryle, hampered by the loss of several players who were working and several more who were on the injured list, recruited (with League consent) four knothole boys from the undefeated Burlington championship Knottolers to plug the holes for the opening battle. The four "little boys" spelled "Mr. Big" in the game in that they banged out seven hits, received four bases on balls, stole two bases, knocked in three runs and scored one. These four boys—Gayle Rouse, Eddie Brown, Warren Ryle and Harold McFarland—were backed up by good all-around ball by Burlington's battery of Pund and Guley. Pund, although allowing 12 hits, was fairly effective in the clutches and checked several Big Bone uprisings.

The veteran Charley Black, of recent no-hit fame, and Chester Ryan were on the hill for the losers. Bowman, Black and Williamson led the Big Bone offense.

The second game of the two-best-of-three series will be played at the Burlington park Saturday afternoon. Game time will be 2:30. This game definitely stacks up as one of the best of the dying baseball season since Big Bone, regular season winners and undefeated in fifteen games previous to last week's surprise loss, will be gunning to show the local fans that they do have the best county ball club and that their loss last week was "one of those things." Burlington, on the other hand, fresh from the fruits of victory will be eager for another win and thus clinch the league play-offs championship.

Disco Coke Available

Farmers who are unable to secure coke for curing tobacco are given some encouragement from George Breitenstein, coal dealer, of Dayton, Ky., who writes that he has a limited supply of "Disco" coke which sells at \$15.50 f. o. b. his yards, which is located on McKinney St., and the C. & O. R. R., 3 miles from Covington, 2 miles from Newport, off the Mary Ingall Highway in Dayton, Ky. The telephone number is Colonial 6155.

In Mr. Breitenstein's letter to The Recorder, he says, "This coke has proven to be better than the coke to which the farm trade has been accustomed. It starts easily, won't smoke, keeps burning."

This notice is being carried by The Recorder due to the shortage of coke used in tobacco curing.

Mrs. Alberta Green, Deputy County Clerk has been absent from her desk in the courthouse for the past 10 days due to having several teeth extracted.

Former Petersburg Woman Invited To Switzerland

**As Delegate To Attend
World Constituent
Assembly.**

Mrs. Florence La Fontaine Randall of Dillsboro, Ind., former resident of Petersburg, has been selected as a delegate to attend the World Constituent Assembly, a peace conference to be held in Geneva, Switzerland.

Mrs. Randall is editor of 5 publications in the Orient and Assistant Editor of "Across Frontiers," a World Government monthly published in Europe.

In reference to the peace conference she states, "This World Government peace movement is very powerful and well organized in all Europe, the time has come when we here in America must realize the need of the same ideal. Many in the U. S. have already joined this movement which hopes to formulate a peace plan to salvage the crumbling foundations of a too war minded world. Certainly the prospects are not bright over the universal horizons. We in America can no longer sit back expecting the rest of the world to be able to straighten out their affairs without affecting our vital interests. The problem of world security is indeed a serious one in the face of the atomic age before us."

Mrs. Randall was recently appointed International Correspondent for Japan, U. S. and Europe, to organize World Government in America.

Taxpayers Reminded Of New Tax Law

Money in hand, deposits in banks outside Kentucky, and unmanufactured tobacco (insofar as it is subject to taxation) are accessible as of September 1, Kentucky taxpayers will be reminded today. This means that taxpayers should keep a record of the amount of such property on hand on September 1 to use when listing their property with the county tax commissioner in January or February 1951.

Money in Kentucky banks is also assessed as of September 1 but is not listed by the taxpayer as the tax is collected by the bank. All other property is assessed as of January 1 and must be listed with the county tax commissioner before March 1.

To comply with the law passed at the 1949 Special Session, all 1950 tax bills on the 1949 assessment will become due September 15, 1950. The tax will become delinquent on January 1, 1951.

A discount of 2 per cent is allowed between September 15 and November 1. Tax bills unpaid on January 1 will carry a penalty of 2 per cent and on February 1, the penalty will be increased to 6 per cent.

Aurora Farmer's Fair Dates Set October 6 and 7th

The forty-second annual Aurora Farmer's Fair and Homecoming will be held at Aurora on October 6th and 7th.

Exhibits will include poultry, grains, fruits, vegetables, baked and canned goods and fancy needlework. These displays will be produced at home by local people.

During the passing years this has become a time when former residents of the community come back to meet friends of former days. The officials of the fair urge you to take a day off, spend it at the fair, and say hello to your friends and neighbors.

Sunday Games In Kentucky Athletic Goods Loop, Thrillers

**Bob and Gene Win By
Score of 1-0 In Ten
Inning Contest.**

Baseball fans who have followed the Kentucky Athletic Goods baseball league through the season are getting real semipro baseball right down to the finish wire. Games of last Sunday were thrillers. Examples were Bob and Gene's one to nothing win over Hudepohl in 10 innings at Florence and Charlie's Cafe 2-1, eleven inning victory over Grants Lick at the loser's lot. The Bob and Gene win eliminated Hudepohl, last year's league winners. Ray Mignerey, ace moundsman of the Edsmen pitched the shutout and gave only three scattered hits.

Two Boone County teams, Boone Vets of Bellevue and Constance were eliminated from series play by virtue of losses to Newport Steelers and Verona. The Steelers trimmed the Vets four to nothing and Verona pushed Constance out by a 5-1 count.

With only a few teams left, and those the cream of the league, local fans are reminded to get out next Sunday and see some first class baseball.

Games Sunday

Drawings for next round games as announced Monday place the undefeated Charlie's Cafe at Bob and Gene (Florence). This definitely shapes up as "the game of the week" since Charlie's, behind the clever pitching of Bill Bishop, has developed into the "team to beat." Game time will be two-thirty o'clock and the largest turnout of the season is expected according to Bob and Gene management. Other games place Verona at Grants Lick and Newport Steelers at Bavian.

THE TELEPHONE COMPANY ANNOUNCES

Last week the telephone company replaced the central office battery at its Florence exchange and relocated and re-wired the ringing equipment.

This change will result in better ringing at Florence and is one step in the modernization program now in effect.

An interesting side light to work of this nature is that it must be done with a little interruption of service as possible. This was accomplished by equipping the switchboard with temporary manual ringing equipment and making the necessary changes at night, during the period of lightest switchboard load.

Watch this space in future issues for additional information regarding further improvements to your telephone system.

"GIVE AND TAKE" TO MAKE APPEARANCES AT NORTHERN KENTUCKY FOOD SHOW

Highlighting the eighth annual Northern Kentucky Food Show, "Give and Take," radio's most popular daytime quiz program, will broadcast on Saturday, October 14, from the Kenton Looseleaf Tobacco Warehouse in Covington, Kentucky. Emcee John Reed King and his CBS network cast also will give a series of non-broadcast evening performances at the show during the week of October 8-15.

Residents of Kentucky, Ohio and Indiana who appear as contestants during the week will have a chance to win their pick of the items on the show's glittering prize stand and all fans will be treated to two new "Give and Take" innovations. As a special event on the Saturday broadcast, King is inviting women from Covington and nearby cities to show up in unusual hats of their own creation. The most imaginative, as determined by audience applause, will receive a prize. King extended the same invitation to women in New York recently, and the turnout of housewives eager to display their weird headgear of vegetables, coat hangers and radio tubes created a minor traffic jam on Broadway. Honors went to an original bonnet that sported a water-filled fish bowl—complete with a goldfish named "Arthur Godfrey."

The October 14 broadcast also will be one of the first to feature a unique device for listener-participation, a record-identification game called "spin twin." Titles of the songs will be announced, but listeners will be asked to name the vocalists singing the number after hearing them sing only one short phrase. Writing in and identifying one vocalist correctly will entitle the contestant to a prize. Calling the right names for both the first record and its "twin," the second will win the listener a full jackpot of prizes.

Persons wishing to act as contestants on the non-broadcast shows may indicate their interest on special blank available in Northern Kentucky Food Stores. No

admission will be charged to the network broadcast on October 14, and free tickets may be obtained by writing to radio station WKRC in Cincinnati. All "Give and Take" performances, including the Saturday show, will be open without additional charge to persons attending the Food Show.

In the past eight years, fun-loving John Reed King has interviewed more than 15,000 contestants, including a Lithuanian midwife, a lady wrestler and a kangaroo. His prizes have varied from a completely furnished house with a lot to an electric toothbrush. He has congratulated four thousand anniversary couples, kissed two thousand brides, asked over 100,000 questions and been bitten by one dog. Last Christmas, he passed the million dollar mark in the value of prizes he has awarded in radio.

"Give and Take," which is sponsored by Toni home permanent, revolves around the personalities of King and Professor Bill Cullen, announcer and general handy man of the show. The show is broadcast each Saturday over Radio Station WKRC, Cincinnati, at 1:30 p. m. EST and is also carried by 150 other stations in the CBS network.

Verona

The dedication of the new church will be October 29th. All friends and members of New Bethel Church are invited back home on that day.

Friends of J. T. Roberts will be sorry to know he is still ill at the home of his son and wife, Mr. and Mrs. George Roberts, 18 E. 40th St., Latonia, Ky.

Friends are congratulating Mr. and Mrs. Sydney Caldwell (nee Mrs. Emma Beach) on their recent marriage.

Newport Woman Dies In Accident Near Walton Sunday

Car Plunges Over Embankment Near Walton Bridge.

Mrs. Mary Vickers, 62, of 324 W. Seventh Street, Newport, Ky., was killed Sunday night when the car in which she was riding crashed over an embankment near the Walton bridge.

The accident occurred when Mrs. Vickers attempted to prevent one of her grandchildren from falling out of the automobile when one of the car doors flew open. Her daughter-in-law, Mrs. Harold V. Vickers was driving the car.

Others injured in the accident were Clairus Vickers, 6 son of the driver, bruises and possible internal injuries, and his cousin, Barbara, 6, received a left-knee cut. The driver suffered shock and possible internal injuries. Clifford and Darlene Vickers, also children of the driver, escaped injury.

The left door of the two-door sedan flew open as the vehicle neared the bridge. The grandmother lunged suddenly to keep one of the children from falling out. When it appeared that the grandmother had lost her balance, the driver grabbed to save both the older woman and the child, lost control of the car, and it crashed near the Southern railroad bridge at the south corporation limit of Walton.

The victim of the accident suffered a neck fracture and head injury, according to a report of Robert Brugh, Coroner. The body was removed to the Chambers and Grubbs funeral home Walton, and the injured were taken to St. Elizabeth Hospital, Covington.

Verona, Bob & Gene Win In KAG League Elimination Series

Mignerey Hangs Up Sixteenth Victory Of Season.

Boone County still has two entries in the Kentucky Athletic Goods Baseball League elimination series. The field has been narrowed down to six teams but the regular season champs—Bob and Gene of Florence and Verona Community Club—two of the county's five teams are still playing ball. From evidence of last Sunday's games these two teams are playing good ball too.

Bob and Gene handed the Charlie's Cafe team its first series loss Sunday by a three to two count at Florence. The losers took a lead in the third inning when they scored their two runs on a homer, single and triple, but from there on Ray Mignerey, ace hill artist of the Bob and Gene team, put on the brakes in the pinches and though allowing six more hits and issuing three passes he kept the Cafem from scoring.

The winners scored their three runs in the last of the fourth on hits by Mahan, Baute, a hit batsman, another hit by Mignerey and a passed ball.

Mignerey in hanging up his sixteenth game of the season fanned nine men. Rusche, the losing pitcher, allowed six hits, fanned seven and walked two. Stuntebeck had four of Charlie's nine hits with Allessandro getting a double and single for Bob and Gene.

Bob and Gene will play Charlie's Cafe Sunday at the Florence park at 2:30 p. m.

Verona will play Newport Steelers and Grants Lick will meet the Bavarian nine at Milford, Ky.

Verona Trims Grants Lick
Verona, behind the effective five-hit pitching of Elmo Steffen, handed the strong Grants Lick team its second series loss by a three to one score. Allen Flaughner, one of the loser's two mound aces, was victim of the defeat. He gave eight hits, struck out five and walked one. Steffen, besides being stingy with his hits, struck out six and walked three Lickers.

Brown and Alexander led the Verona assault.

In the other KAG game Newport Steelers pulled a mild upset when they trimmed Bavarian by a seven to two score. A loss for the Steelers would have meant elimination.

This writer urges Boone County baseball fans to "come out" next week and see "your County teams" as they fight for the championship series. Many veteran baseball observers report that a superior brand of semipro ball is being played. You owe it to the team managers who have spent much time and effort and money to bring you good baseball and you owe it to the local boys playing on these teams.

Mark Benson, of Walton is visiting his son, Mr. and Mrs. C. D. Benson, this week. He apparently is enjoying the best of health.

Big Bone Evens Count In County League Series

Burlington Suffers Defeat By Score of 10 to 5 In Second Game of Series.

Dale Williamson's Big Bone baseball team, winner of the regular season play in the Boone County Baseball League, evened the "Little World Series" last Saturday at one game each when they defeated Burlington to the tune of ten to five at the local grounds. The series according to a league announcement this week will be a three best of five affair rather than a two for three as originally announced. The third game will be played at Big Bone next Saturday. Game time will be 2:30.

Big Bone took advantage of seven bases on balls, a hit batsman and three Burlington miscues to score their ten runs. This doesn't, however discount the fine all-around play by the winners, since they had several timely hits and some fine defensive play. Manager Williamson, himself, was the big noise offensively for the Big Boners with three hits including a double. Ryan also chipped in with two bingles.

Burlington outlived the winners 11 to 9 with the veteran Ab Seebren getting three singles and Goose McFarland and E. Deck adding two each.

The line score:

| | R. | H. | E. |
|------------|----|----|----|
| Burlington | 5 | 11 | 3 |
| Big Bone | 10 | 7 | 3 |

Eagles Have Little Opposition In Game With Crittenden, Friday.

George Maines, coach of the Burlington Eagle six-man football team needs "crying towels." Most coaches, however, need them for a different reason than the Eagle Mentor. Most coaches need them to wipe away the artificial tears of "how good the opponents are" and "how weak and terrible my boys look," but Mr. Maines is suffering from a malady known in big time football as "Notre Dame-itis"—that is "where can we find some opposition?" This isn't intended to put the Eagles and their coach on the spot or to belittle opposition, but to let the fans know that it is a tough job to coach a ball club week after week and keep them in an aggressive mood when the regulars play only a few minutes of a contest and the smallest sub on the bench sees practically all of the action—just for the sake of keeping the score down.

As evidence of the above, the Eagles playing everybody but the trainer and water boy, rolled over Crittenden's Bulldogs last Friday night at Dry Ridge by the score of 69 to 12 to run their total for two weeks to 153 points. Statistics of the massacre showed the Eagles gaining 414 yards by rushing to Crittenden's 19. In passing the winner's made good seven of ten tries good for 114 yards while Crittenden completed three of thirteen attempts good for six yards. Burlington had 21 first down to three for the losers.

In the first quarter on the first two plays of the game Jim Ryle went twenty and thirty yards for a touchdown. Still early in the quarter Burlington added a safety. On the next kickoff Ryle ran almost the entire field for another score. Halfway in the quarter with subs taking over Kelly passed to Patterson for another six pointer. Deck ran over the extra point. Still going further down on the bench for substitutes Coach Maines pulled out Shorty Ryle and what do you suppose happened? On his third running attempt he "rolled" over into pay dirt with a TD.

In the second quarter Holbrook hit the scoring column when he galloped over after two twenty-yard plunges by Jones and Walton. Ryle scored on a kickoff return only to have it nullified by a penalty. Seconds later the Eagles scored again on a pass Ryle to Walton. Ryle kicked for the two extra points.

Third quarter: Walton passed thirty yards to Jones for a TD. Ryle had another TD called back for a penalty. Rouse went thirty yards on a hand off for a score. Ryle kicked extra points. Shorty Ryle went ten yards for a touchdown and Kelly passed to Gerry Ryle for extra point.

Final quarter: Kelly passed to G. Ryle for TD. Frost of Crittenden scored a TD after recovering a fumble. Kelly passed to G. Ryle for another Burlington score. Jim Ryle kicked extra points, Edwards scored second Bulldog touchdown, Walton scored for Eagles on quarterback sneak and to end the even-

ing Jones ran 75 yards for a TD. Dry Ridge Wins.
In what observers at the Thompson Lawence 8 the best game of the season, the Ridge's Cardinals trimmed a scrappy Florence Knight team by a 28 to 18 score last Tuesday night at Dry Ridge.

A Thriller
Hebron's Cardinals went to work early on New Haven in their game last week and piled up a 14-0 quarter lead and a 22-0 halftime margin, but it was a different story in the final half and the Cards had their hands full trying to stave off defeat. The campaigning Tigers of Coach Bill McAllister caught fire in the third quarter and scored 18 points on some of the finest football seen at the local field. They added another TD in the final quarter. Hebron also scored in the final minutes of the game.

Both of these teams show plenty of possibilities and look for them to show plenty of improvement as the season moves on.

Coming Games
Oct. 5 Burlington-Florence.
Oct. 6 New Haven at Crittenden.
Oct. 7 Hebron at Dry Ridge.
Oct. 10 Florence-New Haven.
Oct. 12 Burlington-Hebron.
Oct. 13 Crittenden at Dry Ridge.

Boone Fiscal Court Agrees To Act As Holding Company

In Issuing Bonds For New Proposed Boone County High School.

The Boone Fiscal Court in session Tuesday of this week agreed to act as a holding company for bonds to be issued in the new proposed Boone County High School, according to H. N. Ockerman, County Superintendent.

In agreeing to act as the bonding company, the fiscal court accepts no responsibility whatsoever, as the building itself will be the only collateral of bond holders.

According to law, the school board is unable to issue bonds, due to the fact that it must operate upon a budget from year to year. Therefore it is necessary to have a bonding company to take over this phase of the work and to issue bonds. When all bonds are paid the fiscal court releases the property to the Board of Education.

Mr. Ockerman stated Tuesday that all plans of the board are tentative, and that the agreement of the fiscal court to act as the bonding company was only a step in the proposed program.

Mr. Ockerman stated that the public would be informed concerning every phase of the program as plans develop.

Will Be Observed As Layman's Day

Sunday, October 8th will be observed as "Laymen's Day" throughout Boone County and the Southern Baptist Convention, according to an announcement released this week. The Burlington Baptist Church has set a goal of one hundred men for the day. Boys above seventeen will be counted in the group.

Churches throughout the county are making extensive plans for this special day, and from all indications this will be the greatest day in the history of the county churches in the number of men in attendance.

Practically all churches are planning a special program for this day. Morning services will be in charge of the men, at the Burlington Baptist Church. They will conduct the devotional and a male quartet will furnish the special for the service.

A Boone County pastor makes the following statement concerning the special services: "God wants men that will honor Him in their lives, men that will stand by the things that are right, and we believe that Boone County is blessed with many who try to live that kind of life. As one who is interested in all churches, allow me to urge you 'our men' to return to the house of God if you have been neglecting it."

Boone County churches top the list throughout the state, and persons desiring to worship need go no further to attend services where the Master is glorified.

Your presence in the church of your community will help to reach a goal that has been set for "Laymen's Day." Show your loyalty by your presence.

Hebron Girl D. of A. Prize Winner

The following essay written by Miss Joan Caseldine of the Hebron High School, won first prize in a recent D. of A. sponsored contest:
The Constitution: The Guardian of Our Freedom
No group of people can live together without rules and laws. The rules of our country are combined in a document which we call the Constitution of the United States. Ours is the first national Constitution ever adopted. It is also the oldest working written Constitution

in existence today.
After we declared our Independence from England we needed a new government. Luckily, we had something with which to begin. The Englishmen already had the Magna Carta, Petition of Rights, and the Bill of Rights. In our country the Mayflower Compact and the Declaration of Independence held ideas in forming a new government.
Some of the ways that the Constitution is the guardian of our freedom are mentioned in the preamble. The Constitution was established to form a more perfect Union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty to ourselves and our posterity.

The preamble mentions, first, that the Constitution was established to form a more perfect Union. The formation of a Federal Union created a tool with which to build a stronger nation. This tool, the Constitution, has made possible the co-operation of our present forty-eight states in the common interest. Because we were united we were able to build railroads, highways, and airports all over the country. By these transportation methods we could exchange manu-

factured and farm products. We could also exchange metals and other natural resources. We began using telegraph, telephone, radio, and television. By these ways of communication the different sections of the country are able to exchange ideas and work together in time of peace and war.

Under the Articles of Confederation we had only State courts and no Federal courts to decide disputes between States or between citizens of different States. The Constitution provided for a Supreme Court and also authorized Congress to establish other Federal Courts as needed.

The Bill of Rights was added to the Constitution in 1791 to guarantee the people against some of the injustices that they had suffered under George III of England. According to the Bill of Rights, Congress shall make no law restricting freedom of religion, speech, the press, of assembly of petitioning the government. No person shall be held to answer for a capital, or otherwise infamous crime, unless on a presentment or indictment of a grand jury. No person shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law. Under the Bill of Rights the Government cannot take a man's property without paying a fair price for it. Neither can a man's house be searched without a search warrant. This shows that the Department of Justice is a guardian of our freedom.

If rebellion or riots occur in any State, the President can use his power as Commander-in-Chief of defense forces and send troops to stop the disturbance. This insures domestic tranquility.

The Constitution states that Congress has the power to declare war, to raise and support armies, and to provide and maintain a navy. It has the power to provide for calling forth the militia to execute the laws of the Union. We sometimes have to use these methods to protect the people and make the world safe for democracy.

We now come to another provision of the Constitution, as stated in the preamble, which is general welfare. The United States has increasingly curbed the selfish, and provided for the welfare of the many. By abolishing slavery we guaranteed the right of every American child to be born free. The Government has established the Children's Bureau to look after the welfare of every child born in America. Free education is provided for all young people.

The government also helps people find work by finding what kind of work they are qualified for. Workmen's Compensation is provided for workers injured in industry. Unemployment Compensation relieves the hardship resulting from temporary unemployment. To promote the welfare of old people the government provides Social Security for the aged. To help individuals build up a fund for old age the Federal Government established the Old Age and Survivors Insurance system.

To further guard our freedom, the Constitution has made it possible for us to have liberty. Liberty is a thing of the spirit—to be free to worship, to think, to hold opinions, and to speak without fear—free to challenge wrong and oppression with surety of justice. A person has liberty only if he is free to choose his own calling, to develop his talents, to win and keep a home sacred from intrusion, to rear children in ordered security.

To secure the blessings of liberty to ourselves and our posterity we have fought for democracy, for the right of those who submit to authority to have a voice in their own government, and for the rights and liberties of small nations. Every good citizen of the United States wants our country to remain free.

The basic principle of the Constitution is a system of checks and balances whereby each of the separate co-equal branches, the Legislative, Executive, and Judicial, cannot infringe upon the other. The Legislative Department is composed of Congress. It has two houses—the House of Representatives and Senate. The purpose of these houses is to make the laws. The Executive powers are vested in a president whose duty it is to see that the laws that have been made by Congress are executed. The Constitution provides that the Judicial (law-interpreting and law applying) powers shall be vested in one Supreme Court and such inferior courts as Congress shall from time to time ordain and establish. The Constitution provides for these three departments so no one man or group of men is given too much power or else he may try untruly to control or oppress men. If ever this system of checks and balances is upset and if ever power unduly gravitates to one branch then the liberties of all Americans will be threatened.

Since ours is a government of laws rather than of men, the supreme law of the land is the guarantee of our freedom rather than having the promise of any one man to "guarantee" our freedom.

The United States Constitution is the perfect match for the American people. Never in all mankind has a governing instrument been so perfectly adapted to the pattern of the people governed as is the Constitution of the United States to the American people. One reason why the Constitution of the United States is such a good document is because it can be changed to meet

the economical changes that take place through the years.

The very survival of our Constitution is proof of its value. It is a miracle in itself to think that any document almost 165 years old should have survived with a mere 21 amendments. In the course of this time the entire economic, political and social pattern of American society has changed. From 13 weak colonies, we have emerged as the greatest power on earth, with the highest standard of living.

The Constitution is the most miraculous document in the history of mankind. Every second that we enjoy freedom of speech, of press, of worship, of assembly, is a moment of liberty that we owe to the Constitution of the United States.

Since the Constitution means so much to all of us, we should respect it. In order to respect it, we should know and understand the basic truths of it. We should also be grateful to our forefathers who fought the bitter battles of peace and war in order that the Constitution might be created and might survive.

—Joan Caseldine.

NO HEARING AID need sell for more than \$75

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

Don't Be Satisfied With Symptomatic Relief!

**HADACOL NOW MAKES IT POSSIBLE TO
RELIEVE THE CAUSE OF YOUR SICKNESS****Neuritis Pains, Stomach Disturbances, Indigestion, Gas, Constipation,
Certain Nervous Disorders and a General Run-down Condition****When due to lack of Vitamins B₁, B₂, Iron and Niacin in your system!**

Read How These Folks Benefited Who Had Such Deficiencies

Mr. Anthamatten, 4731 South
32nd West Ave., Tulsa 7, Okla-
homa, suffered from stomach
distress for quite some time.
He had spent much money
trying everything possible for
relief and was in bad health
when he started taking HADA-
COL. He says, "After taking
three bottles of the \$3.50 size,
I've gained 27 pounds and now
eat anything I desire and pos-
itively have no trouble." (HADA-
COL gives such wonderful
results because it actually re-
lieves the REAL CAUSE of
stomach distress [gas pains,
heartburn, indigestion after
eating] due to such deficien-
cies. And continued use of this
great HADACOL helps prevent
such distress from returning.)Mrs. Mabel Kitchen, 1650 An-
sterdam, Cincinnati, Ohio. "Be-
fore I started taking HADA-
COL I had aches and pains of
neuritis in my shoulders, my
back and arms. I could hardly
move without having those
terrible pains. Then I heard
about HADACOL. After the
second bottle the pains and
aches were about gone. I'm
now starting my fourth bottle
and am on top of the world. I
eat well and, best of all, the
aches and pains are complete-
ly gone." (Mrs. Kitchen is a
very smart woman because she
relieves the REAL CAUSE of her
neuritis pains due to such de-
ficiencies. HADACOL often
brings a wonderful improve-
ment within a few days' time.)Mrs. J. Selesinski, 514 Kruger,
Ottumwa, Iowa, writes: "My
daughter, Marilyn Sue, is 8
years old and for some time
lacked pep, had a poor appetite,
was generally run-down. Since
giving her HADACOL, we have
noticed wonderful results. . .
she has a much better appe-
tite, eats everything on the
table and doesn't seem tired
like she used to. Incidentally,
she likes to take HADACOL,
too." (HADACOL is a great
"builder-upper" for sick, nerv-
ous, puny kids whose systems
lack precious Vitamins B₁, B₂,
Iron and Niacin. A big im-
provement in their well-being

Burlington Eagles To Meet Strong Hebron Six Tonight

Eagles Suffer Severe Loss In Injury Of Bobby (Butch) Walton.

Will Thursday night's (tonight) game between the undefeated Hebron Cardinals and the undefeated Burlington Eagles be the Northern Kentucky Six-Man Football Conference "Purdue Upsets Notre Dame" game? Things have begun to shape up to indicate that the Cards, always at their best against the Eagles, may pull the surprise of the year. They have won three games this year, beating Stuart Robinson 52-0, New Haven 34-24 and Dry Ridge 55-25, and they have shown steady improvement in each game. Added to this Coach Ransler's squad is in tip-top shape for their big encounter of the year.

Burlington, still undefeated in the past two years and thinking of their "state champ laurels" have been digging in for this game. The Eagles suffered a severe loss last week when their star quarterback and co-captain "Butch" Walton was sidelined for the season with a broken leg. This loss was somewhat offset this week, however, when Sonny Combs, a three-year veteran returned to his post at center and indicated that he will be ready for the "big game." Walton's quarterback slot will be filled by Kay Kelly, a little but efficient signal caller.

Filling out the Eagle lineup will be Gayle Rouse and Gerry Ryle at offensive ends, Ronnie Jones at half and triple-threat Jim Ryle at full. Defensively Jerry Lustenberg and Ray Holbrook will see plenty of end action.

Most of Hebron's "power" is wrapped up in Powers, Tanner and Zeigler.

Games Last Week

Burlington increased their scoring tempo last week when they tallied 95 points against the Florence Knight. The Knights managed to get over the touchdowns and two extra points late in the game. Jim Ryle with four touchdowns and five extra points for a nights' total of 29 and Ronnie Jones with four TDs led the Burlington drive. Gayle Rouse added 18 tallies with three touchdowns and Walton, Holbrook, Patterson and Kelly each added a touchdown.

In game statistics the Eagles had 278 yards rushing to 131 for Florence, they completed eight of 11 passes good for 159 yards against Florence's four out of 11 which were good for 31 yards.

Hebron defeated Dry Ridge last Friday night by a 55-25 score at the loser's field and New Haven's fast coming Tigers swamped Crittenden 86-0 at Crittenden.

Superintendents Invited To Aid In Forming Councils

Conference Slated For October 28 at Lexington, Is Word.

Boone County and Walton-Verona school superintendents H. N. Bakerman and J. O. Ward have been invited to aid in forming councils for education to cooperate with the Kentucky Council for Education in the city and county.

Besides naming the temporary chairman for the State's 233 school districts, KCE president, Walter H. Girdler, Jr., asked the superintendents to attend a conference at Lexington, October 28.

Girdler explained that local groups were being formed throughout the State under guidance of the newly formed KCE to carry out broad improvements in Kentucky schools. He said plans called for concentrating on forming local councils during November.

The Lexington conference will be part of the meeting of the Kentucky Association of Colleges and Secondary Schools set to start October 27 at the University of Kentucky. It will include a panel discussion of the aims of the Kentucky Council for Education and plans for local group organizations.

Dr. Leonard E. Meece, secretary of the KCE and of the Kentucky Association of Colleges and Secondary Schools said that while the superintendents have been asked to serve as temporary chairmen, it was expected that the school people would encourage lay people to assume direction of the councils as they are formed.

Thirty-six State-wide organizations are participating in the Kentucky Council for Education and they include, besides educators, parent-teacher groups, trade, medical, civic, industrial, farm, veteran, labor, women's organizations and the press and radio associations.

The Christian Church of Florence is launching a campaign to raise funds to repair the edifice and to build an addition to accommodate the rapidly growing church and Sunday school attendance. The campaign is to open next Monday, according to reports.

The south wall of the building collapsed recently while repair work was in progress. Services are being held in the Chambers and Grubbs funeral home, Florence, while repairs are being made to the edifice.

What The Crusade For Freedom Is—And How It Started

In June 1949, the National Committee for a Free Europe was formed to give aid and asylum to exiled leaders from the prisoner countries of Eastern Europe, and to set up new broadcasting facilities in Western Germany—"Radio Free Europe"—to carry the voices of these leaders, with the story of freedom, back to their own peoples behind the Iron Curtain.

On this committee are such men of action as General Eisenhower, former Ambassador Grew, Senator Lehman, Jim Farley, Adolph Berle and many other leaders. From the thousands of refugees of Eastern Europe the committee has selected some three hundred exiled leaders—not only political figures like Mikolajczyk, former Premier of Poland, and Dimitroff of Roumania, but also leaders in the fields of science, religion, education, law and the arts. All of these men and women are well-known to the people in their home lands. When their voices are heard over Radio Free Europe, they come with authority and conviction.

Radio Free Europe began broadcasting from a transmitter near Frankfurt, Germany, on July 4th of this year. It is now broadcasting six hours a day, seven days a week with native language broadcasts in Czechoslovakian, Hungarian, Roumanian, Polish and Bulgarian. Its purposes is to fight back against vicious Communist propaganda, to get the truth behind the Iron Curtain. Its mission is different from that of the Voice of America. It tells the captive peoples the truth about what is going on in their own countries, things their puppet governments are afraid to talk about. It utilizes the voices of the exiled leaders from these countries speaking back into their own home lands. As the voice of a group of private American citizens exercising their traditional right of free speech, it is unhampered by government protocol and able to meet Communist propaganda on its own terms. It is people-to-people communication, rather than a government-to-people communication. The folk music, literature, religion and history of the captive countries—banned by Communism—are kept alive in the hearts of the people by the programs heard over Radio Free Europe.

Radio Free Europe at present is confined to a single short-wave transmitter. It is hoped to eventually expand this operation into a "truth network" of from five to eight Freedom stations. In order to accomplish this, the moral backing and financial support of the American public are required. This is the purpose of the CRUSADE FOR FREEDOM launched by General Eisenhower in his nation-wide address on Labor Day. The CRUSADE is a mobilization of millions of Americans in the battle against Communist propaganda and aggression. It is the first time in history that all citizens, as individuals, have been asked to take part in psychological warfare. The CRUSADE as a great people's movement for freedom, is a powerful civilian arm in the war of ideas. By its very nature it can negate much of the Moscow propaganda line. This line is constantly repeated over Radio Moscow (4 times more powerful than United States facilities) proclaims that: "The American government is an evil government, dominated by Wall Street ruling circles. The Washington-Wall St. axis," according to the Kremlin, "is dragging a reluctant American people down the road of imperialism and world conquest. The signal for American attack upon North Korea was given by Wall Street warmonger and profiteer John Foster Dulles. Korea is but the first of many carefully planned American acts of aggression."

Denials of this line by United States diplomats and government agencies such as the Voice of America are scoffed at by Moscow. "Such voices are the tools of Washington and Wall Street," they claim. The CRUSADE FOR FREEDOM, however—with millions of American citizens joining in the fight against such lies and dramatically demonstrating their desire for world freedom and friendship—will pull the rug out from under the Communist line, and present the Kremlin with quite a different problem. The viciousness with which the Soviet propagandists are attacking the CRUSADE and its symbol, the Freedom Bell, in their broadcasts and editorials is evidence of their fear of this new moral force.

Leadership of the free world has fallen upon the United States. Each individual citizen bears a measure of that responsibility. One way of discharging part of that responsibility is through participation in the CRUSADE FOR FREEDOM.

To the muted yet joyous tones of the traditional Wedding March, the bride entered the church, never looking lover than in her wedding gown of deep ivory satin. An off-shoulder yoke of lace was surrounded by a lace bertha. A fitted bodice had long, tapering sleeves with lace ruffles over the hands. Her long skirt ended in a train. Her fingertip veil of illusion was edged in lace which fell from a lace half-hat. She wore a single strand of pearls. Her bridal bouquet of white roses with white satin streamers tied with rosebuds.

Both Mrs. Cahill and Mrs. Huller selected dark brown frocks with beige ties and corsages of white gardenias.

The wedding reception was served at the home of the groom in Sunnyside. The table was centered with a flower arrangement of white gladioli and colorful red oak leaves. A dinner at the Cabana for the immediate family was held in the evening with a reception following at the home of the bride. The refreshment table held a three-tiered wedding cake flanked by white lighted tapers in crystal holders.

The bride chose her nephews, Jack and Tommie Lee Rouse to serve the Nuptial High Mass.

Out-of-town guests were Mr. and Mrs. Walter Lumby, Mr. and Mrs. Cecil Hunt and Mr. and Mrs. Kenneth Ogle, all of Dayton, Ohio.

The bride and groom motored to Miami for their honeymoon, the bride wearing a turquoise wool jersey suit with brown accessories.

Cahill-Huller

One of the pretty early fall weddings was that of Miss Ruth Cahill, daughter of Mrs. Mamie Cahill of 3 Park Ave., and Mr. Robert Huller, son of Mr. and Mrs. William Huller of Sunnyside, which was an event Saturday, September 16 at 9 a. m. at St. Henry Church. The Rev. Father Herbert Egbring performed the double ring ceremony at the nuptial High Mass.

At each pew were aisle standards with lighted tapers tied with white satin ribbons and fern. The altar held a wide spread arrangement of all white gladioli and chrysanthemums.

Mr. Emmett Hogan and his son, Jerry Hogan were the soloists. Before and during the services they sang "Aue Maria" and "On This Day O Beautiful Mother."

Mr. Raymond Huller was best man for his brother, James Michael and Mr. Milton Huller, another brother were the ushers.

Mrs. Melvin Barth was maid of honor and Mrs. Carlton Crisler and Mrs. Helen Rouse, sisters of the bride, were the bridesmaids. All wore identical gowns of Rondo velvet, fashioned with a sweetheart neckline, cap sleeves with which they wore long gloves and a long full skirt. They wore hats to match and carried colonial bouquets of white pom-pom chrysanthemums and stephanotis, the color of their gowns.

Mrs. Barth's bouquet knotted ribbon. The other bridesmaids' bouquets had streamers of white and gold ribbon. They all wore double strands of pearls.

Mary Ann Huller, niece of the groom was flower girl. Her dress and bouquet were identical to the bridesmaids'.

Big Bone Chalks Up Second Victory In League Series

Fourth Games of Series Will Be Played Saturday At Burlington Park.

Big Bone made it two to one over Burlington Saturday afternoon in the third game of their three-best-of-five series for the championship of the Boone County Saturday Afternoon Baseball League. The winners scored seven runs on nine hits and had two errors. Burlington had four runs on six hits and they committed three errors.

Don Pund, usually a fairly reliable moundsman, contributed to his own downfall by giving up eight bases on balls and hitting a batsman. Ryan, Big Bone's regular, was in good form in giving only six bingles.

Hayes, R. Bowman and Ryan led the winner's assault with two hits each. Gerald Clore, of Burlington had a long home run and kept his team in the game with superb defensive effort.

The fourth game of the series will be played at the Burlington park next Saturday afternoon at two thirty o'clock. A win this game for Big Bone will mean championship for that team; a Burlington win will extend the series to the fifth contest. Probable batteries will be Ryan and Overberg for Big Bone and Pund and Guley for Burlington.

Millions Suffer**N. TULCH**

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

It has been proven that you cannot be well with unhappy feet! Those headaches, those backaches, those leg pains are caused by the shoes you are wearing. Why not demand the same progress in shoe construction as on trains, planes, and other transportation? You walk miles each day, stand hours and yet wear shoes that will surely lead to ill health and awkward posture.

Parents scold children for slouching and slumping when their shoes are to blame. People suffer mental upset, nervousness, aches, and pains when proper shoes (shaped to fit and support those fifty-two bones in your feet) would benefit the entire body and preserve your general health.

Fortunes are spent on patent medicines and appliances when a correct shoe alone is the answer. Why suffer long? Why take chances with your health, comfort and peace of mind? Visit the store that has men schooled in foot anatomy and foot mechanics to insure getting the proper type shoe for your particular feet.—Adv.

REVENUE COMMISSIONER WARNS INDIVIDUALS AND CLUBS OF AMUSEMENT TAX

Organizations, clubs and individuals should check on the State amusement tax when planning shows or exhibitions of H. Clyde Reeves, Commissioner of Revenue suggests.

Many worthy organizations, exempt by law from other taxes get into difficulties over admission taxes because of misunderstanding of the Excise Tax Law. They overlook the fact that place and use of the proceeds are the governing factors in the law.

Athletic contests, plays, concerts, and other forms of amusement or entertainment are exempt from Kentucky amusement admission taxes "if at least seventy-five percent of the gross proceeds of admissions are to be used exclusively for charitable, religious, or educational purposes within this state." Admission to athletic contests not exceeding fifty cents are exempt.

Federal and State laws differ and Federal exemption does not necessarily carry exemption from State tax.

Organizations and others contemplating giving contests, shows, or exhibitions should contact the Department of Revenue at Frankfort or the nearest Field Office.

Prior investigation will avoid misunderstandings and penalties, Reeves said.

INDUSTRY TEAMS UP WITH FARM YOUTH IN 4-H CLUB PROGRAMS

Chicago—Ten years ago only a handful of industrial concerns were supporting 4-H Club work nationally. Today—through the National Committee on Boys and Girls Club Work—nearly 50 industries, businessmen and women are backing up their faith in two million 4-H Club members with incentives valued at \$400,000 annually. This amount is distributed for awards and leader training funds in 4-H programs which range from canning to tractor maintenance.

"The money is considered a sound investment in the nation's future by encouraging these rural boys and girls who have pledged their head, heart, hands and health to make the best better," declared Guy L. Noble, director of the National 4-H Committee, a non-profit citizen's group.

"4-H youth learn by doing," he stated, "and guiding their efforts are 225,000 volunteer club leaders who work under the direction of the Extension Service of the State Agricultural colleges to carry out 4-H program objectives." The teenagers do a man-sized job in their

projects, according to Noble, and by the time they reach 21 many are well on the way to becoming independent farmers, while others have substantial bank accounts.

Among the awards for outstanding achievement are trips to the National 4-H Club Congress held in Chicago. Here 1,100 state and national champions accompanied by club leaders assemble from every part of the country. They are joined by delegates from Alaska, Hawaii and Puerto Rico.

The 1950 Congress will convene

Nov. 26, and for five days the rural youth will be treated to the best the Windy City has to offer in educational tours, food, entertainment and other events. During the meeting, 150 college scholarships will be presented to club members chosen for national honors.

This year a total of \$15,112 in U. S. Savings Bonds, and 227 watches are offered to state winners. Beautiful gold and silver medals representing 20 different projects will go to 4-H members for winning county honors.

WOMEN ENROLL TO STUDY PROBLEMS

The annual report of the Director of Agricultural Extension work of the University of Kentucky says 28,353 white homemakers and about 1,500 Negro homemakers, in 1,379 communities in 97 counties, enrolled in study groups the past year.

"They shared the information and skill thus obtained with 85,000 of their neighbors and friends," the report says. "Home demonstration agents were assisted by some 16,000 volunteer local leaders who attended training schools conducted by county workers and fields agents from the University. Changes in homemaking practices resulting from this work were reported by 85,030 families.

"During the year 1,402 leader-training meetings, with an attendance of 27,722, equipped local volunteer leaders to serve their communities and to bring about improved homemaking practices. Seventy tours gave 3,000 people an opportunity to observe the results obtained in a few demonstration homes. In the conduct of the work, 23,224 community group meetings were attended by 463,783 rural homemakers.

"Programs were based on the interests and needs of the people as discovered through discussion in community groups and with the county planning committee. Many activities involved cooperation with other organizations and agencies."

DAIRY INDUSTRY

IN PUBLIC EYE

Representing an annual farm income in excess of 100 million dollars, Kentucky's important dairy industry was very much "in the public eye" as the gates swung open for the annual Kentucky State Fair. Occupying a prominent position the big parade that rolled along Louisville streets and proceeded to the fairgrounds Sunday was a "cavalcade of dairy foods" in the colorful section sponsored by the American Dairy Association of Kentucky, Fred T. Flynn, secretary-treasurer of the state ADA announced today.

**CLEMENTS'
RECORD
SPEAKS!**

'As Sheriff, County Clerk, County Judge, State Senator, Congressman and Governor, Earle C. Clements has achieved a political record . . . a record of faithful public service . . . unexcelled in the Commonwealth of Kentucky. AND NEVER ONCE HAS HE BEEN REPUDIATED ON THAT RECORD. That record stands today in the unblemished faith of the people of the Commonwealth of Kentucky. Because Earle Clements never has failed the people who have elected him to any office of trust. For almost thirty years, Earle Clements has given devoted, conscientious, capable public service to Kentucky.

VICTORY IS A HABIT WITH EARLE CLEMENTS

During his public service, Governor Clements has succeeded at all levels of government—local, State and National. His broad experiences fit him for broader service. These are grave times in our Nation. The next few years may determine the very existence of our form of government. We need Earle Clements' business-like, competent, conscientious ability in the National Administration.

Earle Clements' outstanding record of service qualifies him unquestionably for the United States Senate. He has served the farmer, veteran, businessman, laboring man . . . all people . . . devotedly. He has put the government of Kentucky on a sound business basis. His record is public. And the public record of Earle Clements . . . farmer, veteran, businessman, public servant speaks louder than any man.

Who Runs America?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations

spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs
American Farm Bureau Federation
National Grange
Veterans of Foreign Wars
National Conference of Catholic Charities
American Protestant Hospital Association

American Legion
National Association of Small Business Men
United States Chamber of Commerce
National Association of Retail Grocers
National Retail Dry Goods Association
American Bar Association

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proud security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. • Today

in America—70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

Healthy soil, healthy food and healthy bodies go hand in hand. Does washed out soil cause more and more cancer, TB, Polio, Arthritis, etc.? Many people now think so!

Gordon Walters Pendleton County, who has led in tobacco improvement and production for years says: "I have planned to turn my attention now to hay and pasture improvement. We can do for this what we have done for tobacco."

Darrell Begley, Leslie county 4-H members, set out 1,000 Blakemore strawberry plants in 1949; this year he sold \$200 worth, and his mother canned 104 quarts.

Twenty-seven calves, the largest number in four years, are being fed by 4-H'ers in Scott county for the Louisville Fat Cattle Show and Sale.

Survey Made For Proposed New Super Highway

Details of Survey Will Be Available Within Thirty Days.

The State Highway Department completed last week its survey of the one remaining logical route for the proposed superhighway from Covington to Florence, according to reports.

Latest survey details will be available within 30 days, and that time Kenton county must take over advancement of the project by beginning to procure required rights-of-way if the route is acceptable.

W. P. Curlin, deputy commissioner of highways made it clear that the currently proposed route was not the state highway engineers' first choice, citing that the first and most ideal route talked about was the one following the old Ft. Mitchell street car tracks through Park Hills.

The new proposed route would start on Bullock street in Covington, go around the base of the hill of the Big Bend, and connect with the present U. S. 25 and 42 at the Hahn Hotel, Park Hills. From that point to Maple avenue in Ft. Mitchell the present highway would have to be widened to 96 feet from curb to curb to meet government specifications.

At Maple avenue the proposed new road would veer to the west of the present highway and cross Buttermilk pike near the veterans housing project at Crescent Springs and proceed south to a cross of Donaldson Highway between the Greater Cincinnati Airport and Erlanger.

The new route would continue to a junction with the present highway at the outdoor theater at Florence and the improvement would end with a junction with U. S. 25 at a point midway between Florence and Devon.

Cress Building and School House Entered By Thieves Saturday

The shop of Calvin Cress, Burlington-Florence Road and the Burlington school building was broken into Saturday night, according to reports.

The culprits made their entrance at Cress' shop by breaking a glass in the front. Their loot was estimated at \$275. Although school officials have made a check of the building, apparently the culprits left the building without foot.

No trace was left, which would lead to the identity of the culprits.

Dry Ridge, New Haven, Burlington Win Conference Tilts

Three Games Scheduled This Week For Local Field.

6-Man Scores
Burlington 51, Hebron 0.
Dry Ridge 81, Crittenden 0.
New Haven 52, Florence 23.

Coming Games
Oct. 19—Florence vs. Hebron.
Oct. 20—Dry Ridge at New Haven
Oct. 21—Perryville at Burlington

In Northern Kentucky 6-Man Football Conference games last week Burlington's Eagles continued their march to another conference crown when they downed a strong and aggressive Hebron Cardinal six by a 51-0 score. The score of the game does not tell the story of the game because though on the short end of a big score the Cards showed plenty of football and constantly knocked at the scoring door. Their blocking game was very good and their gameness and determination were outstanding.

The Eagles, usually a strong air-minded crew stuck close to the ground in this game—not by choice but because of a good pass defense by the Cards.

The Eagles scored thirteen points in the opening quarter on TDs by Jones on an end run, Ryle on a lateral from Jones and an extra point on a pass from Ryle to Combs.

In the second quarter Rouse opened the scoring on a 16-yard run and then passed to Jones for the point. Jones scored on a ten-yard end run for another TD and Ryle raced 70 yards for the final six points.

In statistics the Eagles had 279 yards from rushing to 79 for the Cards. The Eagles had one first down to four for Hebron. The Cards completed two passes good for 22 yards while Burlington had only one for 20 yards in six attempts. Burlington had seventy-five yards of penalty and Hebron had thirty-five.

Tigers Over Knights
Coach Bill McAllister's New Haven Tigers showed county fans plenty of football last Tuesday night in their 52-23 win over Florence. The eye-taking play of the game was the brilliant extra point kicking of Ronnie Crume. Young Crume made good five of six kicks he attempted and his line felled him on the miss. This was undoubtedly the finest kicking exhibits in six-man football during the past three years. Crume not only did a superb job of kicking the ball but he ran for three touchdowns and passed over two more, besides playing a smart quarterback game.

Other New Haven scores were made by Rhodes (12), Stevenson (6), and Mason (6).

Stansel was the Knight's biggest threat. He kicked two extra goals for four points and passed for two TDs. Fields scored two six-pointers for the Knights and added an extra point. Denner also added a touchdown.

Dry Ridge murdered Crittenden by an 81-0 score last Friday night at Dry Ridge. The Cards scored at will on their lighter and less experienced opposition.

Conference Standings

| | Won | Lost |

| Burlington | 4 | 0 |
| New Haven | 2 | 1 |

Only two weeks ago Bob and Gene defeated Charles's three to two, but Sunday the cafemen jumped on Mignerey, Bob and Gene hit ace, for seven runs and nine hits with none out in the second inning. They added nine runs and 12 hits off Hogan, and Sahaguer who finished for the losers. Bill Bishop of the Charles held Bob and Gene to four hits and was in complete command throughout the game.

Final Series Game Will Be Played At Florence Sat.

Between Burlington and Big Bone Nine; Both Record of 2 and 2.

Let's all go out to the ball game Saturday afternoon. The attraction will be the final game of the Boone County Saturday Afternoon League series between Big Bone, regular season winners, and Burlington. The game will be played at the Florence grounds and the opening pitch will be at 2:30 p. m.

Both teams have won two games in the three-best-of-five championship series. Burlington took the opener, Big Bone came back to cop the next two, but Burlington rebounded last Saturday to tie it up.

In the Saturday game, the locals had nine runs on eight hits and they committed no errors. Big Bone also had eight hits but were able to score only three runs and they made two miscues.

Smith On Hill
Manager Sam Ryle, of Burlington, in a surprise move, sent James Gayle Smith, a regular infielder to the mound, and the gamble paid off. Smith goose-egged the home team for eight innings but a streak of wildness and two base hits accounted for the loser's three tallies in the ninth. He fanned seven and walked three.

Burlington scored a run in the first, added another in the second and two in the third inning. They scored another single in the sixth and exploded for four in the eighth. Smith and McBee had two hits each for the winners and McFarland had a timely single with the sacks saturated. For Big Bone, V. Bowman had three hits and R. Bowman two.

The Big Game
In the big game of the year Saturday, manager Dale Williamson of Big Bone will probably go with Chester Ryan on the mound and Overberg behind the bat. The inner defense will probably be Bauman at first, Vest at second, Hayes at short and Miller at third. V. and R. Bowman plus manager Williamson will patrol the outer ground.

Burlington's lineup will depend largely upon how several injured players respond to the week's rest. Smith or Fund are most likely to be on the hill with Guiley catching.

Americans Urged To Vote By Legion Commander Craig

Will Preserve Our Government In Time of Peace.

"While the American Legion has and will engage upon many objectives, each is an attempt to preserve for our Government in time of peace the principles for which we fought and our friends died in time of war," George Craig, National Commander of The American Legion said in a Chicago press conference recently, while a guest of Elmer Layden, president of Americans Will Vote.

"During the 32 years the American Legion has lived in our Society, it has constantly reiterated the fact that all persons who enjoy the rights and heritage as Americans must discharge the duties and responsibilities of that citizenship if we are to remain strong and to progress as a nation.

"There are, of course, many duties of citizenship, all of which must be carefully tended, but there is one must if we are to remain free. Citizens must vote.

"In fact, Americans will vote to prove to the other nations of the world that they have a tenacity to retain our form of Government against all aggressors at all cost.

"Americans will vote to strengthen the bond of unity that holds us together as a God-fearing nation.

"Americans will vote to pledge continued loyalty to their fighting men who are dying in the field of Korea in the cause of freedom.

"Americans will vote to strengthen the internal security of our nation, by presenting an aggressive front to destroy communism.

"Americans will vote to choose wise leadership, men and women who may be depended upon to place the welfare of the nation ahead of the welfare of any political party or selfish interest.

"Americans will vote to assist our nation in meeting and correctly solving the problems which constitute the crisis facing our country.

"Americans will vote to re dedicate themselves to the principles of Americanism and Christianity.

"Americans will vote as a challenge to all who would covet and destroy our freedom.

"Americans will vote to destroy greed, selfishness and monopoly of privilege.

"Americans will vote to preserve the peace for which so many have given their lives and for which so many now offer their all.

"Americans will vote so that we, as a generation, may convey to posterity the principles of justice, freedom and democracy."

County Exceeds Quota In Recent Drive; Services Are Scheduled.

The Freedom Bell will ring throughout the world on October 24th at 11:03 a. m. It is requested that all the bells throughout the county be rung at that time in observance of this occasion.

Services will be conducted by Rev. R. A. Johnson, minister of the Burlington Baptist Church at the court house, Burlington, beginning at 11 a. m. It is urgently requested that all freedom-loving people join in prayer at the above hour, and offer your prayers for unified peace throughout the world.

The Crusade For Freedom campaign which has been underway in Boone County, closed this week after exceeding the goal of 1,350, according to County Chairman Wm. P. McEvoy and his Co-Chairman, Wendell Easton.

Boone County residents were eager to sign the scrolls and to contribute toward the drive. Chairman McEvoy reports. He was loud in his praise of workers throughout the county and extended thanks to all who assisted or contributed to the success of the campaign.

The symbol of the crusade is the great new Freedom Bell. It will be sent to the western sector of Berlin and installed in Rathaus Tower and will be formally dedicated October 24th. At that time the signatures of the millions of Americans on the Freedom Scrolls will be permanently enshrined in the foundation of the bell.

Your signature on the scrolls and your contribution will assist in keeping Radio Free Europe, on the air, which will penetrate the Iron Curtain six hours each day, fighting back against vicious Communist propaganda.

BULLITTSVILLE-IDEWILD HOME MAKERS MEET

Twenty-four members, two guests one new member and five children made a happy assembly at the home of Charles and Irene Patrick, October 11th for a meeting of the Bullittsville-Idewild Homemakers Club. Mrs. Cordelia Patrick assisted Irene as hostess.

Bessie Hill graciously presided. Instead of using the club collect by Mary Stewart, the new Kentucky Homemakers creed was read to start the meeting. Every month there is a call upon the treasury for some worthy cause. This time the members voted to give to the Kenton-Boone Crippled Children's Association.

The lesson on selecting the right colors and some short cuts in sewing, was ably and interestingly given by Ann McCrann and Mary Jo Grant. Old timers with "salt and pepper" hair who thought they couldn't learn anything about sewing were pleased and surprised that they could.

Before and after the lesson Tillie Grant led the members in games. She also gave a short and pertinent reading. Prizes were won by Irene Patrick and Nellie Grant.

Guests were Mrs. Hazel Smith, of Xenia, Ohio, sister of Mrs. Nellie Grant, and Mrs. Rose Ratcliff, of Bullittsville. Mrs. Theodore Birkle Jr., was welcomed as a new member.

Miss Nancy McClaskey, Home Demonstration Agent was present in the afternoon.

Leaders for Christmas gift suggestions for which lesson they will go to Burlington Oct. 27th were chosen as follows: Tillie Grant and Jackie Willis.

The next meeting, November 7th will be at the home of Chester Jr., and Mary Jo Grant.

Bullittsville-Idewild is proud and should be congratulated on the way the younger matrons are taking over the duties and leadership of their club.

A WORD OF THANKS

Again I would like to express my thanks and appreciation to my many friends and relatives, who so lovingly stood by and helped me in the last illness and passing of my dear husband.

Thomas B. Cason

I especially want to thank Dr. Yelton for his loyal efforts; Mr. Stith for the gentle conscientious way he handled funeral arrangements; Rev. Brooks, Johnson and Huntington for their comforting message and consoling prayers; the ones who gave the beautiful flowers and sent the many comforting messages thru cards and letters; those who stayed with us night after night, and everyone who helped in any way.

Your kindness will never be forgotten and may the Lord richly bless you in so helping to comfort a lonely heart.

Ira Mae Cason.

WHY

Farmers Should Vote
for CLEMENTS
For U. S. SENATOR

1. EARLE CLEMENTS is the farmers' friend. He was born and reared in a Union County farm community. He's still a farmer and breeder of purebred livestock. He knows farming and farmers' problems. His Union County neighbors know him as a down-to-earth farmer who can milk a cow, run a tractor or vaccinate a hog. He is Kentucky's first real farmer-Governor in many years.

2. As Congressman, EARLE CLEMENTS was on the important House Agriculture Committee. He rendered valuable service to farmers of Kentucky and the Nation. He sponsored the CLEMENTS BILL in 1945 that has increased income of over 33,000 dark tobacco growers in Kentucky by \$34,259,900 in 5 years. The tobacco price supports also have been of vast benefit to burley growers.

3. GOVERNOR CLEMENTS gave active, effective and vigorous support to the Kentucky Delegation in Congress to include tobacco under the Marshall Plan.

4. EARLE CLEMENTS helped write and worked for passage of the Agricultural Research and Marketing Act to broaden use of farm products. As Governor, he has enabled Kentucky to take fullest advantage of the Hope-Flannagan Act to aid farmers.

5. EARLE CLEMENTS has fought vigorously to expand rural electrification. When he became Governor, less than 49 per cent of Kentucky farm homes were electrified. Today, expansion will increase this to 76 per cent. On his call, the special session of the 1949

Legislature gave approval to the Federal Act which increased from 25 to 35 years amortization of REA loans to conform to the Federal Act. In Congress, EARLE CLEMENTS vigorously opposed Republican attempts to cut rural electrification funds.

6. EARLE CLEMENTS supported the 1950 Kentucky Act to aid expansion of rural telephones under the new REA rural telephone act. He has fought consistently to improve soil conservation and to increase aid for extension work. In Congress, he worked for passage of his Agriculture Committee's bill for permanent school-aid lunch program to enable school children to have adequate, nutritious meals.

7. GOVERNOR CLEMENTS has given Kentucky farmers better roads. During his administration, more than 2,500 miles of farm-to-market roads have been built, and more improvements have been made on the primary system than in any like period in history of the Commonwealth. He sponsored legislation establishing the Agricultural and Industrial Development Board to expand Kentucky agriculture and industry.

8. On his Union County farm, EARLE CLEMENTS practices soil conservation. His knowledge of farming and farm problems has been put to practical use by the State. Kentucky's penal and mental institutions now operate modern farms of more than 11,000 acres. More than 2,500 acres were purchased during CLEMENTS' administration. These farms now raise much of their own food, saving the taxpayers many thousands of dollars.

THE TELEPHONE COMPANY ANNOUNCES

On August 2, 1950 the telephone company placed an order for the most modern type cable available to replace and double the capacity of the present cable running from Florence to Gunpowder Creek on U. S. Highway 42. The estimated cost of this cable placed in service will be approximately \$7,000.00. When this order was placed it was scheduled for shipment early in September. Because of the increasing scarcity of copper and other materials this delivery has been delayed, however, shipment has been received of approximately one-fifth of the cable ordered and the balance was rescheduled to be shipped within ten days.

When this cable is received and installed it will result in improved service to customers on Highway 42, customers at Union and customers between Union and Big Bone.

Watch this space in future issues for additional information regarding further improvements to your telephone system.

Clements Blasts Speech of Dawson In Talk Monday

State of Republican Is "Irresponsible Mouthings."

Bardonia, Ky., Oct. 16—Governor Earle C. Clements tonight branded as "irresponsible mouthings" the statement of his Republican opponent that if elected to the United States Senate he would take steps to impeach President Truman. "I propose to take care of the IF in

his calculations," the Governor declared, "and I feel sure that the Democratic nominees for the Lower House will make it well-nigh impossible for him to find a sponsor for his foolish proposal."

Judge Charles I. Dawson, Republican candidate, in an address at Madisonville last week, said that if elected he proposed to get a member of the Lower House to start impeachment proceedings against the President. Governor Clements said that by all calculations "at least eight Democrats will be sent to the House of Representatives. Just who is the Kentucky Republican Congressman my opponent is counting upon to introduce this proposal?"

No single statement has done more to give "aid and comfort to the Communists" of the country and world than the outburst of the Republican nominee in the impeachment tangle, Governor Clements said. "President Truman needs no defense from this sort of attack," Clements declared. "The people of Kentucky now realize that my opponent is completely devoid of issues in the campaign. He has been on both sides of more questions during the last ten years than any candidate for public office that I now can recall."

Governor Clements discussed the road program of the state, telling his listeners that more than \$80,000,000 have been spent on the highway system since he went into office. He called particular attention to the rural road program, pointing out that under the present administration more than 2,500 miles of farm-to-market roads have been built or let to contract and announcing that this total will be increased greatly in the next few years due to the increased road funds. These increased funds will come as a result of the greatly expanded park program being undertaken by the Commonwealth.

"Kentucky's park system is bring-

ing countless thousands of visitors into our state. Kentucky is being re-discovered by thousands of tourists from practically every state in the union. The present administration has adopted the theory that if we let the people of the United States know about Kentucky's superior scenic and historic attractions they will come to see them. This means increased income from gasoline taxes, and increased revenues mean more money available for roads and parks. Kentucky is going forward."

Governor Clements told of his work in behalf of the farmers and tobacco growers while in Congress as Representative of the Second District. He said that the experience gained in the Lower House would fit him to give better service to the people of his state when he goes to Washington as Senator. "I believe that the people of Kentucky want experience and good business management in the Federal Government. I do not think that they want loose talk and blustering. I solicit your support on November 7," the Governor concluded.

Verona

The dedication of the new church will be October 29. Bro. Childress and other pastors and friends will be present.

The community was happy to have Bro. J. T. Roberts back in the services Sunday. We all join in giving thanks to our Heavenly Father for our many blessings. We were glad to have Bro. Charlie Hughes' family at services Sunday and sympathize with them in their bereavement.

Rev. Stewart will be absent from the pulpit this week-end, with Bro. John Ashcraft acting as supply at both morning and evening services. The public is cordially invited to attend these services.

Five ladies from the W. M. S. visited Booth Hospital, last Tuesday.

Mrs. Frank White and daughter Mary Ethelene and Mrs. Janie Copley from Wood River, Ill., have been visiting relatives in this community and Mrs. White's daughter and husband, Mr. and Mrs. T. Meyer and children of Bedford, Ky.

Mr. and Mrs. Meyers and children visited her grandfather, Mr. and Mrs. Walter Vest of Edwards Ave.

Harry Waller and sister, Mrs. Hazel Jones tendered their mother, Mrs. Marvin Waller with a surprise birthday dinner October 8th. The day was Mrs. Waller's birthday. Those attending the occasion were Mr. and Mrs. R. H. Alexander, of Dry Ridge; Prof. and Mrs. Chester Alexander and son, Georgetown; Mr. and Mrs. Otis Alexander and children of Indiana; Mr. and Mrs. Virgil Alexander, Mr. and Mrs. Russell Alexander and Mrs. Irene Anderson, of Cincinnati; Mr. and Mrs. Harry Waller, Lexington; Billy Mac Waller, Berea; Mr. and Mrs. W. C. Waller and Marion Arch, Verona; Mr. and Mrs. Earl Jones and Mr. and Mrs. Marvin Waller, Crittenden.

Lower Gunpowder

Rev. Kikuo Matsukawa was the speaker Sunday at East Bend Baptist Church both morning and evening. He is a student at Georgetown College and is doing an outstanding work for the Lord. All who missed hearing him at East Bend missed a wonderful talk.

Mrs. Maud Hodges and son Harold spent Saturday evening with F. H. Seebree and wife.

Julie Bristow, Mr. and Mrs. F. Seebree spent Friday with H. C. Love and family.

Ninety-eight were present for Sunday School at Big Bone Baptist Church, Sunday.

Frank Seebree and wife called on Bryant Jones and family Saturday afternoon. He has been seriously ill for several weeks.

H. C. Love and family spent Sunday with the Seebree family.

CONSTANCE HOMEKERS

The Constance Homemakers held their regular meeting at the home of Mrs. Gladys Stone, October 11 at 10:30 a. m. Reports of committees and business session occupied the morning session. Twenty-four members answered roll call.

In the afternoon our sewing leaders, Mrs. Gladys Dolwick and Mrs. Dola Mae Domaschko gave our lesson on "Patterns, Measurements, Material and Trimmings," which was very interesting.

Our next meeting will be held November 1st at the Brethren Church.

CARD OF THANKS

I wish to thank my many friends who were so kind to me during my stay in the hospital and since I have been home.

Thank you for your prayers, visits, gifts, cards and other deeds of kindness. All were certainly appreciated.

Six-Man Football Fans Treated To Extremely Exciting Games During Past Week; Eagles Have Close Squeeze

New Haven Defeat Crittenden; Lose to Dry Ridge and Florence; Hebron Chalks Up Victory Over Florence Knights Thursday.

Northern Kentucky 6-Man Football Conference fans were treated to some extremely exciting games during the past week. With the exception of a New Haven Tiger "runaway" over Crittenden's Bulldogs early last week, all the other contests were thrillers.

New Haven had the busiest session as they won one and dropped two games. Besides their 52-0 win over Crittenden, they lost 42-34 to the Dry Ridge Cardinals and 27-21 to Florence. The two defeats dropped the Tigers from second place in Conference standings. Sophomore Star, Ronnie Crume, continued his torrid scoring pace in the three New Haven games.

Hebron's Cardinals took over second place in the standings with a 56-36 win over Florence last Thursday night. The Cardinals scored by Powers (16), Bowman (20), Zeigler (8), Tanner (8), Snyder (5), and Bell (2). Stansel scored 12 or Florence with Bethel, Dinn, Denner and Fields, adding six points each.

Eagles Win Close One

Burlington's Eagles, playing off-side-the-conference opposition, led their hands full in defeating the Perryville Bulldogs by a 37-32 score at Burlington Saturday night. The Eagles started off in their usual high scoring way and held a 31-6 halftime lead, but the Bulldogs returned at the half and never stopped until they were leading 32-31 with less than four minutes to play. At this point the Eagles pushed across the final and winning touchdown after a 55-yard march.

Local fans are agreed that the Perryville team is probably the strongest team to hit the Eagles since the first year of six-man football. Their team was built around a hard-running back, M. Harmon, and a superb pass-catching (Ed. Doss. Doss scored three TDs and passed to Doss for another. E. Milburn added seven more points and J. Milburn one for the losers.

For the Eagles Jim Ryle scored four touchdowns, including the game winner, and Gayle Reese scored twice. Combs added Burlington's extra point.

Big Bone Takes Championship Bout In Saturday League

Eleven Innings Required To Give Big Bone 5-4 Decision.

Big Bone, regular season winners of the Boone County Saturday Afternoon Baseball League, were declared league champion last Saturday afternoon when they defeated the Burlington team by a 5-4 score in the final of the three-set, five series. The game was a thriller, as was the entire series, going eleven innings before the winning marker was scored.

Manager Dale Williamson of the winners called on the Veteran Charley Black, who earlier in the season tossed a no-hitter, for mound duty and he came through like a champ. He gave the locals only eight scattered hits and didn't allow a score after the seventh inning. Black fanned eight men and walked only two.

James Gayle Smith started for the losers and pitched creditable ball until relieved by Deck late in the game. The two gave up 12 bingles, fanned four and walked two. Bauman led the winners' assault with three hits including a double. Williamson also had a triple and single. For Burlington Deck had a triple and double.

The Big Bone team was presented with the League Trophy following the contest. Burlington received the runner-up cup. The presentations were made by Rev. R. Johnson of Burlington.

Game Violator Escapes Officers On Indiana Shore

After Man Holds Officers At Bay With Gun, Near Aurora.

Conservation officers Albert Hunt of Walton and Atlas Lynn, of Williamson, arrested an Indiana resident fishing without a license on the Kentucky shore Saturday. Another man, a semi-invalid with the violator requested that he be ferried back to the Indiana shore.

As the boat drew near the Indiana shore at Aurora, the man under arrest dove from his boat and started to swim ashore. As the officers attempted to stop him, another man stepped from the trees along the bank and threatened them with a gun.

The gun wielder ordered the officers not to move while his accomplice got to safety, or he would shoot them. Without any legal authority outside of the state, the local officers were powerless to arrest the man with the gun.

Stanley Shelton, Fifth District Chief of Conservation Officers stated that Kentucky officers may seek Federal action in an attempt to keep residents of bordering states from molesting them in the performance of their duties.

A party of conservation officers in five boats were fired upon from the hillside near Aurora when they were confiscating hundreds of untaxed and illegal funnel and wing nets that were depleting the Ohio River of fish.

A Federal warrant may be obtained for both the men involved in the Aurora incident, and they may be prosecuted in a Federal District Court, either in Kentucky or Indiana. They are liable for a fine up to \$10,000 each or a 10-year jail sentence, Mr. Shelton reported.

Newton Herrington, of Erlanger was a visitor in Burlington last Friday morning, and while here called at The Recorder office having his subscription moved up another year.

Covington Man Held For Grand Jury Action

Charged With Theft of Tractor From Verona Farm October 6th

Aubrey Beach, of 1318 Banklick St., Covington was arrested Wednesday by Sheriff Wendell Easton, charged with having stolen property in his possession. Burel Norris, of Richmond, Ind., was also returned to Boone County on a similar charge.

Beach is charged with having stolen a tractor from the farm of O. H. Hopkins, Verona, October 6th, transporting the tractor to Indiana where it was placed in the hands of Burel Norris for sale. The tractor stolen from the Hopkins farm October 6th arrived in Indiana October 7th. Beach was identified by Norris as the man who turned over a receipt for a tractor placed in the hands of an Indiana man to be sold.

Sheriff Easton, who has worked on the case for several days, traced the tractor to Indiana, but was unable to learn the name of the man who gave the receipt to Norris. Norris gave Easton a telephone number left by Beach, which led to his arrest Wednesday.

When arraigned in Judge C. L. Cropper's Court Thursday, Beach waived examining trial, and was held for action of the December grand jury. His bond was set at \$3,000.00.

The tractor was recovered at the Lease Farm Equipment Co., Greenview, Ohio and returned to the owner.

Deposit Tax Law Has Been In Effect Past Twenty Years

Boone County Banks Absorb Tax For Their Depositors, Is Report.

An article appeared in the press a short time ago merely calling attention to the law which has been in effect for 20 years or more regarding the tax on deposits in banks in Kentucky, and the liability for tax money on deposit outside of the State. Many people seemed to think it is some new tax law, but it is not.

Kentucky banks are required to list their total deposits with the State but not as to each individual account, and pay the taxes at the rate of 1/10 of 1%. The banks have the right to charge this tax back to each individual depositor but the banks of Boone County have always absorbed this tax for their depositors and have not charged it back, even though it is quite an item to the banks.

The banks of Boone County are among the very few banks of the state that absorb this tax for their depositors.

If you have money on deposit in a bank outside of the State of Kentucky, then the law requires you to list the amount of your deposit with the Tax Commissioner and you are required to pay the tax on such deposit. But as long as your deposit is in a bank in Boone County you have no tax concern regarding your deposit, so long as the Boone County banks continue to absorb this tax.

This is a State law and has no connection with Federal regulations.

A party living in Kentucky and having a deposit in a bank in another State is taxed at a much higher rate than 1/10 of 1%, and must pay this tax himself.

POLITICAL QUIZ PROGRAM

Candidate Charles I. Dawson has been on both sides of almost every question before the voters in the race for the United States Senate.

Candidate Dawson has told the voters many things which Attorney Dawson would not approve. Candidate Dawson has taken stands which Citizen Dawson would shy away from. Candidate Dawson has warmly embraced Democratic principles which Judge Dawson held unconstitutional.

Candidate Dawson has been asking for an investigation of his record. We have investigated this record but find a few points which need clearing up. Will you answer these questions so the voters will know where you stand?

No. 1 As listed attorney for Joseph E. Seagram & Sons, Inc., Frankfort Distilleries, Inc., National Distillers Products Corp., Calvert Distilling Company, United Distillers of America, Ohio River Frankfort Coopersage Company, didn't you work diligently and do everything in your power to further the passage of the Act of the General Assembly of Kentucky which permitted cities of the first four classes to vote independently of counties on the liquor question?

No. 2 Are you not now, through letters and speeches, seeking to gain the dry vote of the State while at the same time you are listed as counsel for practically every big distilling company operating in Kentucky? You can't be faithful to both your clients and to the people. Which side are you on?

No. 3 One T. J. Pendergast has been castigated in campaign speeches made by you as the epitome of corruption in politics. Can you deny, Judge Dawson, the fact that your name was listed as one of the attorneys for this same Pendergast in a tax relief suit

filed at Frankfort? To refresh your recollection, Judge, the case was styled as the T. J. Pendergast Wholesale Liquor Company.

No. 4 As listed attorney for the American Turf Association, (Jockey Club) Churchill Downs, Inc., does it embarrass you to make overtures to certain anti-gambling, church and school groups for their support on the pretense that you are on their side?

No. 5 In view of your wish that your record as private citizen, attorney and Federal Judge be examined, just how can you account for the fact that—as reported by The Courier-Journal—you appeared as attorney for a bondholders committee in a bankruptcy case on the very day you relinquished your duties as Federal Judge; or the further fact that you filed on that same day a suit attacking constitutionality of the Agricultural Adjustment Act on behalf of one of the big milling companies? Were these legal papers prepared while you were still a Federal Judge?

The voters of Kentucky will welcome answers to these and other questions which will be asked during the course of this campaign. Are you prepared, Judge Dawson, to give true and non-evasive answers to these questions?

Dedication Services Held At Bullittsville Christian Church Sunday

The dedication of the new parsonage Sunday, October 22 was preceded by regular church services and a large fellowship covered dish dinner. Members of other churches were welcomed both at the services and the dinner.

The dedication ceremony in the afternoon was begun by prayer with Rev. McDonald of the Petersburg Christian Church leading. The benediction was pronounced by the Rev. Patton of the Bullittsville Baptist Church.

During the ceremony an electric clock was given the parsonage by members of the Bullittsville Church. There has always been much fellowship between the two churches.

Miss Frances Acra was scheduled to sing a solo, but due to cold, her aunt, Mrs. Frances Kottmyer substituted for her and reverently rendered "The Lord's Prayer."

Dr. George V. Moore of the College of the Bible at Lexington gave the address. He pointed out that since everything is God's and Christ is in God and God or Christ in man, the church and its buildings belong to its members, who in turn belong to Christ and thence to God, completing the infinite circle.

Pastor of the church is the Rev. A. C. Young. He and his wife and baby daughter Beverly Jean have been in the parsonage for about a month since its completion.

IN LOVING MEMORY

Of my beloved husband and our father C. O. Hemphill, who passed away October 24, 1947.

We do not forget you, nor do we intend.

We do not forget you, nor do we to the end;

Gone and forgotten by some you may be,

But dear to our memory, you ever will be.

Loving Wife and Children

IN MEMORIAM

In memory of my beloved son, Sherman Lee Wolfe.

Four years have passed since that sad day.

When one we loved was called away;

God took him home it was His will.

Within our hearts, he liveth still.

No one knows the heartaches

Only those who have lost can tell

Of the grief that's borne in silence.

For the one we loved so well.

Sadly missed by Mother and Children.

Voters Will Elect Clements, Says J. Thaxter Sims

Ticket Will Carry Eight
Congressional Districts
Is Claim.

Louisville, Ky., Oct. 31.—Voters of Kentucky will elect Earle C. Clements as their new United States Senator by an overwhelming margin, according to a survey by J. Thaxter Sims, Democratic State Campaign Chairman. J. Thaxter Sims declared today.

The victory of Governor Clements' will carry with it eight Democratic members of Congress and the Democratic judicial candidates, Sims added.

"Our ticket will carry eight of the nine Congressional districts for Governor Clements and other nominees and our reports indicate substantial inroads will be made into the Republican Ninth district," said Sims. He coupled his prediction of victory with an appeal for a record vote in an off-year and warned Democratic workers and voters to be on the alert for last minute trickery.

"The voters of Kentucky have been bonafide with all sorts of false charges and we may expect more of the same groundless variety before Tuesday," Sims added. "But the voters are able to see through the smokescreen that has been thrown up to hide the reactionary record of Republican Senatorial candidate Charles I. Dawson."

"The people of Kentucky will not be misled by any last-minute trickery, but I feel it my duty to tell all workers and the citizenship generally that where a campaign of such misrepresentation has been waged upon a continuation of this propaganda during the closing days of this race.

"Typical of these false charges is the 'smoke screen' set up in dry areas of Dawson's friendliness to their side, when, as a matter of fact his law firm represents five large distillery chains, and two of Kentucky's large whiskey wholesale houses. Numerous other unfounded charges and claims have been made to conceal Dawson's own reactionary record.

"The voters of Kentucky can not be bought. Neither can they be fooled by the eleven-hour conversion of Old Dealer Dawson to many progressive Democratic measures. Last minute lip service to dozens of great measures sponsored and passed by the Democrats in Washington will not wash away Dawson's record of 'ninety-nine and nine-tenths' percentism against them; neither will it wipe out his Liberty League denunciation of acts covering social security, farm support, fair labor practices and other Democratic legislation passed for the benefit of all the people.

Shotguns Barred From Fields Nov. 5 Until November 19

Order Will Protect Game
Says Ear. Wallace,
Game and Fish Director.

Hunters and shotguns again will be barred from the fields of Kentucky from midnight November 5, until midnight, November 19, Earl Wallace, Director of the Division of Game and Fish, has announced. Barring of hunters and shotguns was decided on the director declared in order to protect game between the closing of the squirrel season and the opening of the quail and rabbit season. He pointed out that violators have used the ruse of hunting groundhogs and crows and other birds and animals in the past when in reality they were hunting quail and rabbits. By using this ruse many violators have escaped punishment in the courts. With this new emergency regulation being in effect a hunter will have no excuse for carrying a shotgun in the fields during this designated 14-day period, and will be in violation of the law by so doing.

Authority for such emergency regulation was given the director and the Game and Fish Commission by an act of the General Assembly in 1948.

The regular states, in part: "The Director and Commission, after giving due regard to the widespread violations between the close of the squirrel season on November 5 and the opening of the rabbit and quail season on November 20, and also to the excessive destruction of game during that period which threatens to damage the continued supply thereof, do hereby declare an emergency exists which warrants the closing of the season on all protected and unprotected game including birds, animals, amphibians and turtles starting at midnight, November 5, and closing at midnight, November 19, 1950. This regulation prohibits the use of and possession of any type of shotgun, in the field, starting at midnight, November 5 to midnight, November 19, 1950. This regulation is to apply to the entire state and any other regulation conflicting is hereby repealed."

The Division of Game and Fish asks that all farmers, sportsmen and others interested in the conservation of wildlife assist in the enforcement of this regulation, since it is the only method by which the thief and cheater hunter may be kept out of the fields during the period immediately before the opening of the legal hunting season.

Plans are rapidly nearing completion for an annual bird dog field trial to be held at the Garrard-Lincoln Field Trial area on November 15, 16, and 17. It is sponsored by the Central Kentucky Field Trial Association and entries from all sections of the state are expected at the three-day meeting. Any dog that has not won an open all-age stake may be entered. There are classes for puppies, all-age and shooting dogs and trophies will be presented to the winners. The area has been stocked by the Division of Game and Fish and plenty of birds are assured for the fields during the period. The drawings will be held at the Walker Hotel, Lancaster, on November 14. Further information may be obtained by contacting Wade Walker, Association secretary, at Lancaster.

30-ACRE FARM SOLD

Howard Abdon sold his 30-acre farm near Rabbit Hash last Saturday to Mr. and Mrs. Charles F. Knox of Newport. Negotiations were handled through the A. B. Renaker Agency.

to Washington November 7.

"I appeal to all good Democrats, to the forward-looking, progressive members of the Republican party who are without a candidate for the Senate, to all independent voters who boast they vote for the man, to come out and vote for Earle Clements and the entire Democratic ticket on Tuesday."

NOTICE TO OUR SUBSCRIBERS

For the past few years, it has been the policy of this newspaper to hold on to the traditional yearly subscription rate of \$1.50 per year, which has been done, even though the cost of our materials have doubled and in many cases tripled over 1939 levels.

We now face another sharp increase in newsprint, effective November 1st, and we are forced to raise our subscription rate to \$2.50 per year, beginning January 1, 1951.

We will, however, accept any renewals from now until January 1st at the old rate of \$1.50, and you may pay as many years in advance as you desire. This will give you an opportunity to save several dollars if you wish to take advantage of it before the new price becomes effective on January 1, 1951.

Mail your checks, cash or money orders to The Boone County Recorder, Burlington, Ky., stating the number of years you desire to subscribe and your orders will receive prompt attention.

We regret to break a policy that has existed since 1875, but present day conditions make it impossible to continue on the same basis as in years past.

Burlington Six To Invade Bardstown Stronghold Friday

Bardstown Has Perfect
Season's Record of Seven
Victories.

What may be a strong claim on the unofficial title of "State champion" in Kentucky six-man football will be decided Friday night, November 3, when the Burlington Eagles, of the Northern Kentucky Conference, trek to Bardstown to take on J. H. Harvey's Salt River Valley Conference champion Tigers. The game will be played at Bardstown High School field at nine o'clock E. S. T.

The Purple and Gold Tigers have a perfect season's record of seven wins and have defeated some of the state's stronger teams including the Perryville Bulldogs (remember them, Burlington?) and Burgin. The Tigers formerly played eleven-man football and switched to the six-man game a few years ago.

Advance information concerning the Eagle's biggest rival of the year points to an extremely large team, "well coached and tough both on the ground and in the air," and tough defensively.

The Eagles have "dug in" this week with longer and harder practices, realizing that this is "the game of the year" for them.

Florence and Hebron are scheduled for Wednesday afternoon, Nov. 1, at Florence grounds. This will be the first afternoon game of the season and will be the first game at the Florence grounds.

Other games for the week are Florence vs. Crittenden, Nov. 4, New Haven vs. Hebron on Nov. 7, Burlington at Dry Ridge Nov. 9 and Burlington at Stuart Robinson on Nov. 11.

New Legume Seed Now Available

Seed of Kinland Red Clover will be available to Boone County farmers if they will order the seed from dealers now, before the supply is exhausted, according to Bill Davis, County Agent. It is estimated that Western states produced 2,000,000 of Kinland clover seed this year. Much of this supply will be available for sowing in eastern states, but it is probable that Kentucky farmers will get little of it unless it is ordered now. Both registered and certified seed will be on the market.

Farmers who wish to produce certified seed in 1951 should sow registered seed this year. Those sowing for hay and pasture should sow certified seed. Growers who wish to produce registered seed in 1952 should sow foundation seed obtained from the Kentucky Seed Improvement Association, 929 South Limestone Street, Lexington, Ky.

Kinland is a superior variety for the southern red clover belt because of its resistance to southern Anthracnose. It is more persistent than Cumberland and the common red clovers grown in Kentucky.

Little Peggy Griesser, daughter of Mr. and Mrs. Carl Griesser, has been ill for the past few days.

Burlington Eagles Hold Top Position; Hebron Second

In Northern Kentucky
Six-Man Football
Conference.

The Burlington Eagles maintained their perfect record in the Northern Kentucky Six-Man Football Conference last week by defeating New Haven's Tigers by a 75 to 12 score at the local field last Thursday night. The win was the fifth in conference play and sixth of the season for the Burlington team. It marked New Haven's fourth loss against three wins. Hebron's Cardinals kept second spot in league play with a convincing 56-6 win over hapless Crittenden. This was Hebron's fourth win against one setback for league competition and their fifth win of the campaign. Dry Ridge, third place team, had another easy night Sunday when they walloped Crittenden for a second time this season.

Scoring Race
A point scoring contest has developed in the Conference somewhat similar to the "Ratterman-Lujack feud" of professional football. New Haven's elusive back Ronnie Crume has hit pay-dirt for 158 points in seven games while big Jim Ryle of Burlington has tallied 157 points in six encounters. Gayle Rouse of Burlington, C. Howe and A. Lawrence of Dry Ridge and Powers of Hebron also are high in the scoring column.

Ryle had a big evening at the expense of New Haven in Thursday's encounter as he pushed over five touchdowns and one extra point. Crume scored New Haven's only TDs as he went over twice to keep his scoring lead. In the Eagle-Tiger clash Gayle Rouse scored 26 points on three touchdowns and four successful kicks for eight points. Deck, Jones and Holbrook each scored a touchdown to add to the Eagle total.

In passing the Tigers made good 18 of 35 attempts good for 132 yards while the Eagles had 9 successful passes out of 18 tries good for 67 yards. In rushing the Eagles ground out 328 yards to 110 for the Tigers. The winners had 13 first downs and New Haven had eight.

Wives To Benefit By Provisions of New Social Security

Not Required To Wait
For 65th Birthday For
Monthly Payments.

Many wives will no longer have to wait until their 65th birthday to become eligible for monthly insurance payments under social security.

Elbert M. Bohon, manager of the Covington, Kentucky, social security office, calls attention to the provisions in the new law for benefits to wives of retired workers who are now receiving old-age insurance payments. The wife of a present beneficiary who has under her care a child under 18 qualified for benefits may now have monthly payments herself.

In these cases, the wife's payments continue until the child under her care reaches 18 or is otherwise disqualified as a beneficiary, according to Mr. Bohon.

He suggests that wives who believe they are entitled to benefits under this provision of the new social security law get in touch with the local office, at seventh and Scott Streets, in the Post Office Building.

Good Intentions

It takes more than good intentions to get your farm work done. You have to have good machines — machines that are ready to run and to keep running. That means taking care of trouble before it can happen. And that's where we come in. Bring your machines to us now. We're cooperating 100% with Farm Journal's program to KEEP 'EM ROLLING. You'll reap the benefits of this farsighted program all through the winter.

CovingtonGOOD ROADS
BUILD
GOOD CITIZENS

Under the administration of Earle C. Clements, Kentucky has built and is building some \$83,700,000 worth of roads and bridges. This covers 7,000 miles of roads. Every school child knows this mileage is almost one-third the distance around the earth.

Last year, Kentucky built and contracted for more roads than any other state in the Nation except Texas. And the State Highway Department now maintains over 12,000 miles of Kentucky highways.

Almost 2,600 miles of Rural Roads were built or were under contract up to October 1, 1950, in every one of Kentucky's 120 counties. Farm-to-market roads are being built every day for people living off the main highways. The people in rural areas are being given roads to let them out of their hamlets and hollows in any kind of weather.

Good roads mean a lot to Kentuckians. It means citizens often deprived of travel

to the doctor . . . school . . . market . . . church . . . their mail . . . or even to visit a neighbor . . . now are able to do this.

Good roads enable everyone to do more of the good things they are entitled to do. Good roads benefit everybody. Yes, indeed, good roads build good citizens.

When EARLE CLEMENTS became Governor, he had the foresight and vision to see this great need for good roads. AND IN LESS THAN THREE YEARS, EARLE CLEMENTS HAS GIVEN KENTUCKY MORE GOOD ROADS THAN AT ANY SIMILAR PERIOD IN HISTORY.

EARLE CLEMENTS' wise foresight enabled the 1948 Legislature to provide the means to build these good roads. This foresight is building for Kentucky a system of highways second to none in the Nation. He has shown his ability in government at the State level. Give him the opportunity to serve his Kentucky, at the National level.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

BURLINGTON, KENTUCKY THURSDAY, NOVEMBER 9, 1950

VOLUME 75

NUMBER 17

Telephone Company Named Defendant In Petition Filed Before Public Service Commission of Kentucky

Ten Percent Decrease In Rates Asked In Petition; Representatives Of Public Service Commission Invited To Visit County.

The Consolidated Telephone Co., of Boone County was named defendant in a petition filed before the Public Service Commission of Kentucky, which aims not only to rescind the rate increase imposed last September 1, but to force a 10 percent "across-the-board" decrease until improvements in the service are made.

The petition includes an invitation to the commission to send representatives to the area to make a test of the type of service now given subscribers, which has been the subject of many and bitter complaints over the past several years.

In three points of relief sought in the petition, the commission is asked to set a time for hearing the complaint in the courthouse at Burlington. This request was made so that many subscribers could attend who could not make the trip to Frankfort.

The petition was filed on behalf of Boone County, through Judge C. L. Cropper, county judge; City of Walton, through R. M. Hall, mayor; City of Florence, through Clifford Coyle, chairman of the Board of Trustees, and 501 individual and corporate residents of the county whose names are appended to the petition.

The petition for the protestants, whose fight for better service has been headed by Frank Milburn, Wilford Scott and J. C. Acree was filed by John L. Vest, of the law firm of Vest & Vest, Walton, Ky.

Filing of the petition for relief was decided upon following a series of meetings of members of the committee with the county's subscribers after the company filed notice with the Public Service Commission on August 7 to increase the rates a total of \$29,598, the new rates to be effective Sept. 1.

One of the points of relief sought in the new petition, the commission is requested to make a complete investigation of the defendant company, and of its poles, lines, exchange equipment and station equipment.

The complainants ask that "this investigation be made without aid of complainants or any representative of defendant; that test calls be made, and that such other tests and investigations be made as shall be deemed necessary or desirable by this commission."

The complainants also waived formal public hearing, "providing defendant will make a similar waiver and agreed that the investigation above suggested may be used by this commission to obtain all facts necessary for it to rule upon this complaint."

The petition asks that the commission enter an order requiring the company to remodel, repair, rebuild, purchase and install or otherwise improve its pole lines, exchange equipment "and to do such other acts and things as in the judgment of the commission shall be necessary and proper so that the defendant will be able to give adequate service to its subscribers."

The protestants charge that counties bordering Boone are being given far better service at a lower rate and that the company has failed to live up to its promises to improve the service.

Pending requested improvements to service, the state commission is asked in the petition to order and place into effect at least a 10 percent reduction of all approved rates of the defendant company, "being specifically the rates in effect prior to Sept. 1, 1950."

Florence Drive-In Announces Prolonged Season; Gas To Heat Car

Realizing that many people prefer the Drive-In type of theatre for their movies, manager, Tom Hill and Wm. Macklin have announced a new and novel idea to keep their Florence Drive-In Theatre open during cold weather.

After thorough investigation, they have decided at the present time, the safest and most efficient method to heat an automobile on cold evenings, is by using your own car heater. NOTICE TO OUR SUBSCRIBERS

For the past few years, it has been the policy of this newspaper to hold on to the traditional yearly subscription rate of \$1.50 per year, which has been done, even though the cost of our materials have doubled and in many cases tripled over 1939 levels.

We now face another sharp increase in newsprint, effective November 1st, and we are forced to raise our subscription rate to \$2.50 per year, beginning January 1, 1951.

We will, however, accept any renewals from now until January 1st at the old rate of \$1.50, and you may pay as many years in advance as you desire. This will give you an opportunity to save several dollars if you wish to take advantage of it before the new price becomes effective on January 1, 1951.

Mail your checks, cash or money orders to The Boone County Recorder, Burlington, Ky., stating the number of years you desire to subscribe and your orders will receive prompt attention.

We regret to break a policy that has existed since 1875, but present day conditions make it impossible to continue on the same basis as in years past.

The Recorder office will remain open each Saturday from 7:30 a. m. to 4:30 p. m. until January 1, 1951, to accommodate subscribers who are unable to call at our office during regular office hours.

Burlington Eagles Suffer First Defeat At Hands of Bardstown Six After Sixteen Consecutive Victories

Fumbles Costly To Losers; Florence Knights and Hebron Cardinals Tie 27-27 At Florence Field Wednesday.

The Burlington High School football victory skein of sixteen consecutive victories, over a period of three years, was snapped last Friday night when the Bardstown Tigers 'clawed' the Eagles into submission by a 31 to 13 score on a rain-soaked and mud-laden field of the winners.

Burlington started the game in a fashion which indicated they would have an easy victory by pushing over a touchdown midway in the opening quarter and then tacking on the extra point. The score was made by Ryle after a series of "ground plays" which carried the ball to the Tiger nine yard stripe.

Ryle bucked over from this point and Ronnie Jones ran over the extra point.

The Tigers quickly rebounded on a series of Eagle fumbles, most of which came within their own 20-yard line, as they scored three touchdowns before the half. The Eagles added another and their final score late in the second quarter on a 55-yard sprint by Ryle.

The second half was all Bardstown as they scored two more touchdowns, one on a long run and another on an Eagle fumble in the end zone which the winners recovered. In the second half Burlington fumbled nine times while the glue-fingered Tigers missed only once and the big win difference was that Bardstown recovered their own fumble and seven of the Eagle fumbles.

In the statistical department the home team had the better record in all departments. They had 11 first downs to six, they had over two hundred yards rushing to 125 for Burlington and they completed two of five passes while Burlington got only two of eleven tries.

The Florence Knights showed unexpected strength last Wednesday afternoon when they held second place Hebron to a 27-27 deadlock at the Florence field.

For the Knights Dinn was the big threat with 19 points on three touchdowns and an extra point. Stansel scored the Knight's other eight points. For Hebron Day had two TDs, Tanner and Townsend had one each and Powers had two extra points with the tie getting one.

The Knights defeated Crittenden Tuesday afternoon of this week in the closing game for both teams. Score of the game was not available at press time.

Coming Games
New Haven and Hebron will play Wednesday night at the Burlington field in what will be the winnup for those two teams. Burlington will leave Friday morning for Blackey, Kentucky, where they will take on the Stuart Robinson team Saturday afternoon. This will be the last game of the season for the Eagles.

In the business session a system of grading each Sunday school on the basis of points was adopted. An "efficiency banner" will be awarded to the Sunday school having the most points each month. The cup will also be awarded to the church having the largest number present.

Walter Baptist Sunday School received the cup for this month, having the largest number present with 38.

The devotional was brought by Rev. E. Lionel Patton, of Bullittsburg and Rev. Harry Lee Walmscott, brought a very inspiring message on "The Use of the Bible in the Sunday School."

The next meeting will be on Monday night, December 11, 7:45 at the Big Bone Baptist Church.

John W. Ryle Gives Outline of Visit With Relatives In California

John W. Ryle, 77, former Burlington resident, but now a resident of Elsmere, enjoyed an extended vacation in California with relatives recently. He left Boone County by plane, (this first plane ride) and returned by plane.

Mr. Ryle kept a complete diary of his trip, which follows:

Monday, October 16, 1950
"Arrived at Mills Field, San Francisco, Monday at 7 a. m.; took bus to Palo Alto and taxi to Nora Mae's home. We had a nice visit and talked of all the people she used to know in Boone County. After lunch she sent me to bed for a long nap as I did not get much sleep on the plane. After the nap we walked up town to do a bit of shopping, then had our supper and at 8 o'clock her big fat husband came home and we talked some more and then to bed for a good night's sleep.

Tuesday morning we arose at 3:30

a. m. and drove to Mountain View, a town about 7 miles to Al's Cafe and had nice breakfast and Nora Mae did many things as usual. Then at 8:30 we started home, made a few stops on the way and soon after reaching home Fannie arrived and we all talked while having a nice lunch. After lunch they made me take another nap. I think they thought I would talk more than was good me. That night I went home with Fannie and met her big fat husband. But no joking, they are both fine fellows.

"Next day, Wednesday, Oct. 18, Fannie and I went to San Francisco the remainder of the family having to work. We shopped on Market St. and Grant Ave., lunched at Moar's Cafeteria where we saw the noted Deago Murals, rode the cable car to Nob Hill past Mark Hopkins and Fairmont Hotel where president Truman was stopping on his stay in San Francisco. We saw the Golden Gate bridge, the S. F. bay and homes built before the earthquake and the fire, took the new S. F. trolley out to the Pacific Ocean which was certainly beautiful, but which I thought was very rough. However, Fannie assured me it was really calm to what it was at times. Back down town past the U. S. mint and other points of interest to Market Street and then back to Mountain View and Fannie's home. Was very tired but had a good night's sleep.

"Next day Thursday, Nora Mae and her husband came by for me, and we drove all day, saw Saratoga, Orange Juice in Los Gatos, Santa Cruz and the beautiful beach; drove out on the pier about a mile into the Pacific Ocean; watched a drove of seals swimming and catching fish, also many sea gulls after the fish. Many people were fishing. We drove back to the beach and Famous Casino and bathing beach. We then drove up town and had lunch, a chicken pie. Another thing of beauty were the redwood trees on the mountain road to Santa Cruz—so tall and straight; also many Eucalyptus trees straight and trim reaching toward the sky, they have a very nice fragrance. Then goodbye to Santa Cruz and on to a beautiful new speedway to Watsonville. Met some of Al's friends there. It is known as the apple city; then on to Gilroy, over some mountain roads and then the 101 highway or Los Angeles Highway. Had a wonderful milk shake in Gilroy (about the only thing of interest). Then on through Morgan Hill and other small towns to San Jose (pronounced San Hosa); stopped to see Lillie's house and then on to Mountain View, where we had supper at Charley's Chop Suey House (my first chop suey) or how do you spell it? Then we returned to Fannie's home for the night.

"Friday, October 20, with Fannie

and husband we drove around the bay road to San Francisco, thru Oakland and across the new bay bridge, longest span in the world; then along the San Francisco water front. We saw the famous Ferry Buildings and noted Fisherman's Wharf and had lunch at Fisherman's Grotto, then on out to the Cliff House and the ocean again. We drove through the Golden Gate Park and the San Francisco fog was really coming in. They told me unless I saw the fog I didn't see San Francisco. Atop of Twin Peaks we had a panoramic view of San Francisco. Then we drove through the mission district and Market St., on to San Francisco China Town, where we bought souvenirs, cashed my traveler's check at a Chinese bank and went to see Lillie's daughter Frances, and her beautiful baby and Wilford and his wife. We then returned to Mountain View and to bed. What a day!

"Saturday, Oct. 21 Fannie and I went to Nora Mae's home and she accompanied us to make my reservations on the plane. We then went to Mae's for lunch and to address post cards. Fannie went home and I took a nap. All will be home about 8:30 and we will have supper.

Sunday, Oct. 22 Norma Mae was up early and went with Al to the restaurant. She returned home around 9:00 a. m. and we had our breakfast and went to New Baptist Church. We met Fannie at the church and had a visit with her and some of her friends. After church Nora Mae and I drove over to Stanford University which is about 1 mile from her home. We spent about three hours looking at the wonderful buildings. It was the most interesting place I have seen and then did not see all of the buildings. I even forgot to see the wonderful football stadium, which is the best in this part of the country. We returned home and had a nice chicken dinner, after which I had a nap and about 7 p. m. went to Mountain View to bring Al home and then to bed.

"Monday, Oct. 23. Well nothing very exciting today. Al left at 4:45 a. m. for the restaurant in Mountain View and the rest of us slept late and found it raining, not hard, but a nice gentle rain (the first they have had for about 6 months). At 5 p. m. it is still Monday and still raining. Guess California wants me to see all the different kinds of weather. Fannie arrived about 2 p. m. and we all had a nice visit, and I have had my nap. Fannie and her husband will be back at 7:00 and we will all leave for the airport soon. My plane leaves at 9:30, so if all goes well I will be in Cincinnati early Tuesday morning."

Gasoline Tax Law Will Be Rigidly Enforced

Gasoline companies and the state government will work together for tighter enforcement of the law on farm gasoline tax refunds.

That was the result of a conference between Department of Revenue staff members and representatives of the state's major oil and gasoline distributing companies. The company representatives agreed to increase efforts to train all tank truck drivers on the provisions of the refund law. The law requires that refund gasoline must be stored in a tank plainly marked "Refund Gas" and must be identified with purple dye furnished gasoline companies by the state.

The farmer who buys the refund gas and the truck driver who delivers it are jointly responsible for proper identification and storage of the gasoline. The Department of Revenue has found some cases in which both farmers and tank truck drivers failed to comply with these provisions.

The Department of Revenue makes a continuous check of farmers who have agricultural gasoline tax refund permits. Within the past several months 2,066 permit holders have been checked. Forty permits have been revoked and 24 suspended. Three were acquitted and 48 cases are still under consideration.

The State Tax Commission has the authority to suspend for as much as two years the permits of gasoline distributors who do not comply with the provisions of the refund law.

Commissioner of Revenue H. Clyde Reeves told the company representatives: "We know that a large majority of the farmers and dealers are complying with the law. For their protection, and in fairness to taxpayers and highway users, we are determined that violators shall be caught and their privilege to use tax-free gasoline denied."

Twelve new tobacco barns with sidewall ventilation were built in Clinton county during the summer.

The Great Toe And Your Feet

N. TULCH
Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison. Covington

Do you know that the great toe supports the entire weight of the body for an instant, in the last act of walking.

The foot muscles acting upon the four lesser toes preserve the balance of the body by causing the toe to grip in the shoe and in the last act of walking to give the final spring, or "take off." By their attachment the toes flex at their first (hologel) points and extend at their second and third joints, so that the ends of the toes are pressed upon and grip in standing so as to form powerful propelling levers as the body swings forward upon the toes.

Now, take off your shoes—and look at the bottom of your toes, in every case (there are few exceptions) you will see where the fleshy tissue on the bottom ends of the toes come to a point, from being forced tight together and in many cases the toes themselves lap over one another. This is positive evidence of ill fitted and ill shaped shoes. This continued distortion of toes in many cases leads to bunions, Hammer toes and other toe defects.

Lack of balance will cause you to walk incorrectly and create strain in other parts of the body, including fatigue, pain and more but even in the back of the neck misery, NOT ONLY in the feet, and headaches. Resolve right now to correct this condition.

It costs you nothing for a thorough analysis of your foot problems and difficulties. Remember you can't be HAPPY with UNHAPPY FEET.—Adv.

NO HEARING AID need sell for more than \$75

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT---AND ZENITH HAS BUILT IT.

Curtain Falls On Six-Man Football For 1950 Season

Burlington and Hebron Win Closing Games Over Blackey and New Haven.

The Burlington Eagles brought down the curtain on the six-man football season last Saturday with a convincing 56-0 win over Stuart Robinson of Blackey, Ky., at the loser's field. In the only other game played last week Hebron's Cardinals defeated New Haven by a 40 to 30 count at the local field. The win for Hebron kept the Cards in second place for the final standings of the Northern Kentucky 6-Man Conference with a 5-1 record. Burlington in winning the Conference for the third consecutive season ended with a perfect 5-0 record. The loss for New Haven dropped the Tigers to fifth place with a 3-5 count.

Eagles 56, Blackey 0
George Maines' Eagles pushed over two first-period touchdowns in their season final on two Blackey fumbles, both of which were recovered by Ronnie Jones. Jones scored first when he recovered a fumble in the end zone and minutes later recovered another miscue and ran it 18 yards to pay dirt. Rouse converted for two points. In the second quarter the home team defense stiffened and neither team scored.

In the third quarter Jones returned a Blackey kickoff to the BHS 18-yard stripe. Ryle then ran 62 yards for a touchdown. Burlington's next score came after a series of ground plays moved the ball to the loser's three-yard line from where Deck went over for the score. Later in the quarter Ryle passed 55 yards to Rouse for another touchdown. Rouse then passed to Ryle for an extra point.

Early in the last period Ryle passed to Rouse on the Blackey thirty and Rouse passed to Ryle for the score. Rouse then passed to Fair for the extra point. Another Ryle pass to Rouse moved the ball to the 1-foot line from where Ryle bucked over. Rouse kicked for the two points. The last Eagle score came as a result of an intercepted pass by Lustenberg. Two plays later Ryle scored on an end run. Rouse again converted for two points.

Christmas Seal Purchases Aid In Tuberculosis Fight

Is Sole Support of Boone County Tuberculosis Association.

The dollars and cents cost of tuberculosis in this country is conservatively estimated at \$350,000,000 a year. That is high tribute to pay a disease. It is particularly high tribute to pay a preventable disease.

Even so, it is only a small part of the cost of tuberculosis. The toll exacted by this disease cannot be computed in dollars and cents. It is paid for in suffering, in the pain of separation for months, perhaps years, from loved ones, in the sense of frustration when careers are interrupted.

The costliness of tuberculosis lies in the fact that it is a chronic, long-term, communicable disease. These characteristics explain both the financial burden and the physical and emotional suffering it causes.

TB has a slow onset, thus too frequently it is not recognized and diagnosed until it has a firm hold on its victim. Recovery is then a slow process. During the period when the patient is under treatment, he is deprived of normal family life, of earning a livelihood, of following a chosen vocation.

Yes, TB comes high. Better, far better, than paying the cost of TB would be preventing TB. This is not an impossible task. We know that if all the people who have TB who are unknown to health authorities—and it is estimated there are at least 250,000 in this country—were diagnosed and placed under proper treatment, within a reasonable time we could eradicate TB, and, eventually, the tremendous costs it exacts.

For the sake of our financial and human resources, it is obviously sound economy to prevent TB. And each of us can help bring this costly disease under control by supporting the campaign against TB in our community. We have an opportunity today to show our faith in the eradication of TB in a very tangible way. We can buy Christmas Seals, sole support of the Boone County Tuberculosis Association in its year-round campaign against the "white plague."

Through Christmas Seals, we can cut down the tribute to TB.

Opening Burley Sales Scheduled November 29th

Crop Estimates To Be Off Approximately 62,000,000 Pounds.

Burley tobacco sales will open in Kentucky and seven other producing States Wednesday, November 29, with a much smaller crop than last season ready for the market.

The Kentucky burley crop is estimated at 322 millions pounds, compared to 384,300,000 pounds in the 1949 harvest, according to a report of the Agriculture Department.

The 1950 market opening was set at a meeting of the 10-man burley sales committee in Lexington Friday, as a compromise between earlier and later suggested dates. Markets will close December 21 for the Christmas-New Year holidays, and the date for resumption of sales will be set later.

Sales hours will be four hours daily for the first three days of the auctions, but starting Dec. 4 sales will be reduced to 3½ hours daily, giving a total of 61 sales hours between November 27 and December 31.

The crop estimate for 1950, reported by the Agriculture Department for the whole of the burley belt is 496,055,000 pounds as compared to 560,129,000 a year ago.

Leaf to be placed on the market this year is relatively thin and light in weight, but should be of good cigarette and smoking quality.

The bride, given in marriage by her father, wore a gown of delicate lace and white slipper satin which were effectively and beautifully combined. The long-sleeved bodice was of slipper satin which had a high-necked yoke of imported tulle. The yoke had a lace ruffle gathered around it. Two rows of lace and satin ruffle hung gracefully down the front of the full skirt which was gathered on to a tiny pointed waist. The flared skirt formed a long cathedral train.

The bride's fingertip veil was of imported tulle and draped from braided coronet of satin and tulle. The bride carried three white orchids surrounded by white Chrysanthemums.

The matron of honor wore emerald green slipper satin dress with Peter Pan collar, covered buttons down the front and a very full skirt. Pointers Given In Killing And Curing Pork

By County Agent William Davis; Hogs From 175 To 225 Pounds Are Best.

Pork is an important item of food for the farm family. The annual per capita consumption of pork by rural people is greater than that of all other meats. Since pork is so important, you are reminded of some of the more important things to keep in mind during killing and curing.

GREYHOUND

only from well finished hogs of proper size. Hogs well finished and weighing from 175 to 225 pounds make the best meat. Cuts from heavier hogs are poor in quality because of the high percentage of fat. Another reason for favoring medium size hogs is that the amount of feed required to produce a pound of grain increases as the animal increases in weight.

Elaborate equipment for butchering is not necessary, but the equipment available should be in first class condition before hog killing is undertaken. Check scalding vats or barrels for leaks and have sharp knives of quality steel.

Hogs may be killed almost any time after Thanksgiving. It is not necessary to wait for freezing weather. Temperatures of 36 to 38 degrees are sufficiently cooled. The carcass must be thoroughly chilled before the cuts are put into cure or loss will result.

In preparing a hog for killing, it is best to fast the animal for 24 hours, but allow it free access to water. Water will keep the hog quiet and at the same time aid in emptying the entrails. Rough handling of the animal should be avoided as bruised meat quickly deteriorates. Avoid chasing the animal, since this causes it to become overheated, and when killed in this condition, will not bleed well. Blood mars the appearance of

the cuts and causes them to spoil quickly.

Many hogs are killed by shooting. This method of killing may result in a carcass not thoroughly bled. For the same reason, knocking in the head is an unsatisfactory method of killing. The ideal way of killing is to hang the hog by the hind leg and stick it. Sticking a hog in this position is very simple and will result in a thoroughly bled animal.

A narrow sharp pointed knife about six inches long is excellent for sticking. Make the incision directly in front of the breast bone with the knife pointed toward the root of the tail and held parallel to the backbone. Insert the knife just deep enough to sever the large veins and arteries of the neck. Sticking the heart is undesirable, for if the muscular action of the heart is interfered with, it will not force the blood from the smaller blood vessels. Be sure to keep the knife in direct line with the backbone to avoid sticking the shoulder, which, will result in waste trimmings and a poor keeping should-er.

If a scalding vat is used to scald the hog, water should be between 145 and 150 degrees Fahrenheit. For barrel scalding, temperatures of 155 to 160 degrees is proper. Water that is too hot will set the hair. To aid in removing scurf, one heaping tablespoon of lye to each barrel of water should be used. When the hair at the flanks slips easily, the scalding is complete. If a barrel is used for scalding, scald the rear end of the hog first. If the hair sets, it is easier to remove from the hindquarter than from the forequarters.

A bell scraper is the best implement for dehairing. Other implements such as corn knives, hoes, bricks and even the hands can be used. The hair from the head, legs and feet is hardest to remove and should be scraped first. Scrape the rest of the body the way the hair lies. Remove the dewclaws by placing the palm of the hand on their points and pressing backwards. Remove the toes by a quick hard pull with an iron hog hook inserted beneath the upper edge of the hoof.

After the outside of the animal is cleaned and hung up, there are several ways of removing the entrails, any one of which is satisfactory. The only precaution to be used here is work carefully to avoid opening the entrails. Rinse the carcass with cold water to remove all blood stains.

The leaf fat is easier to remove when the carcass is warm. It also hastens chilling of the carcass. The carcass should also be split along the backbone to hasten chilling. This may be done with a saw or an axe.

After the carcass is chilled and

cut, the meat must be cured. There are several ways of curing meat such as the mosses, sugar cure, the brine cure, the dry salt cure, and the dry sugar cure. Salt when used along tends to harden the muscle fibers, sugar preserves the juiciness of the meat and keeps the fibers soft. Saltwater is more astringent than salt and should be used only in sufficient amounts to maintain the rich, red color of meat. All good meat curing mixtures should contain salt, sugar and saltwater.

The dry sugar cure is widely used and results in excellent meat. It is made by mixing 7½ pounds of salt, 2½ pounds of sugar and two ounces of saltwater, this being the amount required for 100 pounds of meat. Divide the mixture in three parts. Rub one part on the meat and pack in a container. Three days later, put on the second portion. Let the meat cure three days and rub on the remaining portion of the mixture. Remove the lighter pieces of meat such as shoulders and bacon in ten to twelve days. Pieces weighing more than twenty pounds should be left in cure 1½ days for each pound of weight. After curing, wash the meat in lukewarm water and smoke. Proper curing temperature is 36 to 40 degrees F.

Smoking meat colors, flavors and dries the cured pork and allows the development of rancidity. Hang the cured meat and allow to drip overnight, and then smoke with a hardwood fire or corn cobs. Never use pine. Heat the smoke house to 100 to 120 degree F. Smoke until the meat has the desired color.

After the cuts have been smoked, they should be wrapped in heavy paper and placed in heavy cloth bags and tied securely. Do not stick a wire through the bag to hang up the meat as this will leave an opening for insects to enter.

There are two things to remember in rendering lard. First, cook the lard until thoroughly done to remove moisture and second, do not render underglands with better grades of lard. Moisture and underglands are two prominent causes of loss of lard.

Extension Circular No. 261, published by the College of Agriculture, University of Kentucky gives all the details of killing, cutting and curing pork.

MT. ZION HOMEMAKERS

The monthly meeting of the Mt. Zion Homemakers was held at the home of Mrs. Ethel Burns, Dixie Highway. Ladies present were Mrs. W. Miller, Mrs. R. McGuire, Mrs. F. Domaschko, Mrs. A. J. Alber, Mrs. T. Winburn, Mrs. L. Parson, Mrs. D. Vole, Mrs. O. Noel, Mrs. F. Brueser, guest Mrs. Ockerman, Miss Nancy McClaskey and the hostess, Mrs. E. Burns.

Our meeting was called to order by our president, Mrs. W. Miller. Reports of the month were given by the secretary, Mrs. E. Burns.

Mrs. Burns served a delightful lunch at the noon hour. Miss McClaskey had an exchange and returns of books from previous

months during the afternoon session.

No time was lost however, as patterns for the dresses had to be measured and fitted for accurate size. All the ladies learned much from this lesson pattern fitting.

One game was enjoyed by all.

Thanking the hostess, Mrs. Burns, for a delightful day, all left at 4:00 p. m. hoping to see her and all the ladies at Mrs. Brueser's Christmas party.

Plow Tobacco Beds In Fall, Says Co. Agent.

Fall plowing of tobacco beds is urged by Bill Davis, County Agent. Roots of weeds, grasses and clovers are destroyed by fall plowing and the bacteria which cause wildfire and live on the roots are also killed. When these disease germs die the chance of wildfire in plant beds is materially reduced.

Best results are obtained when the fall plowed beds are burned or treated with methyl bromide. Beds should be located on southern or southeastern slopes and ditched to prevent water from draining over them.

NOTICE TO OUR SUBSCRIBERS

For the past few years, it has been the policy of this newspaper to hold on to the traditional yearly subscription rate of \$1.50 per year, which has been done, even though the cost of our materials have doubled and in many cases tripled over 1939 levels.

We now face another sharp increase in newsprint, effective November 1st, and we are forced to raise our subscription rate to \$2.50 per year, beginning January 1, 1951.

We will, however, accept any renewals from now until January 1st at the old rate of \$1.50, and you may pay as many years in advance as you desire. This will give you an opportunity to save several dollars if you wish to take advantage of it before the new price becomes effective on January 1, 1951.

Mail your checks, cash or money orders to The Boone County Recorder, Burlington, Ky., stating the number of years you desire to subscribe and your orders will receive prompt attention.

We regret to break a policy that has existed since 1875, but present day conditions make it impossible to continue on the same basis as in years past.

The Recorder office will remain open each Saturday from 7:30 a. m. to 4:30 p. m. until January 1, 1951, to accommodate subscribers who are unable to call at our office during regular office hours.

FARMERS SEE HOW

TIMBER PAYS OFF

Farmers from several counties saw what good management of woods can do, when they attended meetings at the Rev. H. C. Moxley and I. C. Gabberry farms in Russell county.

The results of 30 years of good management, including protection from fire, are now being turned into cash by Rev. Moxley. The past year he sold 62,000 board feet from 16 acres. Only mature and damaged trees were cut.

Wilson J. Mitchell, Taylor county assistant in forestry, estimated that rot and defect, due to fires years ago, cause a loss of at least 4,000 board feet of some of the best timber. Fires also robbed the soil of its fertility and slowed up the growth of the trees, he added.

The sound and better growing trees in the Moxley woods, some of which were 20 inches in diameter, were left to grow another crop of timber. Protection from fire and control of grazing should shorten the time required to mature the timber, according to Mitchell.

Timber in the Gabberry woods was cut three years ago. Cutting included yellow poplar, red oak, white oak, ash and sugar maple. There have been no fires or grazing since the cutting. Yellow poplar, seeded in the openings where the trees were cut, is now as much as 12 feet tall. Tree growth in general has been more rapid since the cutting three years ago, it was observed.

The Moxley woodland was estimated to be growing at rate of 200 board feet an acre a year and the Gabberry woods at the rate of 167 board feet an acre.

of committees gave reports. Mrs. Tom Hamilton, Stewardship chairman gave an interesting talk and discussion on "Tithing." Prayer was offered by Mrs. Kenneth Aylor and we were dismissed for noon.

The afternoon session opened with a song, "Send The Light." Bro. Wainscott brought the devotion from Mal. 4:2, Matt. 1:1-10 followed with prayer. Mrs. Wesley Aylor had charge of the program the topic of which was "Is There a Doctor in the House." Those taking part were Mesdames Joe Aylor,

Works, Bays, Bruce Ryle. Song "The Great Physician," was rendered by Mesdames Gruelle, Lewis, Seebree, Huff and K. Aylor, followed by season of prayer.

Prayer for shut-ins was offered by Mrs. Joe Aylor and we were dismissed to meet for special season of prayer for foreign missions at the church Thursday, December 7. The regular meeting will be held at the home of Mrs. Lova Schwenke on Thursday, December 14.

BULLITTVILLE-IDLEWILD HOMEMAKERS MEET

The French dressmakers say that cut and fit are the essential of good style. If that is so, then the wo-

men in the Boone County Homemakers Clubs should be among the best dressed in the country. Those in the Bullittville-Idlewild Club will be no exception. After a well-given lesson by Ann McCrann and

Mary Jo Grant, tape measures were put to use and now nearly every one knows her good and bad points! The November 8th meeting was held at the home of Chester Jr. and Mary Jo Grant with Bessie Hill presiding. As it was the Thanksgiving season she started the meeting by reading a passage from the Bible, Luke 17:11. It was the month for a special report from the citizenship chairman. Grace Pfalzgraf did a great job in presenting many points, chief of which were concern over the water and milk supply, soil erosion and good literature.

During the lunch hour and immediately afterwards Tillie Grant, program chairman, led in two enjoyable games. Irene Patrick won one prize and Isora Willis and Grace Pfalzgraf tied for another. They drew for the prize and Grace won.

The Hallowe'en party which was held at the Hebron fire house was discussed. All agreed there was a lot of fun. The members of the club were grateful to Earl Aylor for the use of the fire house and

James Hart for coffee and the use of the large urn. Helen Aylor was in charge of the coffee. The next meeting will be at the home of Grace Pfalzgraf. Fifty-cent Christmas gifts will be exchanged.

Those present at the November meeting were: Mesdames Pfalzgraf, Blanche Slekman, Eunice Marshall, Willie Jones, Stella Nichols, Helen Aylor, Mae Souther, Jackie and Isora Willis, Violet Perry, Patty Birkle, Bessie Hill, Nellie, Mary Jo, Tillie and Lucille Grant, Abbie Otten, Ann McCrann, Mary Roberts, Irene Martin, 3 children and visitor, Mrs. Howard Redmond.

Hamilton

Mrs. Orin Edwards and daughter Connie entertained the Big Bone Baptist W. M. S. Thursday. Twenty-five were present.

Mrs. Virgil Daniels and two children, of Ludlow, spent Tuesday with her mother, Mrs. Anna Smith.

Nurse Tells How Hadacol Was So Helpful To Her

Supplied Vitamins B₁, B₂, Iron and Niacin Which Her System Lacked

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins B₁, B₂, Niacin and Iron which HADACOL contains.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy."

Why HADACOL Gives Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B₁, B₂, Niacin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B₁, B₂, Iron, and Niacin but also helpful amounts of important Calcium and Phosphorus

—elements so vital to help maintain good health and physical fitness.

Why These Vitamins and Minerals Come in Liquid Form

There's a very good reason why HADACOL comes in special liquid form. These precious Vitamins and Minerals are more easily and quickly absorbed into the blood stream this way—ready to go right to work. A big improvement is often noticed within a few days.

Don't Be A 'Doubting Thomas'

After reading Mrs. Adele's wonderful experience with HADACOL—how can you doubt that this great new nutritional formula will help you if your system lacks Vitamins B₁, B₂, Iron, and Niacin?

What HADACOL did for Mrs. Adele, it can do for you if you're troubled with aches and pains in the shoulders, legs, and arms, certain nervous disturbances, insomnia when due to an upset stomach, stomach distress and a general run-down weakened condition due to such deficiencies.

So what are you waiting for? Don't you see that HADACOL is the kind of product you need—the kind you should buy and the kind you should start taking immediately!

Sold On A Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin content of your blood (when Iron is needed) to course through your body, carrying these great health-building elements to every body organ. No wonder HADACOL helps you feel wonderful.

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around—a burden to yourself and your family—when relief may be as close at hand as your nearest drugstore if you suffer a deficiency of Vitamins B₁, B₂, Niacin and Iron. This great HADACOL is inexpensive, too—costs only a small amount a day. Trial size only \$1.25. Large family or hospital size, \$3.50. If your drugstore does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana.

FALL PLOWING OF LEAF BEDS URGED

Preparation of tobacco plant beds in the fall is suggested by Russell Hunt of the College of Agriculture and Home Economics, University of Kentucky.

Especially should beds be plowed in the fall, he said, so as to destroy roots of grasses, clovers and weeds on which the bacteria of the wildfire disease live through the winter. When these roots are killed the disease germs die and the chances for wildfire in plant beds are materially reduced.

Best results or obtained when beds are plowed and burned, steam- or treated with methyl bromide in the fall, according to Hunt.

A survey made last spring showed

that beds plowed and treated in the fall to control weeds were free from wildfire. This was especially true where bed sites were ditched to keep water from flowing over them in winter, carrying wildfire bacteria back on them.

Hunt suggested that plant bed sites be located on sloping ground, so water could be ditched around them. Plants develop earlier where beds slope to the south or southeast, he said.

IN MEMORY

Of our mother and grandmother Mrs. Ida Watts.
A year has passed since that sad day.
The one we loved was called away.
More and more each day we miss her.
Friends may think the wound is healed.
But they little know the sorrow.
That lives in our hearts concealed.
But now a star shines over the grave.
Of the one we loved, and could not save.
The Children and Grandchildren

IN MEMORY

In loving memory of Chas. A. Brady, who died November 14, 1949.
The road into the sunset
Is one we each must tread
And tho' it brings us sorrow
When a loved one goes ahead,
Still there is comfort knowing
We will meet again some day,
When grief and pain are over
And the clouds have rolled away.

To find help in the reading a person is asked to read regularly, thoughtfully, without hurry, prayerfully and obediently, and to copy out a key verse daily and carry it for helpful reference throughout the day.

CARE OF THE FEET

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

The human body is a wonderful structure of energy and beauty, and like an architectural structure, depends primarily on the strength of its foundation—the feet. The feet are the most overworked parts of the body and function under unfavorable conditions, usually resulting in (1) weakening, (2) impairment, and (3) discomfort.

Facts—Ninety per cent of all people in the country suffer from some kind of foot trouble, and many of them suffer all their lives without knowing the source of their ailments.

Just think, the skeleton or frame work of the human foot contains 26 bones (a person's feet contain more than one fourth of the two hundred bones of the entire human frame). When the bones become abnormally positioned, as when the metatarsal bones or arches drop, it affects other component parts of the feet such as muscles, ligaments, tendons and nerves.

When you step on a hose it pinches it and the stream of water is stopped at the point of pressure. The same applies when a bone is pressing on the blood vessels that traverse the foot when pains are the result of this pressure they can and should be relieved.

Always remember this, painful feet interfere with one's work, discourage the exercise so vital to health, spoil life's pleasure and make a person feel miserable. One should never neglect the feet.

Never was there a truer saying, "WHEN YOUR FEET HURT, YOU HURT ALL OVER."—Adv.

THE BOONE COUNTY RECORDER

ESTABLISHED 1875

BURLINGTON, KENTUCKY THURSDAY, NOVEMBER 23, 1950

VOLUME 75

Thompson Lawrence S.
Director of Libraries
University of Kentucky

NUMBER 19

Farmers To Vote For Committeemen Tuesday, Nov. 28th

Five Voting Points Announced; Farmers Urge To Vote.

Farmers of Boone County on November 28 will have an opportunity to elect the committeemen who will administer the Agricultural Conservation Program price support, acreage allotment, marketing quota and other production programs in 1951.

Elections will be held from 9:00 a. m. to 3:00 p. m. on Tuesday, November 28 at the following places: Hebron Fire House, Burlington Court House, New Haven School, Walton Town Hall, and Hamilton School.

At these elections farmers will be voting for three members of a community committee and a delegate to the county convention where a county committee will be elected.

According to Joseph A. Huey, Chairman of the Boone County Production and Marketing Administration committee, no farmer who is eligible to vote should pass up the opportunity to "voice" his choice of the three farmers in his community best qualified to administer farm programs in 1951.

In the chairman's words, "The coming year can be expected to call for decisions and actions which will demand the most able leadership available. This places the responsibility of electing able committeemen on the shoulders of the farmers in each of the communities in Boone County."

"With mounting defense activities, problems having to do with obtaining fertilizers, seed, construction materials, and transportation can be expected to increase. At these elections, the farmers in each of the communities in Boone county will have the responsibility of electing committeemen who will help to make the local decisions on these matters."

"These elections put it squarely up to the farmers of Boone County."

Kentucky Polio Victims Cost Local Chapter \$213,983

Since January 1st, According to Report Of National Foundation.

Kentucky's more than 2,000 polio victims, 602 of them stricken this year, have cost the Kentucky Chapter, National Foundation for Infantile Paralysis \$213,983.17, since January 1st.

In making the announcement this week, Howard C. Orr, executive director of the Kentucky Chapter, said the Foundation's epidemic aid fund had granted Kentucky \$72,460 to help care for the state's polio patients. A grant of \$50,000 was received October 1 and another grant of \$22,460 was received last week.

Orr said the number of polio cases now is the third highest on record for the state. Last year there were 696 cases reported and in 1944 there were 759 polio cases. The heavy incidence of polio also held this year on the national level. The director said that current reports indicate 1950 may be the second highest polio epidemic year on record. A late September rise in incidence nationally he said, indicates a total of 30,000 cases before the end of the year.

The National Foundation for Infantile Paralysis has advanced more than \$7,000,000 to local organizations for polio care this year.

Man Shall Not Live by Bread Alone

Courtesy, Chicago Daily News

In these days of alarming uncertainty it is significant that all America is being reached during November by the "Religion in American Life" program, a non-sectarian movement aimed to strengthen religion in personal and community life.

Among the organizations sponsoring this program is the American Bible Society which was founded early in the history of our Republic to strengthen democracy through distribution and reading of the Bible. The Bible has always occupied a prominent place in the life of our country. To encourage Worldwide Bible reading during the period from Thanksgiving to Christmas, selections from the greatest passages in the Bible have been chosen.

President Harry S. Truman is honorary chairman of the national committee for Bible reading. He has commended the plan this year by declaring:

"In this age of doubt it is of hopeful significance that the Bible remains the world's best seller. Our days are cast in an age that knows not God and when love does not rule the counsels or the hearts of men."

"I call upon my countrymen once again in the sacred season from Thanksgiving to Christmas to read and to ponder in their hearts the Book by which our fathers lived—the Book which vindicates the ways of God to man. Though others falter we doubt not through the ages our increasing purpose runs."

Boone Countians Will Receive Seals This Week, Is Word

Your Support Will Help Fight Tuberculosis In County and State.

The most important letter you will receive during the entire year reached or will reach your mailbox this week. This letter from your County Tuberculosis Association contains the 1950 Christmas Seals. Remember this is your chance to invest in a little health protection for yourself, your family, and friends. Your purchase of these seals will help fight tuberculosis, a disease which may strike anyone at anytime.

For 44 years Christmas Seals have been on the job, helping protect us against tuberculosis. For our own protection let's keep them on the job until tuberculosis is completely eradicated in our land.

Your Contributions
Practically all of the money you spend for the purchase of Christmas Seals stays in Boone County for the fight against TB. The local organization aided in many local cases during the past few years by providing hospitalization and other medical care. Officials of the County Association have announced that a mobile X-ray unit will be in the county early next spring. Christmas Seals have helped to save some five million lives in less than fifty years and some of these lives were the lives of Boone County people.

Officers of the Boone County Tuberculosis Association have made an all out effort to reach every family in the county with a Christmas Seal letter. If, through clerical error, you fail to receive your seals or if duplication of letters occur, please notify Mrs. Kathryn Cropper, secretary-treasurer of the Boone County Tuberculosis Association, Burlington, Ky. Other officers are Mrs. Sibbia Reimer, Hebron, president and Ralph Maurer, Burlington, publicity chairman.

Hebron Lodge Will Confer M. M. Degree

Hebron Lodge No. 757 F. & A. M. will confer the M. M. degree on a class of candidates at their hall Saturday night, November 25th, it was announced this week.

Both the first and second section of this degree will be in charge of Harold Schneider, Master, with a complete new degree class in the second section, with Robert Ellis as director.

Several grand officers are expected to attend this meeting at which time reception of J. E. Stomberger, Grand Chaplain will be observed. Refreshments will be served by the committee in charge immediately following degree work.

Members of the lodge are urged to attend, and visitors from surrounding lodges are given a cordial invitation.

WALTON-VERONA CHURCHES ANNOUNCE SOCIAL-FISH FRY

Rev. Henry Busenmeyer, pastor of All Saints and St. Patrick's churches, Walton and Verona, announces a social and fish fry, to be held in the basement of the new school, Walton, on Friday night, Dec. 1st. The public is cordially invited to attend.

Boone Hoopsters Meet Strong Foes In Friday Games

Tough Schedules Being Played By All County Teams.

Boone County basketball teams have not fared so well against early season opposition. In five games played by county quintets through last Friday the "outsiders" have made a clean sweep. Walton's Bearcats, Boone County Conference defending champs and 34th district winners last year, have lost to Simon Kenton by a 50-39 score and to St. Henry's Crusaders by a 60-41 count. Florence's Knights, under their new coach Duncan Huey, have lost to Beechwood 76 to 56 and Williamstown's Demons 52 to 49.

Burlington lost their opener to Beechwood by a 49 to 40 score at Beechwood last Friday night.

Tough Schedules
All county fives this year are playing extremely tough schedules for small schools. Included in the schedules of all are many of the leading NKAC schools and outstanding teams from downstate.

But on the brighter side of the picture is the fact that most of the local teams are made up of younger boys with little varsity experience and thus improvement is very likely. Walton is without such stars as Vore and Maddox. Florence is minus Markesbery and Roland and several of the others lost veteran key men. New Haven's Tigers hit least by graduation last year may be a "darkhorse" this season despite their miserable record of last season. Hebron will be inexperienced but do have a few key men on which to build. Burlington has only a couple of veterans back but have come up with several promising youngsters.

In early games Sonny Stansel has looked like a real find in the Florence camp and Smith, an elongated center at looks like he may be what Walton is looking for to team with Rice from last year's conference champs to give the Cats a good one-two punch. For Burlington's Eagles, Goose McFarland, Gerry Ryle and newcomer Bobby Pelfrey looked good in their initial performance.

Coming Games

November 24: Dry Ridge at Hebron.
November 28: Lloyd at Walton; Hebron at Beechwood; Gatlin County at New Haven; Simon Kenton at Florence; Burlington at Dixie Heights.

December 1: Lloyd at Burlington; Campbell County at Florence; Hebron at Newport Public; Walton at Dixie Heights.

December 2: New Haven at Silver Grove.

Temperature Drops Following Heavy Rain-Wind Storm

Mercury Dips To 24 Degrees In First Cold Wave of Winter.

Heavy winds reaching a velocity of sixty miles an hour with driving rains Sunday and early Monday morning was followed late Monday by snow, and sleet thru-out this section. In the first cold snap of the winter the mercury dipped to 24 degrees Monday night, with gradually rising temperature Tuesday.

Little damage was reported from the high winds in Boone County. However, adjoining counties suffered heavy damage by the gale, when barn and house roofs were lifted in many sections by the strong winds.

Streams throughout northern Kentucky left their banks, as a result of Sunday night's heavy down-pour.

Relatives and friends were pleasantly surprised to see John Ralph Hoshal, who arrived here Thursday from Chicago, Ill. He is the guest of his cousin Mrs. M. L. Crutcher, and as he has not been in Boone County for the past thirty-five years he is amazed at the changes which have taken place here since that time. Relatives who called to see him were Mrs. Oma Riley, Dr. George H. Riley, Erlanger and Mr. and Mrs. Perry Allen, of Florence.

NAVY PROGRAM EXPANDED

Lieutenant Commander C. B. Hawley, USNR, Officer in charge of the Navy Recruiting Station and Office of Naval Officer Procurement, Cincinnati, Ohio announced today that the Navy Department has increased the quota for young men in this area who can qualify for enlistment in the Regular Navy.

Commander Hawley emphasized the fact that the Navy has not discontinued its system of selecting recruits for its service schools, but in fact, has expanded the program, and the schools, to cope with the larger influx of recruits.

Each man who qualifies for enlistment may have an opportunity to serve in the Surface, Air, or Submarine branch of the Navy, and also has a nominal choice of the trade or profession he would like to follow. These men are chosen for the Navy's trade schools thru the extensive use of intelligence and aptitude tests, coupled with an interview by a man experienced in job placement.

Commander Hawley named the following as a partial list of trade schools that are available to the Navy recruit upon completion of his recruit training: Electronics Technician, Fire Control Technician, Electrician, Aviation Machinist, Parachute Rigger, Photographer, Hospital Corps, Radioman, Dental Technician, Engineman, Aero-grapher, Communication Technician, Yeoman and Storekeeper.

The main Navy Recruiting Station in this area is in the Post Office Building, Cincinnati, Ohio, with substations in Dayton, Hamilton and Portsmouth, Ohio; in Lexington, Danville, and Covington, Ky.; and in Connersville, Indiana. All these stations remain open from 8:30 a. m. until 5:00 p. m. each day and 9:00 'til noon on Saturdays.

I just didn't know there were so many smart folks.

Surprised how much smarter folks get when prices are high. Instead of buying tons of costly gadgets, more and more thrifty-minded shoppers are giving practical, usable dungarees. And the overwhelming favorite in dungarees is Happy Jack for boys and men. . . . Happy Jill for girls and women. . . . You can buy Happy Jacks and Happy Jills at stores everywhere, and thousands of smart folks . . . more than ever before in history . . . are doing just that.

Recruit training is the sharp break between civilian and Naval life in which the new Navy man learns the fundamental principles

of the Naval service.

In the course of his training the recruit is taught seamanship, Navy customs, terms, basic ordnance, gunnery, signaling and navigation. Upon completion of his training the recruit is assigned either to units of the Fleet or to a service school for specialized training.

J. C. Beghtol of Bullitt county, who keeps his own breeding stock and hatchery, is feeding 4,000 turkeys for fall marketing.

NO SUGGESTED CUT IN KENTUCKY SPUDS

Suggested potato acreages by states, for next year, issued by the Production and Marketing Administration of the U. S. Department of Agriculture, contains no reduction for Kentucky. The suggested acreage for this state is the same as was grown this year.

Corn derby yields in Morgan county were reduced 50 percent by excessive rainfall and floods.

NO HEARING AID need sell for more than \$75

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

CIRCULAR DESCRIBES

MAKING TOP SAUSAGE

For delicious sausage, use three-fourths lean pork and one-fourth fat, according to "Hog Killing and Cutting and Curing the Meat," a circular published by the College of Agriculture and Home Economics, University of Kentucky.

To each six pounds of meat add for seasoning 3 level tablespoons of table salt, two level tablespoons of black pepper and one level tablespoon of sage.

Spread the seasoning well mixed over the meat before grinding. Two grinds should be made to distribute the seasoning uniformly through the sausage.

The circular contains a recipe for making 100 pounds of sausage and a vast amount of other useful information, about butchering hogs and caring for the meat.

Ossification of The Bones

N. TULCH

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

In the fetus or unborn child, the bones first consist of masses of cartilage which about the second month of fetal life begin to ossify, or become bony. In a long bone, which may be taken as an example the process commences in the center of the shaft and proceeds toward the extremities, which for sometime remain cartilaginous. Subsequently, a similar process commences in one or more places in the extremities and gradually extends through it. The extremity does not however, become joined to the shaft of the bone until growth has ceased, but remains separated by a layer of cartilage tissue termed epiphyseal cartilage.

The points at which bony development first commences are known as center of ossification.

The process of ossification consists in the appearance within the cartilaginous skeleton of bone calcareous for healthy matter which forming cells and the deposition gradually displaces the cartilaginous matter.

These processes extend gradually in every direction from the original center of ossification until the entire cartilaginous mass becomes or is ossified.

The first bones in which ossification appears are the choule (collar bone) and inferior maxillary (lower jaw bone) about the fifth to seventh fetal weeks, the last ossification to appear is in the pisiform bone of the hand about the twelfth week.—Adv.

CARD OF THANKS

We wish to express our sincere appreciation to our many friends and neighbors and relatives for the cards and beautiful flowers given us during the illness and death of our dear father.

Joseph F. Baxter

We especially wish to thank Dr. Hunter for his kind medical and spiritual aid, Rev. Roy Johnson and Ralph Smith for the kind and beautiful service rendered. 1tp

COMMISSION SHOULD CLARIFY
AMENDMENT QUESTIONTo the Editor of the Boone County
Recorder:Chairman Stites of the Constitu-
tional Review Commission has been
widely quoted in the press as say-
ing that no state besides Kentucky
limits the number of amendments
that can be submitted at one
election and that the purpose of
the amendment to be voted on in
1951, is to do a job in one year that
otherwise might take "several de-
cades."The commission is plainly mis-
informed as to the first matter, for,
if Messrs. Reeves and Vanlandingham
of the University of Kentucky
are correct in an article which they
published entitled, "Amending and
Revising State Constitutions," Arkan-
sas, Kansas and Montana permit
no more than three amendments to
be submitted, and numerous states
have restrictions of one sort or an-
other, including Vermont, which
only permits amendments to be
proposed every ten years.The amendment to the Kentucky
Constitution to be voted upon next
year, which will allow the approx-
imately 30 amendments (which Mr.
Stites' statement seem to hypo-
thesize) to be submitted at one
time, and with only a "yes" or "no"
votes on the whole group of amend-
ments, was utilized in Georgia for
the drafting by the legislature of
an entirely new Constitution. As
Messrs. Reeves and Vanlandingham
point out in their article, "practi-
cally all states require that amend-
ments relate to one subject, and
that, when two or more amend-
ments are submitted at the same
time, they be submitted so as to
enable the voter to vote separately
on each."This the spending amendment
does not do. Since, if adopted by
the voters next year, it will become
a part of the Constitution for all
time, it must be scrutinized with
regard for political realities and
what could be accomplished under
it in unscrupulous hands. It was
passed by the last legislature prac-
tically without consideration or dis-
cussion because it carried the label

PHONE COLLECTof an administration "must" which
was sufficient to insure passage
under the "gag rules" that prevail-
ed in the legislature.In his public statement, Mr. Stites
criticized me for describing as a
"joker" in the pending amendment;
viz, that if adopted next year, it
will permit a wholesale redrafting
of the Constitution not only in line
with the recommendations of the
commission, but whenever it suits
the convenience or purpose of
whatever state administration may
then be in power. If approximate-
ly 30 amendments can be submit-
ted by the next legislature, a pre-
cedent will have been established
for 30 more amendments being sub-
mitted by a subsequent legislature,
and so on ad infinitum over an un-
limited future.Mr. Stites and the members of
the commission owe it to the people
of the state to make clear, whether,
if next year the people adopt the
amendment, the danger which is
pointed out will not exist. To dis-
count as ridiculous the statement of
the danger, still does not remove
the danger itself.While I appreciate the compli-
ment, if Mr. Stites' challenge to me
to produce a better amendment is
intended as such, nevertheless the
only amendment on which the
people can vote next year, is the
amendment which the legislature
has passed.

As a matter of fact, an amend-

ment which increased the number
of amendments which can be sub-
mitted at one time but retained a
definite limit on the number and
also the wholesome requirement,
customary in most states, for a
separate vote on each, would have
been more in accord with the
"grass-roots" sentiment of the
people of the state. The people as
recently as 1947, by voting down
the call of a constitutional conven-
tion, indicated their opposition to
wholesale constitutional revision.Mr. Stites' statement shakes one's
confidence in the thoroughness ofthe study which the members of
the commission have been able per-
sonally to give to the pending
amendment. Certainly the people
will not want to amend the Con-
stitution in a way to make whole-
sale revisions possible periodically,
especially when there can be no
assurance that we will have in the
future a commission of the pres-
tige and standing of the present
commission or, for that matter, as-
surance that the legislature will
not repeal the statute creating the
commission.

KENTUCKY HIGHWAYS INADEQUATE FOR AMOUNT OF PRESENT TRAFFIC

Washington, D. C.—Kentucky's highways won't meet the demands of 1950's traffic for over 10 years at the current rate of road construction expenditures, the president of the oldest national good roads organization reported today.

Actually, Kentucky's motorists face an even worse highway picture, Col. E. R. Needles, president of the American Road Builders' Association, declared, because substantial increases in traffic volumes weights and speeds—state registrations of motor vehicles were up 12.3 percent last year over 1948—are doing much to invalidate all-out efforts to overcome state highway system deficiencies reported by a Congressional committee to be "high costs" of an inadequate highway network provided for the state's approximately 693,000 motor vehicles.

"Kentucky's highway prospects, as unpleasant as they may be, still are better than the average number of years needed to overcome deficiencies on all the nation's highways, and are brighter than prospects in five of the six states which border it," Col. Needles reported. "At the present rate of expenditure, and if no additional deficiencies appeared in the interim, it would be 1966 before the nation's highways would be adequate to its needs of 1950. In Illinois, it would be over 34 years at the current rate of expenditure; in Indiana, over 11 years; in Ohio, 35½ years; in West Virginia, 18 years; in Virginia, nearly 6½ years, and in Tennessee, about 13 years."

Good roads, he said, are vital to all residents of Kentucky because, whether they use the highways or not, the cost of highway transportation enters into everything they eat, wear or use since all such items travel by highway at least once before they reach the consumer. If roads are bad and highway transportation costs rise, the consumer thus must pay that added cost in the price of what he buys.

Kentucky stands eighth among the 48 states in the matter of time needed to replace deficient highways at the current rate of expenditure, Col. Needles said. The number of years ranges from North Carolina's slightly more than one and one-half to Rhode Island's 60.

To find help in the reading a person is asked to read regularly, thoughtfully, without hurry, prayerfully and obediently, and to copy out a key verse daily and carry it for helpful reference throughout the day.

Northern Kentuckians Snowbound Following Blizzard Saturday Night; Motorists Stranded On Dixie Highway

Drifts Block Highways and Roads Throughout County In Worst Blizzard Since 1917; Schools Are Closed and Bus Service Halted.

Northern Kentuckians were snowbound Monday morning as a result of a blizzard striking this area, accompanied by winds reaching 45 to 55 miles an hour Saturday night. Approximately five inches of snow fell which was whipped by the high winds into drifts ranging from 1 to 10 feet high, blocking practically every highway and road throughout northern Kentucky.

Approximately 300 cold and storm stranded travelers were rescued from a 30-mile stretch of the Dixie Highway by two Southern Railway trains as ice and snow stalled bus and auto traffic. Passengers from several buses and from 30 to 40 stalled autos were taken aboard the train.

The rescue operation began early Sunday when officers of the Kentucky Highway Patrol boarded an empty 10-car special, returning to Ludlow, Ky., after taking a load of passengers to the Kentucky-Tennessee football game.

Besides picking up 119 bus passengers, the first train rescued a number of children and their parents, stranded in stalled snowbound autos on the stretch of road 15 miles south of the Ohio River bridge. The second train, which followed several hours later, brought more than 150 to safety.

Many motorists were stranded on the Burlington-Florence road, due to large drifts. Several were also reported stranded on the East Bend Road, one car owned by August Trapp was stalled in a snowdrift six feet deep.

State Highway Patrolmen Miller, Gordon and Lucas, assisted by Albert Hunt, State Conservation Officer were on duty from Saturday night until 10:00 Monday night. Traffic was at a standstill on both major highways U. S. 42 and 25 from Saturday night until Monday evening, when heavy bulldozers cleared the two major thoroughfares.

State highway employees and all available equipment were on duty throughout Sunday. Sunday night Monday and Monday night clearing State and Federal highways, with most main arteries being made passable for one-way traffic, according to Judge C. L. Cropper.

A large bulldozer employed by the State Highway Department cleared a large drift from Burlington-Florence road which was blocking traffic. Another drift was cleared Sunday afternoon by volunteer workmen using shovels and a large tractor.

Other roads opened to one-way traffic by the heavy bulldozer are Hebron-Limburg, Constance-Petersburg, and Petersburg-Belleview Roads. The East Bend Road is now open, and rapid progress is being made on all main highways. County roads will be cleared as rapidly as possible following the breaking the main traffic arteries, County Judge C. L. Cropper reported.

Persons having clogged driveways should refrain from calling State or County officials to have them cleared, as both departments are swamped by the project of clearing the highways.

Highway officials urged all motorists to stay off the highways unless the trip was absolutely necessary. Although highways have been broken, they remain hazardous.

Mrs. Emma Wernz, of Constance, died Sunday at her home. She was 89 years old.

Tobacco Markets In Kentucky Will Open Thursday

Slight Decrease In Yield Per Acre Reported By U. S. Department.

Auction sales for the 1950 burley tobacco crop opened today (Thursday) instead of Wednesday as previously announced, with production estimated at slightly over 496 million Market News Service, last season producers' sales were a little over 555 million pounds. Average yield per acre was placed at 1,215 pounds compared with 1,235 in 1949. This, however, is 11 pounds below the ten year average 1939-48. Indications are that production will be the smallest since the 1947 crop when producers' sales totaled 479 million pounds.

This year Commodity Credit Corporation loan rates average 45.7 cents per pound, which is 90 percent of the October 1 parity price. This is 5.4 cents per pound more than for the year before. Last year gross sales totaling \$88,785,222 pounds averaged \$45.09 per hundred, or 61 cents less than the 1950 loan rate average. Loan rates by grades are generally \$4.00 to \$6.00 above last year. They range from a low of \$14.00 for best crude non-descript to \$67.00 for choice buff lugs and flyings. Tobacco can be placed under loan only by the original producer and only if produced on a cooperating farm. Grades carrying "W" (Unsafe Order), "U" (Unsound), "DAM" (Damaged), "N. K. and Poorest Nondescript will not be accepted by the Associations.

Last season the associations received a little more than 39 million pounds representing 7 percent of net sales. During the past twelve months the trade has drawn heavily on the Associations' receipts of burley tobacco. The turnover has been around 100 million pounds, leaving less than 40 million pounds (farm sales weight) on hand. This tobacco consists of the 1947, 1948 and 1949 crops.

The markets have the option during the first three days of sales of either selling 1,440 baskets, or 302,400 pounds per day per set of buyers. After the first three days they can sell 1,260 baskets, or 259,200 pounds. This will continue through December 21 when the recess for the holidays will begin. The burley sales committee will meet later to determine the re-opening date as well as the selling regulations to be observed after Christmas.

Growers this year are being urged to remove all rubber bands before tying burley leaves into bundles. Manufacturers state the presence of rubber bands around bundles has created a problem. Such foreign matter in tobacco may result in a lower price to the growers and cause an inferior manufactured product.

Last year the burley marketing season began on Monday, November 28. Prior to the 1948-49 season first sales were customarily held on the first Monday in December.

Bobby Clore has been ill for the past few days, but is reported as improving at this writing.

Hebron Chalks Up First Boone County Basketball Victory

Other Local Teams Suffer Defeats In Opening Games of '50-51 Season.

To date, in the infant 1950-51 basketball season, Hebron's Cardinals have been the only Boone County team to win a basketball game, that at the expense of Dry Ridge last Friday night at Hebron. The score was Hebron 52, Dry Ridge 40. In other contests involving Boone teams last week Burlington lost a 59-52 decision to Simon Kenton's Pioneers at the loser's court. Florence was slaughtered 72-35 by Erlanger Lloyd at Florence, Beechwood's Tigers nipped the Walton Bearcats 51-47 at Walton and the Big Trails of Silver Grove High defeated New Haven 36-34 at New Haven.

In the Hebron-Dry Ridge game the winners showed unexpected promise and thus served notice on other Boone teams that the Cardinals may be tough in their own conference this season. Garnett, a diminutive forward hit the hoop for 19 points to pace his team to victory. Hogan added 13 points and Crigler tacked on 9 more. For Dry Ridge Lawrence and Howe had 22 points between them. Hebron also won the reserve contest 28-21.

Eagles Lose
Burlington's Eagles and Simon Kenton put on an uncanny exhibition of goal shooting efficiency during the last half of their game last Friday night before the Eagles finally succumbed to a seven point 59-52 defeat. Simon Kenton took an early lead and maintained a ten-point halftime advantage at 26-16. In the second half Burlington hit for 14 goals in 29 attempts and the winners connected for 12 in 25 tosses. The Eagles were with in four points of the Pioneers at the middle of the final quarter before their rebound artist, Gayle Rouse was lost on personal fouls. McFarland paced the local offensive with 18 points. J. Ryle had 11, G. Ryle 8, G. Rouse 7, A. Rouse 6, and Pelfrey 2. Gene Coppie had 18 for the winners and Bob Irvin 13. Burlington's reserves copped a 35-33 overtime thriller from the Simon Kenton seconds.

Florence had plenty of defensive trouble in their game with Erlanger Lloyd as the last year's regional finalists put on a scoring exhibition to score 72 points while holding the Knights to 35. Quarter scores were 16-12, 34-19 and 59-27 with the Juggernauts leading all the way. Graham, flashy Lloyd forward led the scoring parade with 28 points. Stansel had 14 for Florence. The Erlanger seconds won 47 to 20.

Tigers Drop First Game
New Haven's Tigers dropped their opening game of the season last week by a 46-34 count to Silver Grove. The winners held a 28-16 halftime lead. Doll paced the winners with 14 points and Crume had nine for New Haven. New Haven won the preliminary by a 51-26 count. G. W. Baker was high point man with 10.

Florence Building Destroyed By Fire Monday Afternoon

Woman Escapes Death After Being Awakened By Dog

Fire of undetermined origin destroyed the 2-story 5-room apartment owned by Ben Zimmer, of Florence, Monday afternoon. Loss was estimated between \$3500 and \$4000.

The blaze which started in the kitchen of the apartment had gained considerable headway before being discovered. Mrs. Maryln Guierler, who was sleeping in the upstairs room was awakened by her dog barking. The rooms were filled with smoke, and she was almost suffocated. She narrowly escaped death from suffocation.

The Florence Volunteer fire department, under the direction of acting chief Harold Martin, fought the blaze for more than an hour before bringing it under control. The flames had gained such headway it was impossible to save the structure, although surrounding buildings were not damaged.

The building was completely gutted by the blaze, and all contents owned by Mr. and Mrs. Norme Guierler, occupants of the building were destroyed in the blaze, according to Ben Zimmer, owner of the apartment.

The loss was partially covered by insurance, it was reported.

SAPS GRASS BEATS CORN FOR CATTLE

Acre for acre, T. E. Alexander of Estill county says pasture provides more cattle feed than corn. Fields which he fertilized and seeded a year ago proved that, he reported to County Agent Fred Brockman. He sowed 40 acres this fall to fescue and Ladino clover, after spreading 1,500 pounds of raw rock phosphate and 250 pounds of complete fertilizer an acre.

Page Mason, also of Estill, who began expanding his pasture last spring, sowed 10 acres more this fall to Ladino clover, fescue and orchard grass. Seed and fertilizer cost \$35 an acre.

Building up a dairy business, another Estill farmer, E. T. Nickell, sowed 25 acres to Kenland clover, Ladino clover, fescue and orchard grass.

The Green Pasture Program and an unfavorable season for corn created much interest in grass in Estill county, and started many farmers on the road to better farm management, Brockman declared.

Approximately 110,000 broad-breasted turkeys are being matured in Clark county.

BEAUTIFY COUNTY

Jefferson county homemakers are continuing to work to beautify their county. To date they have placed orders for spring delivery of 1,156 magnolia trees and 1,400 dogwood trees. Last spring, they set out 1,500 flowering peach trees.

The first vineless sweet potato to be grown in Laurel county was produced by John D. Day, who grew slips from a half bushel of seed potatoes. From 500 plants set out, he harvested 11 bushels of excellent quality, a vine being no larger than a two-gallon bucket. The potatoes grew in a clump, and were easy to dig with a hoe, Mr. Day told Farm Agent M. C. Griffin.

Everyone welcome to attend these services.

NOTICE TO OUR SUBSCRIBERS
For the past few years, it has been the policy of this newspaper to hold on to the traditional yearly subscription rate of \$1.50 per year, which has been done, even though the cost of our materials have climbed and in many cases tripled over 1939 levels.

We now face another sharp increase in newsprint, effective November 1st, and we are forced to raise our subscription rate to \$2.50 per year, beginning January 1, 1951.

We will, however, accept any renewals from now until January 1st at the old rate of \$1.50, and you may pay as many years in advance as you desire. This will give you an opportunity to save several dollars if you wish to take advantage of it before the new price becomes effective on January 1, 1951.

Mail your checks, cash or money orders to The Boone County Recorder, Burlington, Ky., stating the number of years you desire to subscribe and your orders will receive prompt attention.

We regret to break a policy that has existed since 1875, but present day conditions make it impossible to continue on the same basis as in years past.

The Recorder office will remain open each Saturday from 7:30 a. m. to 4:30 p. m. until January 1, 1951, to accommodate subscribers who are unable to call at our office during regular office hours.

SNOWBOUND...

As we write this ad, the whole country is snowbound, being the heaviest snow in history in November. Travel is at a standstill but mail is the first to get through.

If you have a bank account you can sit by your own fireside and pay your bills by check in this kind of weather. A bank account is very convenient and a comfortable feeling in any kind of an emergency. Build that bank account in good weather and be ready when bad weather comes.

You'd Give Them the World If You Could ...this Christmas You Can!

FOR YOUR FAMILY, Christmas
1950 can be the most wonderful
Christmas ever...or ever to come.

For never, before television, could
you give your loved ones all the whole
wide world..

- the exciting world where history happens before your eyes—and the news has meaning as never before
- the world of adventure, where a little girl can be a princess, and a six-year-old boy can tame the West on horseback
- the world of knowledge, where learning is fun, and no one wants to "play hooky"

- the world of sports where champions teach sportsmanship as well as skill
- the world of laughter, which sweeps away the day's cares like a broom
- the world of great music and culture—a world of inspiration and re-awakened faith

Yes, these golden hours are yours to share when you're a television family...but lost forever if you delay.

Never before in all history has there been such entertainment for all the family at so modest a price. Place your order for a TV set now—for this is the Christmas you can give the world to your family.

With TV
this magic world
is theirs to enjoy
every day!

TELEVISION is moving faster than you think. New programs, new stars make their debut every week. The longer you wait, the more you miss! Here's just a partial list.

CHILD PERFORMERS. Talented singers, dancers, musicians inspire your own children to learn faster, practice longer, willingly cultivate their own talents.

DRAMA for young and old—The brightest stars of the theatre now perform to millions—bring the great plays of all time to audiences who never before could see them.

THE WONDERFUL world of make believe—Experts say every child needs it as part of his normal development. And it makes mother's life a lot easier—especially on rainy days.

ADVENTURE—American kids have "gone western" and taken their parents along. Root-in', tootin' westerns are fun for all—stimulate a healthy love of outdoor life.

LAUGHTER under your roof—the shared pleasure that binds your family closer. The greatest comedians of the entertainment world are in your living room every night on TV.

Mrs. Franklin D. Roosevelt

United States Delegate to The General Assembly
of the United Nations says:

"To me television offers a magnificent opportunity to increase the education which we make available to the children of today. If parents will supervise carefully the type of show and the time spent by children watching television, they can see the best that television has to offer, which can bring much enjoyment and much that will be valuable in their education. Of course, I am a firm believer in the supervision of children's reading habits, and now that we have television, I think that the same thing should be true for television. It is a parent's duty to see to it that the children get the best in books and the best in television entertainment and education."

Foot Comfort Specialist at—
PEOPLE'S SHOE STORE
814-816 Madison, Covington

Will they thank you for good strong feet?

Oh, you mother of a child—you want his manners to be nice, you want his brain to be quick, you want his hands to be agile—but don't you want his feet to be sturdy and true, well-shaped and graceful? Are those of your daughter?

You mother of a child, twenty years from now his feet will be walking up to get a diploma, or confidently marching in to get a job, maybe walking up to an old church altar to meet a bride in white. (Or it may be the bride herself). Your child may never thank you for good strong feet, he'll take them as a matter of fact, but what will he think if they're not good strong feet? Sure he'll still love you—but "why didn't mother make sure I was growing

up right?"

It is a responsibility, just one of the many a mother takes on when she brings a child into the world.—Adv.

Tuberculosis Battle Belongs To The Entire Public

Much Progress Made In Battle Against White Plague In Past 50 Years.

"The battle against tuberculosis is not a doctor's affair; it belongs to the entire public."

That statement, made nearly half a century ago by the great Dr. Osler, one of the founders of the National Tuberculosis Association, has been quoted many times, but it has perhaps, a special significance as we enter the 1950 Christmas Seal Sale this month and prepare for the tasks of 1951.

During the past fifty years, mighty progress has been made against tuberculosis, a profess that would have been impossible without the participation of the "entire public" in the program of the NTA and its nearly 3,000 state, city, county and territorial affiliates. In this program of education, case finding, rehabilitation, and medical research, the Christmas Seal has played a prominent role together with the miniature X-ray, the antibiotics, improved laboratory techniques, and other tools which have been developed to help in the control of tuberculosis.

In order to continue this great progress let's give a gift of health this Christmas. Let's help protect ourselves and loved ones from tuberculosis, killer of more than 40,000 Americans a year. Let's fight tuberculosis with Christmas Seals, backbone of a campaign against the disease. Let's give health—with Christmas Seals—today.

Don't forget that a number of Boone Countyans were aided in their fight against tuberculosis last year with the Christmas Seals you purchased.

CARD OF THANKS

We take this means of expressing our sincere appreciation to our many friends, neighbors and relatives for their prayers, cards, letters, gifts and deeds of kindness and helpfulness during both our recent confinements in the hospital.

We say thanks again to our neighbors for helping with farm work and with work in the home. Our days of suffering were made easier and more cheerful by your loving acts of kindness. May God richly bless each one of you.

Dr. B. R. Lakin, pastor of Cadle Tabernacle, Indianapolis, Ind., will conduct a one-night revival in the Burlington school building Thursday night, Dec. 14th at 7:45 p. m. A special invitation is given to all religious faiths to participate in this great service.

The committee in charge is urging all pastors of the various churches of Boone County to attend this meeting and to urge their members to available themselves of hearing one of the great evangelists of today.

Dr. Lakin needs no introduction to the people of this section. He is doing a mighty work for the Lord, not only at the Tabernacle but as he goes out throughout the nation. Residents and church people of this county are being highly favored to have such a man in our county. He is a man of power with God. He will bring a message that will be soothing to a nation during troubled hours.

A special invitation has been extended to all county officials, and special seats will be reserved for this group. This arrangement has been made in order that Dr. Lakin may see a group of men who believe in clean citizenship and who practice upholding the law in every way possible.

Music for the services will be in charge of Edwin Walton, who asks that groups from all churches planning to participate in the song service to meet at the Burlington Baptist Church Monday night, December 11th at 8:00 p. m. for practice. All choir leaders from the various churches are urged to bring their singers.

Boone County To Receive Large Part Of Seals Sale Fund

For Work Against Disease Which Took 40,000 Lives Last Year.

A statement released by officials of the Boone County Tuberculosis Association this week states that practically all of the receipts from sales of Christmas seals in the county stay in Boone County for work against the disease which took 40,000 American lives last year. This fight against TB includes education, case finding, rehabilitation and medical research.

Mrs. Kathryn Cropper, Association secretary-treasurer, announced that many Boone Countyans have done this part of their Christmas shopping early—they have purchased their Christmas Seals.

So other Boone Countyans are urged to check the "best buys" of the season—these pretty little bits of paper which support a fight against a disease which may strike in your own family. Let's give health for Christmas... with Christmas Seals.

Burley Prices Show Slight Increase In Opening Sales

Quality Is Not As Good As Last Year's Crop, According To Report.

First sales for the 1950 burley tobacco crop were held on Thursday, November 30. Average prices for grades were \$3.00 to \$6.00 per hundred higher than for early sales last year. Most increases were around \$4.00, according to the Federal-State Market News Service.

Leaf increased \$3.00 to \$4.00; lugs from \$3.00 to \$6.00; flyings \$3.00 to \$5.00 and tips from \$4.00 to \$6.00. The practical top price was \$65.00. Occasional baskets of top qualities brought \$66.00 per hundred. Most fair and low offerings sold from \$30.00 to \$40.00 and good and better offerings \$50.00 to \$64.00.

Although the tobacco was exceptionally thin in body, the general quality was not as good as on early sales last season. More low qualities and nondescript were marketed and considerably less fair grades. There was some improvement in color. More tan and buff tobacco was sold. There was less of all other colors. Sales were chiefly of low and fair grades, good leaf and lugs and nondescript.

Grades auctioned in heaviest volume averaged \$3.00 to \$6.00 above their loan values. Receipts of the association, under the government loan program, were estimated at 12 to 15 percent of the baskets offered on the morning sale. The amount of tobacco on the market as a whole for an initial sale was the smallest in years.

Sales were originally scheduled to begin on Wednesday, November 29. Postponement was made because of the recent heavy snow and icy roads. Last year the season began on Monday, November 28th.

John Sutton Has High Average At Erlanger Market

John Sutton, Burlington, Ky., R. 1 sold his 1950 burley crop at the Covington Independent Tobacco Warehouse Co., Erlanger last Thursday for the highest average for an entire crop that has been reported so far this season.

The total sales for the first day at Erlanger was 234,000 pounds which averaged \$44.25 per hundredweight.

Sales days at Erlanger between now and Christmas will be as follows: December 5, 7, 11, 13, 15, 19 and the last sale prior to the holidays being on December 21st. The house will be closed during the holidays.

Monoxide Fumes Blamed In Death Of Two Monday

Local Hoopsters Suffer Defeats In Games Last Week

Out-Of-County Teams Take Measure of Local Fives In All Games.

Boone County basketball teams took it on the chin again last week in the won and lost column. In games between Boone quint and Northern Kentucky Athletic Conference teams the locals lost in every contest. Burlington's Eagles, though losing two, made the best showing against the bigger conference schools. The Eagles held Erlanger Lloyd, last year's regional finalists, to a ten point margin finally bowing 57-47. The Eagles led 12-9 at the quarter and 26-19 at the midway mark. Lloyd pulled into a 37-25 lead at the three quarters and then in the final period with three Eagle regulars out of the game via personal fouls the winners scored 20 points while holding the home team to 12. Erlanger reserves won 58-35.

Burlington lost another thriller Saturday night to Bill Shannon's Dixie Heights Little Colonels by a 60-56 count at the winner's gym. The Eagles, with a few exceptions, looked sharp against what was probably their strongest opposition of the season. Dixie took an 18-10 quarter lead but Burlington outscored the winners 20 to 13 in the second quarter for a 31-30 half-time score with Dixie holding the one-point advantage. At the third quarter mark the count was Dixie 44 and Burlington 41. The Dixie seconds won 51-26.

Bright spots in the play of the Eagles according to Coach Ralph Maurer has been the great work of Gayle Rouse and Harold McFarland, juniors, and Gerry Ryle, a sophomore guard. Co-captains Jim Ryle and "Mousie" Rouse have shown better form in the past two games and Bobby Pfeiffer, a senior playing his first season at Burlington, has shown signs of giving the Eagles plenty of help.

In the Lloyd game G. Rouse led the Eagle scoring with 15 points. McFarland had 14 and Jim Ryle added ten. Graham had 14 for Lloyd. Jim Ryle paced the Eagle attack against Dixie Saturday night with 19 points, McFarland had 16 and Gerry Ryle and G. Rouse divided 18. True had 19 and Hageman added 16 for the winners.

Cards Drop Two Hebron's Cardinals, the only Boone quint to win a game this season, dropped games to Beechwood and Newport last week. The Cards lost to Beechwood by a 67 to 45 score and were swamped by Stan Arzen's Newport-Wildcats Friday night by a 76-45 score. Garnett was Hebron's chief offensive threat in the Beechwood game and Hogan scored 21 points in the Newport encounter.

Walton's Bearcats lost to Dixie Heights by a 57-36 score on Friday night of last week at Dixie. The Little Colonels led throughout holding 12-5, 33-15 and 48-24 leads at the stops. Hatfield paced the winner with 18 points and Glacken had 10 for Walton.

Knights Lose

The Florence Knights got a 63-33 setback at the hands of the Campbell County Camels Friday night at Florence. The winners held a 17-7 first period advantage and ran it to 32-18 at the half. They were in front 49-27 at the end of the third quarter. Stansel had 19 points for Florence. Pfister had 16 for the winners and Koepler added 15.

Several games of last week were postponed due to cold weather and snow. Most of these games will be played later in the season.

Tigers Drop One

New Haven was defeated by the Silver Grove Big Trains Saturday night by a 46-27 score. The game was close until the final period when the home team piled up most of their advantage. The New Haven reserves won their contest.

Coming Games

Boards Will Be Set Up In Each County Within Next Few Days, Is Word.

Decentralization of all Draft Boards throughout the State was ordered Monday, it was reported by O. R. Russ, board member of Boone County.

This move is being made to organize Draft Boards for each county. Mr. Russ reported. Organization work is nearing completion, and a complete new board for Boone County is expected to be completed within the next few days.

Ohio River Will Reach Flood Stage Today, Is Report

Waters Expected To Crest At 57 Feet, Five Feet Above Flood Stage.

The Ohio River, swollen by rains and melted snow, was expected to reach flood stage by Thursday morning, and was reported to crest at 57 feet.

Approximately an inch of rain washed the snow into the river and its tributaries over the week-end, causing the river to rise rapidly.

Persons living near the Ohio were moving from their homes Tuesday and farmers throughout the county having corn in the lowlands were making every effort to save it before the river reaches its flood stage.

Melting snow and rains in the Pittsburgh neighborhood, headwaters of the Ohio were causing the river to rise rapidly Tuesday morning. However, the rapid climb of the river slackened the latter part of the day.

Several roads in the East Bend and Hamilton neighborhood in Boone County will be cut off by the high water, officials stated.

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

Rotary Clubs Work For World Peace Says F. R. Phillips

In Address To Erlanger Rotarians Wednesday, December 7th.

Rotary Clubs in 83 countries throughout the world are united in an endeavor to promote international understanding, good will and peace. That was the message of Foster R. Phillips of Stanford, Governor of District 235 of Rotary International, in addressing the local Rotary Club of Erlanger. Mr. Phillips held a conference with Rotary officers, directors and committee chairmen during his official visit here.

In addition to the activities of Rotary's 7,100 clubs in their own communities to promote this objective, Mr. Phillips explained, over a three-year period Rotary International is spending \$750,000, principally to create better understanding among the peoples of different nations. One of the principal ways in which this money is being spent is on Rotary Foundation Fellowships which enable outstanding graduate students to study for one year, in countries other than their own, as ambassadors of good will. Since this program was established in 1947, 195 Fellowships have been awarded to students in 35 countries, with grants totaling nearly \$500,000.

The Governor stated that Rotary provides a common ground for the 342,000 business and professional executives who are members of Rotary throughout the world to practice the principle of service regardless of nationalities, or political or religious beliefs.

Returns From Seal Sales In County Show 50% Returns

Special Appeal Made To Citizens of County To Respond To This Effort.

An unofficial report by Mrs. Kathryn Cropper, treasurer of the Boone County Tuberculosis Association, shows that Boone County is far behind in receipts from sales of Christmas Seals this year. Mrs. Cropper's report was through Monday of this week. She stated that as yet only about fifty percent of last year's receipts had been received.

Officials of the Boone County Tuberculosis Association through the organization's president, Mrs. Sibilla Reimer, have issued a special appeal to the citizens of Boone County to respond to this great voluntary cause and to help keep the county's record of "never failing to reach our goal."

These officials have requested that you "do not put this bit of Christmas shopping off a day longer." They ask you to remember that most of your contribution stays within your county and is used to help in the control and eradication of TB through case finding, education, rehabilitation and medical research.

The local organization likewise appeals to the leaders in our communities to stress the importance of the fight against tuberculosis through the purchase of Christmas Seals. Organizations, schools, civic groups and others are needed in the program to let the public know what your purchase of Seals does to help the health of our nation. These are the facts! Think them over! Three people die every day in Kentucky from tuberculosis. Kentucky is one of three states having the highest death rate from tuberculosis. Boone County has several cases now.

Anyone desiring information relative to the Christmas Seal program or Tuberculosis Association programs for use to clubs, classes or organizations may obtain same by addressing card to R. G. Maurer, publicity chairman, Boone County Tuberculosis Association, Burlington, Ky.

Music will be furnished by a Boone County choir made up of the choir members of various churches throughout the county under the direction of Edwin Walton. Approximately 100 persons met at Burlington Monday night for rehearsal.

Pastors from the various communities throughout the county are cooperating in the one night revival plans, and it is expected that large numbers from all sections will be in attendance.

Dr. Lakin is heard daily by most Boone Countyans. He is doing a great religious work throughout the nation with his radio program from Cadle Tabernacle, and his personal appearance tours.

An urgent appeal is made to all residents throughout this section to attend this service. It is an opportunity to hear one of the great gospel preachers of today.

Residents of the East Bend and Woolper neighborhood will be furnished transportation to and from the services by the Burlington Bus Line. The same territory will be covered by the two buses as on Sunday morning. All persons residing on these roads who desire to attend the service are requested to be ready not later than 7:00 p. m. The cost of bus service is being paid by members of the local Baptist Church.

Ohio Receding Slowly After 55.6 Stage Monday

Expected Be Back In Banks By Week End, According To Reports.

The swollen Ohio River was receding slow this week and is expected to be back in its banks by the week-end according to reports. The river which crested at 56 feet early Monday had receded to 55.6 at midnight Monday and was expected to recede to the 52-foot flood stage by Wednesday at 7 p. m.

Corn crops were damaged in several Boone County communities by the flood waters of the Ohio. Roads in the County blocked by the swollen river will be ready for traffic within a few days, it was reported. Hamilton school has been closed due to the high water blocking roads in that community, but will reopen as soon as highways are open.

GOVERNMENT REGULATION "X"

Under Regulation "X," loans cannot be made on new homes unless the borrower has the down payment in actual cash. He cannot borrow the down payment, no matter how much collateral he may have. This does not apply to old homes. We have tried to encourage SAVING, for some time, while prices were high, in order to be ready to take advantage of opportunities. This ruling very forcibly shows the necessity of SAVING.

I BELIEVE NO HEARING AID NEED SELL FOR MORE THAN \$75.00. HERE IS WHY:

EVEN WITH PRESENT HIGH COSTS OF LABOR AND MATERIALS, IF ZENITH WISHED TO SELL A HEARING AID AT \$200 (WHICH WE DON'T) WE WOULD NOT, EVEN WITH OUR ENORMOUS FACILITIES AND THE MILLIONS OF DOLLARS WE SPEND IN OUR RADIO LABORATORIES ON RESEARCH, KNOW HOW TO BUILD IT BETTER THAN OUR SENSATIONAL NEW MINIATURE \$75.00 INSTRUMENT, NOR DO WE KNOW WHERE TO OBTAIN OR HOW TO USE MORE EFFICIENT MATERIALS.

THE BETTER HEARING AID HAS BEEN BUILT—AND ZENITH HAS BUILT IT.

Thirty-four years ago farmers were in such dire need of better credit that Congress authorized the Federal Land Bank system. Since then, more than one million farmers have gotten BETTER farm land financing with Federal Land Bank Loans.

The Federal Land Banks are cooperatively owned by farmers who use the credit they extend. Their only purpose is to provide farm families with farm loans best adapted to their individual needs.

If you are looking for a BETTER farm loan, look into a Federal Land Bank loan. You'll get a long-term loan, with amortized repayment, low 4% interest rate, the privilege to repay any amount at any time, future payment fund protection, and friendly local service. There are no application fees, appraisal fees or renewal fees. And, for years National Farm Loan Associations have been paying their members a dividend.

Make application through your National Farm Loan Association TODAY.

Peter Capra

Executive Director of the Boys Club of New York, says:

"Television is more than fun for boys. It is significant and true that since the inclusion of television in the Boys Club program, the Glee Club, Drama and Music Groups have improved tremendously in the number of boys participating. Television properly integrated in the over-all program of wholesome recreation will continue to make an increasingly valuable contribution by keeping growing boys informed, entertained and happy... essential factors in building character and developing personality."

E. Y. CHAPIN GIVEN PRAISE BY CHARLES B. COLEMAN

Recently Major Charles B. Coleman U. S. A. acted as the representative of the Chapin Memorial Library in bestowing the E. Y. Chapin bus at Central High School, Chattanooga, Tenn. Mr. Coleman had this to say:

"Mr. Chairman, Central Faculty, Students, Ladies and Gentlemen: 'My affection for Mr. Chapin is such that it is difficult for me to confine myself to the space allotted on this program.

"I shall direct my remarks especially to the Central faculty, because

I hope what I say they may in part pass on to the coming generations of students as well as those now here.

"The point I want to make is this: You need an answer to the question: 'Who is that?' Don't satisfy yourselves by saying, 'Oh, that is a generous old gentleman who loves people and loves books.' That is too small a part of the truth. You owe it to your students to tell them more. It is hard for us to understand some very important things about America when we deal in statistics that are all in billions, but we have right here before us a

human example that we can understand.

"In the life that Mr. Chapin has led in this community in the sixty odd years since he arrived, we see right before us the qualities of character that have made America great. His unselfish work and gifts of time and money to the cultural and educational development of Chattanooga have placed him as the leader and all too well known to call for detailing. But it took more than a kind heart and a free hand to do these things.

"Tell your students that Mr. Chapin came here as a young man, a stranger with little more than his train fare—at a time when Market Street was knee deep in mud when it rained—and amassed a fortune. This was before the government had undertaken to underwrite every man's future. To accomplish what Mr. Chapin did in those pioneering days of business and industry, took courage of the highest order, foresight and wisdom unbelievable energy and most of all integrity.

"Mr. Chapin has always been a fighter—he wouldn't know how to straddle or side step an issue. Expediency meant nothing to him where a principle was involved.

"But let's go back to what we said was most important. You teachers have been distressed I know at the growing cynicism of the younger generation, their often expressed feeling that material success is accomplished only by sharp dealing, ruthless disregard for the rules of decency and any low tramping over the less-fortunate on the way up.

"What better contradiction could you ask than Mr. Chapin? Whose very name stands in this his home, for what we admire more in men.

"Let those who look forth in the future turn to Mr. Chapin's career and take courage. Let this be a shrine and a constant reminder."

Walton Man Faces Murder Charge In Boone County Court

Charge Filed Following Fatal Shooting of Mrs. Amelia Dixon.

Ira Dixon, colored, Walton, was arrested Wednesday afternoon of last week by Sheriff Wendell Easton on a charge of murder in a warrant sworn to by William McEvoy, Boone County attorney.

The warrant was issued after an investigation by Sheriff Easton and Attorney McEvoy, following the death of Mrs. Amelia Dixon, who was found shot in her home, and later died at St. Elizabeth Hospital, Covington.

Dixon reported he found his wife lying on the bathroom floor of their home.

The investigators found several bullet holes in the ceiling of the room in which the woman was shot, and in view of other circumstances, Sheriff Easton and the County Attorney, being dissatisfied with a suicide verdict placed the murder charge.

The victim had a bullet wound in her abdomen, another between the thumb and forefinger on her right hand, and a severe cut on the left side of her head, about two inches above her ear.

When arraigned before Judge C. L. Cropper, Dixon posted \$10,000 bond and was released pending an examining trial which will be held at a later date.

Funeral services were held Sunday at the Hamilton funeral home, Verona, for James Hopperton, 84-year-old retired Boone County farmer, who died Thursday at his home in Verona. Burial was in New Bethel Cemetery.

A special attraction will be the picture lecture of Lowell Thomas, Jr., regarding his expedition into the fabulous land of Tibet.

The first day session will be held in the University's new \$4,000,000 coliseum. Tobacco production will receive a lot of attention in the program.

Subjects to be discussed will include control of diseases and insects; the effects of topping, suckering and pruning on yield and quality; curing, price variations, foreign markets, trends in the use of burley, and increasing yields with new crops and fertilizers. One of the speakers will be Hugh Taylor, executive secretary of the Burley and Dark-Lark Tobacco Export Association at Washington.

The production of hay and silage, feeding roughage, improving pastures, growing clovers, alfalfa and other hay crops and general soil management will be the subjects of talks. The work of soil-testing laboratories will be explained.

Other programs of the four-day convention will deal with livestock production, dairying, farm engineering, farm management, fruit production, marketing, and the rural community and church.

Exclusive programs for women will be given in Memorial Hall, when many problems in homemaking will be discussed.

Next Monday, December 25th is Christmas and the following Monday, January 1st is New Year's Day. Both of these days are legal holidays, and all banks and public offices will be closed on these two days.

Blind Basketball Tourney Set For January 3-4th

Sponsored By Boone County School News; Eagles Favored To Win.

The fourth annual Boone County School News basketball blind tournament will be held Wednesday and Thursday nights, January 3-4, at the Burlington high school gymnasium. Competing schools, as in the past, will be the Hebron Cardinals who won the opening tourney back in 1948, the Florence Knights, New Haven's Tigers, and the host Burlington Eagles who took top honors the past two years.

The tournament which is sponsored by the School News has proven very popular with county fans in the past. Drawings for opposition and time of play is made one-half hour prior to the opening whistle. Tournament officials as announced by the School News will be Edgar McNabb of Beechwood and Boyd Mahan of Dixie Heights, referees, Lee McNeely, Jr., of Burlington, timer and James R. Huey, scorer.

Eagles Favored
Burlington's Eagles will be favored to win according to many fans, and another win for the Eagles will give them permanent possession of the tourney trophy—but other county teams will definitely be out to duplicate the "Army-Navy" affair. At present it appears that at least two of the teams stand a fair chance to pull this upset. Hebron's Cardinals who have the best won-and-lost record in the county is always a Burlington nemesis and seem to stand the best chance of moving the trophy from Burlington to Hebron for a rest in their trophy case.

Florence, who has suffered two league setbacks so far, one at the hands of Hebron, also are coming fast and may be ripe about tournament time. (Thursday night's game—December 21) will show how the Eagles and Knights stack up. They are scheduled at Florence.

New Haven, though winless this season, definitely have more than they have shown and are expected to come into the two-night tourney as "darkhorses."

Make your plans now to support your favorite team as some exciting basketball. All proceeds of the tournament go toward financing the school newspaper.

Admission price will be 40 cents person.

Fire Destroys Big Bone Tavern and Residence, Tuesday

Loss Is Estimated At Approximately \$15,000 According To Reports.

Fire of undetermined origin destroyed the tavern of Russell Miller and an adjoining 5-room, 2-story building at Big Bone, Ky., Tuesday afternoon, according to Harold Martin, Acting Florence Fire chief. The fire was discovered by J. D. Moore, who was passing the tavern and noticed that the building was filled with smoke. The Florence Volunteer Fire Department was summoned, but due to the distance from Florence to the scene of the fire, both buildings were beyond saving by the time the department arrived on the scene.

Loss was estimated at approximately \$15,000 in the double blaze. Furniture and fixtures of the tavern were a complete loss, and all household furnishings of Mr. and Mrs. Lon O'Rourke, owner of the frame residence were lost in the blaze.

Volunteer firemen and workers of the community saved the Miller residence and other buildings nearby, Mrs. Miller reported.

Hebron Cardinals Maintain Highest Won-Lost Percentage

Defeat Florence Knights In Conference Tilt Friday Night by 56-44 Count.

Hebron's Cardinals continue to maintain the best overall won-and-lost percentage among Boone County basketball teams. Charley Ransler's Cardinals won their opening conference tussle last Friday night against the Florence Knights at Hebron by a 56-44 score after losing a heart-breaker to Silver Grove's Big Trains earlier in the week.

Burlington's Eagles lost a thriller to the Gallatin County Wildcats last Tuesday. The score was 55-52. The Eagles rebounded Friday night at the expense of the New Haven Tigers to the tune of 82-44. The Eagles, using an unexpected zone and fast break, tossed about everything through the hoop but the team manager to hang up their second consecutive conference win.

New Haven, besides losing the Burlington contest, was smothered by Ludlow last Tuesday night 82-27. Florence's only loss of the week was their setback by Hebron. Walton's Bearcats lost two close ones last week to Bellevue 51-49 and to Erlanger Lloyd by a 47 to 45 count. In both contests the winning marker was made in the waning seconds of the contest.

With the season almost a third gone Hebron holds a lead in all games played with a 3-3 record and Burlington tops the Boone Conference with a 2-0 count. Games this week and the coming Boone County tourney should fairly well tell the story as to which of the county quints holds an edge.

Several such scholarships are available to Boone County boys who intend to enroll in the College of Agriculture at one of the many land grant colleges. Final Appeal Made In Boone County Christmas Seal Sale

Has Become Established As Part Of Our Holiday Tradition.

The Boone County Tuberculosis Association, in a cooperative effort with the State and National Associations, makes a final appeal to the people of Boone County to make Christmas complete by buying and using Christmas Seals for the fight against a disease which is affecting a half-million Americans—many of which are Kentuckians and some of which are local citizens.

Like the spirit of Christmas itself, the Christmas Seal speaks a universal language. It tells a story of cooperative effort, of people united in their determination to defeat an enemy which knows no boundaries of any sort—geographical, racial, age, color, or creed.

The Christmas Seal has become established as part of our holiday tradition. It is a tribute to the vision of the people who buy these seals in realizing that they, as individuals, can help stop the progress of tuberculosis, which even today is the most destructive of all communicable diseases.

Have you bought your CHRISTMAS SEALS?

1951 Auto Licenses In Hands Of County Clerk

New 1951 auto license plates are now in the hands of County Clerk C. D. Benson, and can be purchased at any time. Persons making application for new tags should bring their 1950 registration certificates with them, according to Mr. Benson.

Father And Two Children Die In Blazing Home Early Sunday Morning; Mother and One Child Escape Flames

Bodies Removed From Ashes By Burlington Volunteer Firemen; Services Held Tuesday From Funeral Home At Florence.

A young father, his daughter and son died in a burning early Sunday morning in one of Boone County's worst tragedies when their home located on Woolper Creek, seven miles from Burlington was destroyed by fire.

The victims were Thomas Gayle Craddock, 30, his daughter, Judith 10 and his son Leonard 4. They were removed from the ashes by Burlington volunteer firemen Sunday morning.

The family which had been away

from home, returned late Saturday evening, refueled the stove and retired for the evening. They were awakened early Sunday by the fire which evidently had started in the attic of the four-room structure. Audrey Massey, a 14-year-old girl who was spending the night with the Craddocks, roused Judith, with whom she was sleeping, then rushed to the crib of the 7-month-old baby and carried her from the burning building.

It is believed that in attempting to rescue the children Mr. Craddock either fell or was struck by falling timbers. His wife who escaped from the fire attempted to rescue the children through an outside door opening into the bedroom, but was severely burned in her attempt. A large timber was across the body of the father when found in the burning embers.

Neighbors living nearby were unaware of the blaze until Miss Massey and Mrs. Craddock arrived at their home carrying the young baby. The mother suffered severe burns about her face, hands and feet in her rescue attempts, and her condition was aggravated by exposure. Barefooted, clad only in nightgown, carrying the infant and leading Miss Massey, she walked several hundred yards in the freezing weather to the refuge of another farmhouse.

Mrs. Craddock was removed to Booth Hospital, Covington, in an ambulance of the Chambers & Grubbs funeral home, Florence. Her condition was reported as fair.

According to reports from firemen, Sheriff Easton and Coroner Robert Brugh, the house was virtually falling in when the blaze was detected by the family.

Mr. Craddock was a very industrious young farmer. He was a veteran of World War II and was well known throughout this section. Damage was estimated at approximately \$4,000. It was reported that approximately \$600 in cash was destroyed in the blaze, along with all household goods and clothing.

Mr. Craddock is survived by his wife Edna; one daughter, Joyce Kay; his parents, Mr. and Mrs. Tom Craddock, Hebron; four brothers, Orville, of Florence R. 1; Norman, of Hebron; William, Elk City, Okla.; and James of Hebron; four sisters, Mrs. John Hensley, Hebron; Mrs. Thomas Judd, Florence, R. 1; Mrs. Ervin Scudder, Hebron and Mrs. Barney Turner, of Hebron.

Triple funeral services were conducted Tuesday, December 19th at 2:30 p. m., from the Chambers and Grubbs funeral home, in Florence, with Rev. R. A. Johnson, officiating. Burial was in Burlington Cemetery.

Burley Reaches Season High In Monday's Sales

Gains of \$1.00 to \$3.00 Over Friday's Sales Shown In Reports.

The State Department of Agriculture reported the statewide average price of burley tobacco zoomed to its highest level of the season in Kentucky Monday.

The department said a price average of \$49.96 a hundredweight was recorded on sales of 1,996,150 pounds of leaf for \$5,992,815.74 at 25 markets.

Carrollton sold 635,850 pounds for an average of \$50.83, while Covington sold 238,408 pounds for an average of \$47.88.

A stronger demand Monday for burley tobacco resulted in the best market of the season, the Federal-State Market News Service said in reporting on conditions throughout the burley belt. Averages prices for a large number of representative grades were \$1.00 to \$3.00 higher than on Friday.

Most gains were \$2 and \$3 per hundred. The increases were in leaf and low and medium qualities of tips, lugs and flyings. Many of these grades hit the highest daily average of the season. A few better grades of lugs and flyings and some nondescript held unchanged.

General quality of the offerings was slightly better as more good and fine grades of lugs and flyings were marketed. Volume of sales was heavy.

Weekly gross sales ending December 15 in the belt amounted to \$9,419,936 pounds at an average of \$47.30 a hundredweight. Season sales through the same date totaled 231,090,652 pounds, averaging \$47.96.

Final tobacco sales until after the Christmas holidays will be held this week at the Covington Independent Tobacco Warehouse, Erlanger and the Kenton Loose Leaf Warehouse, Covington.

ARTIFICIAL BREEDING BEATS KEEPING SIRES

The cost involved in breeding cows artificially, in the system used in Kentucky, consists first of membership and assessment fees, which are paid only once, says a new circular on artificial breeding, published by the College of Agriculture and Home Economics, University of Kentucky.

The life-time membership is \$8 and the cow assessment fee is \$1 for each cow signed up for breed-

ing. If a farmer decides to breed more cows than the number for which he has paid assessments, he merely pays an additional \$1 for each cow added.

The regular breeding payment is \$5 paid at the time the cow is bred. Two additional services may be given without further charge. After however, there is a charge of an additional \$2.

In most herds it is probable that artificial breeding is cheaper than owning bulls. Also it makes avail-

able some of the best sires of the dairy breeds.

Merry Christmas and a Happy New Year to The Recorder staff all correspondents and readers. Congratulations to Mr. and Mrs. Tommy Flick, who are the proud parents of a baby girl, born last Saturday in Booth Hospital. Mr. and Mrs. Lewis Rogers left Friday evening for Hollywood, Fla., to visit over the holidays with Mr. and Mrs. George Shinkle and family. Mr. and Mrs. Alton Buckler moved here from McVine last Tuesday

and have opened up a restaurant across the road from the bank building. They are now prepared to serve the public with good home cooked meals. Mrs. Charley Brown was quite ill several days last week. Mr. and Mrs. Bob Stephens and sons spent the day Friday with Mr. and Mrs. Cliff Diner. Webb Rogers visited during the past week with Mr. and Mrs. Tom Rogers and family. Mr. and Mrs. Don Loomis were guests of Mrs. Ted Williamson Sunday. Mrs. W. D. Brown called on Mrs.

Richard Marshall Sunday afternoon. Fred Birke continues seriously ill at this writing.

NEW HAVEN HOMEMAKERS
Mrs. Ed Grater was the hostess to the New Haven Homemakers for the December meeting. The home was beautifully decorated for the occasion. The outstanding feature was the little house made of sugar.

It took a lot of time and thought and we all appreciate Mrs. Grater's kindness in making our meeting so pleasant. The meeting was called to order by the president, and plans were made to send a number of Christmas remembrances. We regret that due to the severe weather plans for the Christmas party at the Beagle Club Dec. 26th have been abandoned. After a delightful lunch the old gift lady distributed gifts. Those in attendance were Mesdames Liggett, J. Huey, G. Moody,

F. Morrison, H. Craddock, A. Wag-enlander, N. Laibly, M. C. Owens, Miss R. Collum and Miss Nancy McClaskey our Home Demonstration Agent.

PT. PLEASANT HOMEMAKERS
A festive Christmas Party at the home of Mr. and Mrs. Leonard Smeltzer on Donaldson Highway was attended December 9th by members of the Point Pleasant Homemakers' Club and their husbands. Twenty-four were present. Games gifts and a travel movie on Aca-

pulco, Mexico were features of the evening's entertainment. A delicious buffet supper climaxed the evening.

Mrs. Robert Dolwick and Mrs. John Darby were in charge of arrangements, and Miss Nancy McClaskey was a special guest.

Program Outlined For Feeding Dairy Cows

Feeding each cow according to her ability to produce helps combat high milk costs in winter, according to Bill Davis, County Agent. Feeding at this time of year should include grain, the amount governed by the quality of the hay, silage or other roughage. With good quality roughage, the concentrate mixture might consist entirely of homegrown grains or contain only 100 pounds of purchased, high-protein supplement to

1,000 pounds of grain, which makes a 12 percent protein ration. If the quality of roughage is only fair, the concentrate mixture should contain about 16 percent protein. At this level, 500 pounds of homegrown grains must be supplemented with 100 to 120 pounds of high-protein supplement. With poor-quality roughage, the concentrate costs are still higher. It is then essential that the protein content of the concentrate ration be near 20 percent. This requires that 200 pounds of high-protein supplement be added to each

500 pounds of home-grown grains. Cows should be grain fed according to the amount of milk produced daily. When good roughage is fed grain feeding for Holstein and Brown Swiss cows should begin at the 17 pound level, and at the 14 pound level for Jerseys and Guernseys. In general 1 pound of grain should be fed daily for each 2 pounds of milk above these starting points.

Johnson or mail their contribution to him at Burlington, Ky., giving your name and address and amount of donation.

REALTOR NAMED COLONEL

R. M. Lucas, well known realtor and auctioneer, has had the honor of being designated as a Colonel on the Governor's staff.

This was the last official appointment made by Governor Earle C. Clements. There are about 275 Colonels in the U. S. belonging to the "Honorable Order of Kentucky Colonels."

Mr. Lucas has been in the real estate and auction business for 35 years with offices at 115 W. 3rd St., Cincinnati, Ohio and has conducted sales in most of the states in the Union. He has just returned from Los Angeles where he is handling a subdivision containing 50 commercial acres located in the heart of that city and he believes it will bring approximately a million dollars. He makes his home at the Carlsbad Hotel, Dry Ridge, Ky.

POULTRY POINTERS GIVEN BY COUNTY AGENT DAVIS

Every year recommendations have been handed out stating that early chicks are the ones that make the most money, according to Bill Davis, County Agent. This means getting chicks in December, January or early February. This may mean more work and worry but the increase in income per hen will more than offset these. Every spring we find our markets flooded with eggs, this means that very few people take these recommendations seriously. They get their chicks in April, May and even June and have their pullets in production in time to hit the surplus egg season and thus reap the lowest egg prices of the year. So this year as usual we are urging poultry raisers who wish to make pullets pay their way, to get them early.

Some of the reasons why early chicks pay are: By getting chicks early in the year, the brooding work comes at a slack time of the year; there are not a lot of other chores to interfere with giving plenty of attention to the new chicks. Such details as proper temperature, ventilation and feeding can be checked more closely, producing healthier pullets. Another advantage of early chicks is that due to the cool weather, poultrymen have a little better control over brooding temperatures, thus resulting in faster growing and better feathering. Brooding early chicks gives a healthier chick because most of the organisms and parasites are dormant at this time of the year. Another big advantage of early chicks, especially if one buys straight run chicks, is that extra cockerels will be ready for market at a time when the price is most favorable, before the bulk of the farm run cockerels reach the market.

To make money from eggs a poultryman should have eggs when no one else has them. Eggs sold during the first six months of the year average 13c more per dozen than eggs sold during the first six months of the year. To get pullets in production with a good size egg for this top market, get those chicks early. By getting them early you can capitalize on high fall egg prices and also have hatching eggs to sell in the early spring. A marketing system like this could mean many more dollars to Kentucky's poultry industry.

Never lose sight of the fact that to make pullets pay an all around sound program must be used. Besides getting chicks early, buy chicks of good breeding, take good care of them and produce a high quality product. These are the keys to success in poultry husbandry.

Stand Up Straight**N. TULCH**

Foot Comfort Specialist at—**PEOPLE'S SHOE STORE**
814-816 Madison, Covington

Standing and sitting erect require less muscular effort than the slumped posture for the normal, health person. With the body in an erect attitude the center of gravity passes more nearly thru the center of the body and places the weight on bones and ligaments that are by nature equipped to meet this demand. When the head slumps forward, the shoulders droop, the spine curves and the abdomen bulges; then muscles must take on more and more of this burden of weight bearing, a burden for fatigue and later actual deformity of certain of the bones and joints.

The first necessity in good posture is good feet.

Show me a person with good posture and bad feet. It's almost impossible.

But show me a person with good posture and I'll show you a person with good feet for good posture starts with good feet. The foundation of any super structure is the most important.

Don't suffer another day with your feet.

No matter how many shoes or trial supports you have tried, try just one more and have one of our foot comfort specialists make a free foot analysis and show you how to get rid of all foot pains, leg pains, backaches and headaches. Even arthritis and rheumatism pains are often mistaken—most times when feet are corrected the pains vanish. We know we can help you to stand up straight.—Adv.

NEW HAVEN HOMEMAKERS

COMMEND UNION FIRM

Last year, just a week before Christmas, Reuben Kirtley installed a loud speaker on the roof of his hardware store in Union, and on a recording machine played Christmas carols. As the carols rang out over the countryside, they made us not only think but made us very happy, for his thoughtfulness brought us closer together.

I understand he is repeating the

carols again this year. As we all are concerned over the critical condition of the world, it is wonderful to know we are living in a free and beautiful country. To hear "O Little Town of Bethlehem," "Silent Night" and "O Come All Ye Faith-

ful" resounding over the land covered with snow, makes us feel that "Peace on earth, good will to men" will again reign over the earth.

Thanks to you, Mr. Reuben Kirtley.
